Revue D Histoire Moderne Contemp Xxiv

Henry Rousso

Revue D Histoire Moderne Contemp Xxiv:

English Literature, Volume 2 Louis A. Landa, 2015-12-08 Two volumes containing the annual bibliographies of 18th century scholarship published in the Philological Quarterly An excellent aid to the student of 18th century literature Saturday Review Volume 2 1939 1950 includes consolidated index for both volumes Originally published in 1952 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Collective Memory Narratives in Contemporary Culture Antonella Pocecco, Estrella Gualda, Emiliana Mangone, 2023-11-27 Starting from the central importance of memory in contemporary societies this book encourages a transdisciplinary reflection on how the presentification of the past is never a simple reenactment but corresponds to the interaction between memory and cultural sensitiveness present beliefs and needs expectations and forecasts for the future It studies cultural re construction through collective stories including academic debates media narratives collective mobilizations state narratives of history architectural reconstructions and artistic expressions It looks at how technological innovations have profoundly changed the practices of conservation and dissemination of collective memory with particular reference to cultural digitization Finally it shows that the relevance and selection of events the organization of connections and cross references between past present and future as well as the importance of diversified collective imaginaries are the keys to narrative constructions of memory that prove to be sensitive and decisive for its continuity and its intergenerational transmission This interdisciplinary collection is for students and scholars of the social sciences cultural studies and the humanities interested in memory studies

France and Women, 1789-1914 James McMillan, Professor James F Mcmillan, 2002-01-08 France and Women 1789 1914 is the first book to offer an authoritative account of women s history throughout the nineteenth century James McMillan author of the seminal work Housewife or Harlot offers a major reinterpretation of the French past in relation to gender throughout these tumultuous decades of revolution and war This book provides a challenging discussion of the factors which made French political culture so profoundly sexist and in particular it shows that many of the myths about progress and emancipation associated with modernisation and the coming of mass politics do not stand up to close scrutiny It also reveals the conservative nature of the republican left and of the ingrained belief throughout french society that women should remain within the domestic sphere James McMillan considers the role played by French men and women in the politics culture and society of their country throughout the 1800s

Party, Society and Government David L. Hanley, 2002 According to received wisdom parties have played a mainly destructive role in French political development Of questionable legitimacy pursuing narrow sectarian goals often corruptly

they have brought about division weakness and the collapse of regimes A proper reading of history suggests differently By combining historical research and contemporary political science theory about party the author shows that for over a century party has irrigated French democracy in often invisible ways brokering working compromises between groups divided strongly along social political and cultural lines The key to this success is the party system which allowed for a high degree of collusion and cooptation between political elites rhetoric notwithstanding This hidden logic has persisted to this day despite the advent of presidentialism and remains the key to the continuing prosperity of French democracy

Social Justice in Twentieth-Century Europe Martin Conway,Camilo Erlichman,2024-03-07 Provides the first historical analysis of the evolution of social justice in Europe during the twentieth century *The French North African Crisis* M. Thomas,2000-09-08 The French North African Crisis analyses the postwar breakdown in French imperial rule in North West Africa concentrating primarily upon the Algerian war of independence The book highlights the human tragedy involved and the divisive consequences within French metropolitan politics of intractable colonial conflict It further examines how far the protracted crisis of colonial control in North Africa shaped French foreign and security policy and this impacted upon Anglo French relations the western alliance and the wider process of decolonization *Reconciling France Against Democracy* Sean Kennedy,2007-02-27 Launched as a veterans group during the mid 1930s the Croix de Feu grew into a nationalist movement with half a million supporters In *Reconciling France against Democracy* Sean Kennedy explores how the group led by Francois de La Rocque reshaped French politics and helped set the stage for the repressive Vichy regime

Renaissance Warrior and Patron R. J. Knecht,Robert Jean Knecht,1994 A paperback of Knecht s comprehensive account of one of France s most important monarchs **The Writing of History and the Study of Law** Donald R. Kelley,2024-10-28 This second volume of essays by Professor Kelley takes the study of history as its starting point then extends explorations into adjacent fields of legal political and social thought to confront some of the larger questions of the modern human sciences The first group of papers examine the historiography of the Protestant Reformation and then of the Romantic and Victorian periods the last section focuses on the legal tradition and its interpretation in relation to social and cultural as well as historical thought in the period from the Renaissance to the French Revolution Throughout the author s interest is to analyse how people at different times have viewed their past and reconstructed and utilised it in the service of their present concerns

Hitler's Foreign Policy 1933-1939 Gerhard L. Weinberg,2010-03-01 Hitler s path to war consisted of two different stages that paralleled the internal development of Germany From 1933 to the end of 1936 he created a diplomatic revolution in Europe From a barely accepted equal Germany became the dominant power on the continent With the remilitarization of the Rhineland the stalemate in the Spanish Civil War the forming of the Axis and the signing of the Anti Comintern Pact the first phase was completed In the second phase the diplomatic initiative in the world belonged to Germany and its partners Germany s march toward war therefore became the central issue in world diplomacy Catherine de'Medici R J

Knecht, 2014-07-16 Catherine de Medici 1519-89 was the wife of one king of France and the mother of three more the last sorry representatives of the Valois who had ruled France since 1328. She herself is of preeminent importance to French history and one of the most controversial of all historical figures. Despised until she was powerful enough to be hated, she was in her own lifetime and since the subject of a Black Legend that has made her a favourite subject of historical novelists, most notably Alexandre Dumas whose *Reine Margot* has recently had new currency on film. Yet there is no recent biography of her in English. This new study by a leading scholar of Renaissance France is a major event. Catherine, a neglected and insignificant member of the Florentine Medici, entered French history in 1533 when she married the son of Francis I for short-lived political reasons; her uncle was pope Clement VII who died the following year. Now of no diplomatic value, Catherine was treated with contempt at the French court even after her husband's accession as Henry II in 1547. Even so she gave him ten children before he was killed in a tournament in 1559. She was left with three young boys who succeeded to the throne as Francis II 1559-60, Charles IX 1560-74 and Henry III 1574-89. As regent and queen mother, a woman and with no natural power base of her own, she faced impossible odds. France was accelerating into chaos with political faction at court and religious conflict throughout the land. As the country disintegrated, Catherine's overriding concern was for the interests of her children. She was tireless in her efforts to protect her sons' inheritance and to settle her daughters in advantageous marriages. But France needed more; Catherine herself was both peace-loving and in an age of frenzied religious hatred, unbigoted. She tried to use the Huguenots to counterbalance the growing power of the ultra-Catholic Guises but extremism on all sides frustrated her. She was drawn into the violence. Her name is inextricably associated with its culmination, the Massacre of St Bartholomew 24 August 1572, when thousands of Huguenots were slaughtered in Paris and elsewhere. To this day no one knows for certain whether Catherine instigated the massacre or not, but here Robert Knecht explores the probabilities in a notably level-headed fashion. His book is a gripping narrative in its own right. It offers both a lucid exposition of immensely complex events with their profound impact on the future of France and also a convincing portrait of its enigmatic central character. In going behind the familiar Black Legend, Professor Knecht does not make the mistake of whitewashing Catherine but he shows how intractable was her world and how shifty or intransigent the people with whom she had to deal. For all her flaws, she emerges as a more sympathetic and in her pragmatism, more modern figure than most of her leading contemporaries.

Confronting America, 2011 Confronting America **Fascism** Michael S. Neiberg, 2017-11-30 This volume presents the best writings on the origins, development, success and failure of fascism outside Germany. By treating the problem in a global context, these essays together add tremendous complexity to our understanding of one of history's most destructive political movements. The collection covers theories, origins and definitions of fascism, fascism in power, fascism in opposition and fascism in a global and comparative setting.

The Latest Catastrophe Henry Rousso, 2016-07-06 The writing of recent history tends to be deeply marked by conflict by personal and collective struggles rooted in horrific traumas.

and bitter controversies Frequently today's historians can find themselves researching the same events that they themselves lived through This book reflects on the concept and practices of what is called contemporary history a history of the present time and identifies special tensions in the field between knowledge and experience distance and proximity and objectivity and subjectivity Henry Rousso addresses the rise of contemporary history and the relations of present day societies to their past especially their legacies of political violence Focusing on France Germany the United Kingdom and the United States he shows that for contemporary historians the recent past has become a problem to be solved No longer unfolding as a series of traditions to be respected or a set of knowledge to be transmitted and built upon history today is treated as a constant act of mourning or memory an attempt to atone Historians must also negotiate with strife within this field as older scholars who may have lived through events clash with younger historians who also claim to understand the experiences Ultimately The Latest Catastrophe shows how historians at times against their will have themselves become actors in a history still being made

The Great Interwar Crisis and the Collapse of Globalization R. Boyce, 2009-10-21 Challenging the standard narrative of Interwar International History this account establishes the causal relationship between the global political and economic crises of the period and offers a radically new look at the role of ideology racism and the leading liberal powers in the events between the First and Second World Wars

Fascists and Conservatives Martin Blinkhorn, 2003-09-02 What has between the radical and the conservative right in twentieth century Europe In Fascists and Conservatives thirteen distinguished authorities on the European right explore this major theme within Italy Germany Spain Portugal France Britain Austria Romania Greece and the Nordic countries

The Extreme Right in Interwar France Samuel Kalman, 2016-12-05 Historians of the French extreme right frequently denote the existence of a strong xenophobic and nationalist tradition dating from the 1880s a perpetual anti republicanism which pervaded twentieth century political discourse Much attention is habitually paid to the interwar era deemed the zenith of this success when the leagues attracted hundreds of thousands of members and enjoyed significant political acclaim Most works on the subject speak of the French right or French fascism presenting compendia of figures and organizations from the Dreyfus Affair in the 1890s through the notorious Vichy regime the authoritarian construct which emerged following the defeat to Nazi Germany in June 1940 However historians rarely discuss the programmatic elements of extreme right wing doctrine which demanded the eradication of parliamentary democracy and the transformation of the nation and state according to group principles Instead most detail the organization and membership of various organizations and often recount their quotidian activities as political actors within and in opposition to the Third Republic This book offers a new interpretation of the extreme right in interwar French politics focusing upon the largest and most influential such groups in 1920s and 1930s the Faisceau and the Croix de Feu It explores their designs for extensive political economic and social renewal a project that commanded significant attention from the leadership and rank and file of both organizations providing the overarching goal behind their aspiration to power The book

examines five components of these efforts A renewal of politics and government the establishment of a new economic order a revaluation of gender and familial relations the role of youth in the new socio political construct and the politics of exclusion inherent in every facet of Faisceau and CDF doctrine In so doing it contributes to a historical understanding of the programmatic elements of the interwar extreme right while simultaneously situating its most prominent exponents within their broader historical context **Francis I** R. J. Knecht, 1984-04-26 R J Knecht investigates the reign of Francis I of France

The American Historical Review John Franklin Jameson, Henry Eldridge Bourne, Robert Livingston Schuyler, 1906
American Historical Review is the oldest scholarly journal of history in the United States and the largest in the world
Published by the American Historical Association it covers all areas of historical research *The French empire at War, 1940-1945* Martin Thomas, 2017-03-01 The French empire at war draws on original research in France and Britain to investigate the history of the divided French empire the Vichy and the Free French empires during the Second World War What emerges is a fascinating story While it is clear that both the Vichy and Free French colonial authorities were only rarely masters of their own destiny during the war preservation of limited imperial control served them both in different ways The Vichy government exploited the empire in an effort to withstand German Italian pressure for concessions in metropolitan France and it was key to its claim to be more than the mouthpiece of a defeated nation For Free France too the empire acquired a political and symbolic importance which far outweighed its material significance to the Gaullist war effort As the war progressed the Vichy empire lost ground to that of the Free French something which has often been attributed to the attraction of the Gaullist mystique and the spirit of resistance in the colonies In this radical new interpretation Thomas argues that it was neither of these The course of the war itself and the initiatives of the major combatant powers played the greatest part in the rise of the Gaullist empire and the demise of Vichy colonial control

This is likewise one of the factors by obtaining the soft documents of this **Revue D Histoire Moderne Contemp Xxiv** by online. You might not require more epoch to spend to go to the ebook inauguration as competently as search for them. In some cases, you likewise pull off not discover the notice Revue D Histoire Moderne Contemp Xxiv that you are looking for. It will categorically squander the time.

However below, later you visit this web page, it will be in view of that categorically easy to acquire as with ease as download guide Revue D Histoire Moderne Contemp Xxiv

It will not put up with many period as we explain before. You can reach it while show something else at home and even in your workplace. in view of that easy! So, are you question?
