## **Revolutionary Patience:**

**Revolutionary Patience** Dorothee Soelle, 2003-03-24 Dorothee Soelle enjoyed a solidly established reputation as theologian in both Europe and the United States Works such as *Christ the Representative* Political Theology and *Suffering* have shown her to be a writer who combined scholarship with clarity of expression and made theology come alive through her human warmth and compassion *Revolutionary Patience* however reveals yet another facet of Soelle as both person and writer With disarming simplicity the prayer poems in this book reflect the author's own deep Christianity as she attempts to make sense in the light of the Gospel of a world brutally scarred by oppression filled with cries of the hungry and the hunted These poems are also prayers of a kind rarely heard in our churches but disturbingly evocative of Amos Isaiah and Jesus These pages offer stones not bread for any who might open them looking for spiritual comfort or consolation Yet for those with ears to hear *Revolutionary Patience* will also be a treasured experience as Dorothee Soelle's lines sing and sting their way into the reader's mind and heart *Revolutionary Patience* Dorothee Solle, 1977-01-01 *Prophetic Fragments* Cornel West, 1988 This collection of writings drawn from a wide variety of sources reveals the intellectual depth and breadth of the author The articles include political commentary cultural critique literary analysis extended book reviews and even a short story by West All of these are held together by a prophetic Afro American Christian perspective The value of this book is that it provides easy access to a significant selection of the author's corpus Religious Studies Review October 1989 This volume collects over 50 articles book reviews and addresses by a Union Seminary theologian The most eloquent pieces are those in which West explains and interprets his more personally felt tradition of Afro American Protestantism Library Journal

**Revolutionary Ideology and Islamic Militancy** Najibullah Lafraie, 2009-02-28 The war on terror tends to circumscribe crucial developments in the Islamic world within a narrow definition of Islamic terrorism This partial and incomplete perspective fails to comprehend the links between today's scenario and the Iranian revolution of 1979 a revolution fought in the name of God and spearheaded by religious scholars It is vital to examine the relationship between religious and revolutionary ideologies and the revolutionary potentials of Islamic teachings In a penetrating new study Najibulla Lafraie examines how revolutionary ideologies function and applies these insights to the Quran and its interpreters in the vanguard of the Iranian revolution By unpacking these discourses Lafraie develops and refines the concept of a Quranic revolutionary ideology The Ideology of the Islamic Revolution delineates the different ways in which the Quran was used to mobilise action in 1979 and in so doing provides a context for understanding today's Islamist movements *Luther's Revolution* Nathan Montover, 2012-09-27 Till now history has neglected the utterly radical nature of Luther's thought In bringing together the political theological conceptual and cultural dimensions of Luther's work Montover brings his readers to an awareness of their truly radical nature Luther's understanding of the universal priesthood of believers was not simply another evangelical concept that dealt only with the office of ministry In serving as a means for reordering the concepts of temporal authority

and the temporal order it challenged the cosmological foundations of the political structure of his day A compelling work that can only serve to revive the study of this monumental figure of theology

**Revolutionary Passions** Hamit Bozarslan, Gilles Bataillon, Christophe Jaffrelot, 2017-09-22 Europe has been the chief arena of revolutionary passions since the end of the eighteenth century During this same period and right up to the beginning of the twenty first century the non European world too has resonated with coup attempts and revolutionary turmoil How does one begin to understand these revolutionary passions To what extent are they influenced by European matrices Have these revolutions also themselves resulted in exportable models Three French writers look at three continents Latin America the Middle East and India and interrogate the revolution with reference to and dialogue with the definitive work of Francois Furet who wrote *The Passing of an Illusion The Idea of Communism in the Twentieth Century* Interestingly the original French book *Passions révolutionnaires* was written in 1995 just after the fall of the Berlin wall Whether nationalist religious proletarian international anti colonial or simply liberty and equality whether violent or fought passively the Revolution as a concept and a fact whether past present or future remains a critical reference point for our societies

**Revolutionary Collective** Paul Le Blanc, 2022-04-05 This book surveys revolutionary socialist ideas and engages a gallery of contentious political thinkers offering an indispensable assessment of the place of revolutionary collectives in this radical tradition Beginning with a broad and informative survey of scholarship on V I Lenin and Leninism Le Blanc goes on to explore the multifaceted collective qualities of the Russian Bolshevik organization He then turns his attention to several of its central figures as well as a rich variety of activist intellectuals who in one way or another continued to engage with Lenin's perspectives after his death including Leon Trotsky Alexander Bogdanov Georg Lukács Antonio Gramsci Rosa Luxemburg Karl Korsch and Daniel Bensaïd The volume concludes by considering related questions which have more recently posed problems within left wing organizations gesturing toward the dynamics and needs of future struggles

*Leadership Revolution* John M. Perkins, Wayne Gordon, 2012-10-08 The next generation hungers for strong visionary ethical and passionate leaders Where do we start in this day where we lack leadership at all levels The authors of this breakout book contend that leaders of tomorrow are among us but they need to be identified trained and empowered John M Perkins casts the biblical vision that has started a movement Wayne Gordon has rolled up his sleeves at the grassroots level to spark the transformation of a Chicago neighborhood Together and with friends they founded the Christian Community Development Association Now they put in this book the stories and lessons of discovery growth mistakes success and lives changed They are ready to hand batons of leadership especially for poor and under resourced communities over to the next generation With this book they do just that

**Integral Human Development** Jacques Azetsop, 2019-12-09 Pope Paul VI's notion of integral human development which was endorsed by his successors including Pope Francis broke with the modern project of purely economic and technological development resulting in an original understanding of development Like a conventional notion of development this theoretical construct favors economic

growth technological innovation and the implementation of social programs However development is not just a socioeconomic and political issue let alone a technical one it raises fundamentally theological questions and points to important ethical challenges Hence integral human development is a vocation at which all personal social and political activity must be directed As such it is not a social but an anthropological program Far from being a secular development theory the notion of integral human development emphasizes the religious goal of reconciling humanity and God through the creation of a human family over and above material social and economic issues Sustained by global principle and shaped by different cultural views this book brings forth the uniqueness of this approach to development examines its contribution to human welfare and anticipates the resistances it may face

**Emily Jacir & Susan Buck-Morss** Susan Buck-Morss, Emily Jacir, 2011-06-10 This notebook combines photographs by Palestinian artist Emily Jacir with a text by political philosopher Susan Buck Morss who teaches at the City University of New York written in response to the images and to conversations with the artist Jacir's photographs depict the former Benedictine monastery of Breitenau near Kassel A prison camp in the Nazi era it became a girl's reformatory after World War II These images as well as other photographs taken in Kassel are accompanied by selections from the artist's diary entries which investigate questions around the histories of the represented sites Recalling Walter Benjamin's reading of Paul Klee's *Angelus Novus* Buck Morss textual response unravels how truth and collective memory are established and how the inextricable relation between knowledge and power leads to the selection of what is archived and remembered Language English

***Political Theology in the Canadian Context*** Benjamin G. Smillie, 2006-01-01 This collection focusses on the proposition that theology is at its best when it is political and politics is saved from a secular ideology when it listens to a theological critique The editor draws parallels between the Canaanite period of Israelite history and the Liberal Possessive Individualism that he sees dominating Canadian ideology Following William Hordern's essay defining political theology economist Abraham Rotstein examines *The Apocalyptic Tradition* Luther and Marx and philosopher Kai Nielsen writing from an atheistic and socialist perspective asks *Do We Need a Political Theology* Dorothee S. Ile eminent student of political theology writes on *Theology and Liberation* Two Quebec theologians Yves Vaillancourt and Guy Bourgeault give a Christian Marxist analysis of *Church and Worker in Quebec* Roger Hutchinson provides a concluding summary statement Responses by Gregory Baum Patrick Kerans and the editor enhance the collection The volume makes clear in the increasing importance of political theology in the study of religion and the need for increased dialogue between theology and politics

**Learning to Speak** Keith W. Clements, 2011-06-13 Churches and ecumenical bodies are often criticized for saying too much or too little on social and political affairs But how can churches speak out on such affairs How can churches participate effectively Keith Clements questions the present preoccupation with making statements which not only presupposes that a church has ready made answers but is also symptomatic of modern Western society's obsession with publicity and instant solutions to what are often complex problems Clements examines such

historically famous statements as the German Barmen Declaration of 1934 and the South African Kairos Document of 1985 before exploring the biblical and theological roots of the key motifs of prophesy and discipleship He suggests that Western churches must continue to listen and learn not least from the way churches in regions such as South Africa the Middle East and Eastern Europe are relearning their roles Clements concludes that Western churches must be prepared to talk modestly They must be prepared to be both more disciplined and more imaginative They must also be prepared to be more theological Drawing on a wide range of sources Catholic and Protestant contemporary and historical Clements points the way forward for a Christian community learning to speak in the world and to the world      **Theology of Discontent** Hamid

Dabashi,2017-07-28 Scores of books and articles have been published addressing one or another aspect of the Islamic Revolution in Iran Missing from this body of scholarship however has been a comprehensive analysis of the intellectual and ideological cornerstones of one of the most dramatic revolutions in our time In this remarkable volume Hamid Dabashi brings together in a sustained and engagingly written narrative the leading revolutionaries who have shaped the ideological disposition of this cataclysmic event Dabashi has spent over ten years studying the writings in their original Persian and Arabic of the most influential Iranian clerics and thinkers Examining the revolutionary sentiments and ideas of such figures as Jalal Al e Ahmad Ali Sharicati Morteza Motahari Sayyad Abolhasan Bani Sadr and finally the Ayatollah Khomeini the work also analyzes the larger historical and theoretical implications of any construction of the Islamic Ideology Carefully located in the social and intellectual context of the four decades preceding the 1979 revolution Theology of Discontent is the definitive treatment of the ideological foundations of the Islamic Revolution with particular attention to the larger more enduring ramifications of this revolution for radical Islamic revivalism in the entire Muslim world This volume will be of interest to Islamicists Middle East historians and specialists as well as scholars and students of liberation theologies comparative religious revolutions and mass collective behavior Bruce Lawrence of Duke University calls this volume a superb and unprecedented study In brilliant figural strokes he arrays EuroAmerican sociological theory as the crucial backdrop of a deeper understanding of contemporary Iranian history      The New Reformism and the Revival of Karl Kautsky Douglas

Greene,2024-06-06 This text offers an authoritative historiography of German socialist theorist Karl Kautsky and his impact on debates about the Russian Revolution and the contemporary left Known as the Pope of Marxism Douglas Greene examines the totality of Kautsky s political career and dissects the fundamental opportunism and passive radicalism that defined his Marxism He later examines the most substantive Marxist critics of Kautsky namely Rosa Luxemburg V I Lenin and Leon Trotsky while offering a critical assessment of the work produced by scholars and activists Lars Lih Eric Blanc and Mike Mcnair seeking to revive Kautsky The New Reformism and the Revival of Karl Kautsky is an important addition to scholarship on the subject and a valuable resource for those interested in the Russian Revolution German politics socialism Marxism and contemporary left wing debates      *Lenin* Paul Le Blanc,2023-09-20 A welcome gift Highlighting Lenin s flexibility and

cultivation of collective leadership Le Blanc brings out the practical activism and revolutionary patience crucial to organizing the oppressed on a rapidly over heating planet Jodi Dean author of Comrade Crackling with intellectual life Lars T Lih author of Lenin Rediscovered A wonderful sketch of Lenin s life and times Perhaps the best introduction available in English Michael D Yates author of Can the Working Class Change the World Vladimir Lenin lies in a tomb in Moscow s Red Square History has not been kind to this Russian leader his teachings reviled by modern mainstream politics But in today s capitalist society riven by class inequality and imperialist wars perhaps it is worth returning to this communist icon s demand for Peace Land and Bread and his radical understanding of democracy Lenin was wrestling with the question of what is to be done when facing the catastrophes of his own time Against the odds the Bolshevik party succeeded in rejecting both the corrupt and decaying Romanov dynasty as well as the capitalist economic system which had started to take root in Russia To understand how this happened and what we can learn from him today Paul Le Blanc takes us through Lenin s dynamic revolutionary thought how he worked as part of a larger collective and how he centered the labor movement in Russia and beyond uncovering a powerful form of democracy that could transform our activism today Paul Le Blanc is an activist and acclaimed American historian teaching at La Roche University Pennsylvania He is the author of many books     [Reading the Bible with your Feet](#) Lucy Winkett,2021-09-10 Lucy Winkett is a gifted communicator engaging preacher popular broadcaster and rector of one of London s most vibrant churches In this new collection her first book since 2010 she explores the lived reality of faith through fifty reflections on scripture that span the Christian year Her gift is to bring ancient texts to bear on contemporary experience and to tease out their wisdom for living with authenticity and joy today Reflecting a head heart and feet approach to understanding scripture this collection will delight those who preach with an abundance of wisdom and inspire all readers to embody a living faith     [Making Multiplicity](#) Gerald Raunig,2024-07-02 In this poetical philosophical manifesto Gerald Raunig develops a materialist philosophy of multiplicity On the basis of seventeen conceptual innovations from windy kin to transversal intellect from dissemblage to technecologies from minor masculinity to condividual revolution Raunig reformulates the question of revolutionary multiplicity Always staying close to contemporary social struggles and movements the book starts from the contention that we are in need of a storm against identitarian domination unification and homogeneity Raunig argues that the conceptual and political experimentations with multiplicity around and after 1968 did not go far enough today anti identitarian queer and multitudinarian positions should not just be defended but pushed further over unexpected folds and along the flattest surfaces beyond previous approaches and previous historical experiences Making Multiplicity is a conceptual manifesto which sets a new tone in poststructural philosophy The seventeen concepts developed here form an assemblage that invites us to think read write and indeed make multiplicity     [The Transcendence of Desire](#) Tom James,David True,2023-11-28 The secular age is not a smooth untroubled process of accumulation and advance but an uneven and unpredictable series of clashes of interest Charles Taylor s immanent frame cannot be construed

merely as a phenomenon within religion and culture but urgently needs to be understood in political and economic terms i.e. as a class project. The failure of the secular vividly displayed in the crumbling legitimacy of global institutions and in the spectacle of police violence both calls for and makes possible a renewal of political agency. Tom James and David True argue that a theology of the cross has a distinctive potential today; it can pierce the sacred aura of normalcy around the consensual anti-politics of the neoliberal order so that a vision of a world beyond today's racialized capitalism can emerge. But they contend that we don't need to forsake the emancipatory aims of modernity nor retreat to local communities. As an alternative to these weak strategies, they offer a constructive and cruciform account of political agency that includes both prophetic resistance and practical wisdom, each embedded in contemporary struggles for freedom that they argue embody divine desire for a common world.
