Goldman,1997 A comprehensive introduction to the nations of Central and Eastern Europe over a half century of turbulent change from post war subjugation by the Soviet Union to both shared and divergent experiences of post Communist transition to free market democracies Revolution and Change in Central and Eastern Europe Roger East,Jolyon Pontin,2016-10-06 This comprehensive reference an expanded edition of *Revolutions in Eastern Europe* provides a general introduction and broad historical background of Eastern and Central European countries from the First World War onwards focusing on the development of independent countries and the establishment of Soviet backed dictatorships as well as their subsequent experience of political pluralism and external relations and alignments in post 1989 Europe Each country is covered in an individual chapter giving a factual account of their revolutions and upheavals and an assessment of their underlying causes **Lighting the Night** William Echikson,1990 A personal look at at the people and passions behind the collapse of Communism Jacket subtitle **Revolutions in Eastern Europe and the U.S.S.R.** Kenneth Thompson,1995-10-03 This volume is an old fashioned study in which seasoned and talented historians lawyers politicals scientists and linguists seek to

make sense of the ever shifting patterns of change in the transition from the Soviet Union and its satellites to Russia and the former Soviet Republics and to the recently independent countries of Eastern Europe The authors trace some of the early responses *Revolution and Change in Central and Eastern Europe* Roger East, Jolyon Pontin, 2018 This comprehensive reference an expanded edition of *Revolutions in Eastern Europe* provides a general introduction and broad historical background of Eastern and Central European countries from the First World War onwards focusing on the development of independent countries and the establishment of Soviet backed dictatorships as well as their subsequent experience of political pluralism and external relations and alignments in post 1989 Europe Each country is covered in an individual chapter giving a factual account of their revolutions and upheavals and an assessment of their underlying causes Bloomsbury Publishing *The Unfinished Revolutions in Eastern Europe and the Soviet Union* , 1991 *Spring in Winter* Gwyn Prins, 1990 A compilation of scholarly studies addressing the nature and causes of the 1989 revolutions in Eastern European countries Including a preface by the Czechoslovakian president Vaclav Havel contributors include such well known figures as John Kenneth Galbraith ***Revolutions in Eastern Europe*** Niels Christian Nielsen, 1991 This book seeks to develop a general overview of religion's role in the peoples revolutions in Eastern Europe during the second half of 1989 while recognizing the distinctiveness of events in each country *Empire and Military Revolution in Eastern Europe* Brian Davies, 2011-06-16 In terms of resource mobilization and devastation the wars between Russia the Crimean Khanate and the Ottoman Empire were some of the largest of the 18th century and had enormous consequences for the balance of power in Eastern Europe Brian Davies examines how these conflicts characterized the course of Russian military development in response to Ottoman and Crimean Tatar threats and to determine under what circumstances and in what ways Russian military power experienced a revolution awarding it clear preponderance over the Ottoman Crimean system A central part of Davies argument is that identifying and explaining a Military Revolution must involve examining the role of factors not purely military One must look not only at new military technology new force and command structure new tactical thinking and new recruitment and military finance practices but also consider the impact of larger demographic economic and sociopolitical changes *The East European Revolution* Hugh Seton-Watson, 1985-03-24 ***Hopes and Shadows*** James F. Brown, 1994 After the exuberance that marked the revolutions of 1989 the countries of Eastern Europe have faced the breathtakingly ambitious task of remaking their societies Simultaneously they have sought to build liberal democracies based on market economics while confronting reassertions of claims for national independence long suppressed Taking up where his previous book *Surge to Freedom* ended J F Brown's *Hopes and Shadows* analyzes the results of the first four years of Eastern Europe's separation from communist rule and the prospects for the future The forces at work in the midst of this revolution are examined from a perspective that is necessarily both historical and contemporary as the complex relationship between the tasks that face these countries and the legacy of their communist and pre communist past shape the difficult present As the

usefulness of the designation Eastern Europe is itself questioned Brown provides both regional and country by country analysis of the political situation The Czech Republic Slovakia Hungary and Poland are grouped together as are Romania Bulgaria and Albania to address questions such as the development of liberal democratic culture the activation of democratic institutions and procedures and the future of former communist bureaucracies He considers the former Yugoslavia now torn violently apart largely as a separate case The theoretical political social financial cultural and psychological dimensions of the transition from socialism to a market economy are discussed in detail The final aspect of this revolution the failure of which most immediately threatens the entire process is the attempt to build new and stable national statehoods Brown explores the history and impact of the current reemergence of nationalism and the dangers it represents A comprehensive and authoritative survey J F Brown s analysis and presentation of the contemporary Eastern European political landscape will be essential reading for scholars and specialists and of great interest to general readers *Revolution in Eastern Europe* Peter Cipkowski,1991-04 Analyzes the fall of communism in Eastern Europe country by country during 1989 and 1990 Includes photographs time lines maps and cartoons *The East European Revolution* Hugh Seton-watson,2019-07-09 This book describes the recent history of Eastern Europe especially since 1941 It also describes the process by which the East European communists obtained power and analyses the regime they have established showing the impact of this regime on the social classes and on the citizen
