The Extreme Right in Interwar France Samuel Kalman, 2016-12-05 Historians of the French extreme right frequently denote the existence of a strong xenophobic and nationalist tradition dating from the 1880s a perpetual anti republicanism which pervaded twentieth century political discourse Much attention is habitually paid to the interwar era deemed the zenith of this success when the leagues attracted hundreds of thousands of members and enjoyed significant political acclaim Most works on the subject speak of the French right or French fascism presenting compendia of figures and organizations from the Dreyfus Affair in the 1890s through the notorious Vichy regime the authoritarian construct which emerged following the defeat to Nazi Germany in June 1940 However historians rarely discuss the programmatic elements of extreme right wing doctrine which demanded the eradication of parliamentary democracy and the transformation of the nation and state according to group principles Instead most detail the organization and membership of various organizations and often recount their quotidian activities as political actors within and in opposition to the Third Republic This book offers a new interpretation of the extreme right in interwar French politics focusing upon the largest and most influential such groups in 1920s and 1930s the Faisceau and the Croix de Feu It explores their designs for

extensive political economic and social renewal a project that commanded significant attention from the leadership and rank and file of both organizations providing the overarching goal behind their aspiration to power The book examines five components of these efforts A renewal of politics and government the establishment of a new economic order a revaluation of gender and familial relations the role of youth in the new socio political construct and the politics of exclusion inherent in every facet of Faisceau and CDF doctrine In so doing it contributes to a historical understanding of the programmatic elements of the interwar extreme right while simultaneously situating its most prominent exponents within their broader historical context

The French North African Crisis M. Thomas, 2000-09-08 The French North African Crisis analyses the postwar breakdown in French imperial rule in North West Africa concentrating primarily upon the Algerian war of independence The book highlights the human tragedy involved and the divisive consequences within French metropolitan politics of intractable colonial conflict It further examines how far the protracted crisis of colonial control in North Africa shaped French foreign and security policy and this impacted upon Anglo French relations the western alliance and the wider process of decolonization

A History of Fascism in France Chris Millington, 2019-12-12 CHOICE Outstanding Academic Title 2021 A History of Fascism in France explores the origins development and action of fascism and extreme right and fascist organisations in France since the First World War Synthesizing decades of scholarship it is the first book in any language to trace the full story of French fascism from the First World War to the modern National Front via the interwar years the Vichy regime and the collapse of the French Empire Chris Millington unpicks why this extremist political phenomenon has at times found such fervent and widespread support among the French people The book chronologically surveys fascism in France whilst contextualizing this within the broader European and colonial frameworks that are so significant to the subject Concluding with a useful historiographical chapter that brings together all the previously explored aspects of fascism in France A History of Fascism in France is a crucial volume for all students of European fascism and France in the 20th century

Children by Choice? Ann-Katrin Gembries, Theresia Theuke, Isabel Heinemann, 2018-05-22 During the 20th century medico technical advances such as the invention of the latex condom 1930 the arrival of the contraceptive pill on the free market 1960 61 and the birth of the first child conceived by in vitro fertilization 1978 contributed to the fact that in Europe and the USA the planning conceiving and making of children was increasingly perceived as a matter of individual and collective decision making Especially since mid century these societies underwent profound political economic and cultural evolutions In the realm of human reproduction the relationship between the possible

the desirable and the permitted had to be continually renegotiated This volume examines in nine chapters how thinking speaking and acting changed with regards to reproduction and family planning throughout the modern and post modern period Applying an international comparative perspective the study specifically focuses on the role of value changes underlying these transformation processes *Imagining Vietnam and America* Mark Philip Bradley, 2003-06-19 In this study of the encounter between Vietnam and the United States from 1919 to 1950 Mark Bradley fundamentally reconceptualizes the origins of the Cold War in Vietnam and the place of postcolonial Vietnam in the history of the twentieth century Among the first Americans granted a visa to undertake research in Vietnam since the war Bradley draws on newly available Vietnamese language primary sources and interviews as well as archival materials from France Great Britain and the United States Bradley uses these sources to reveal an imagined America that occupied a central place in Vietnamese political discourse symbolizing the qualities that revolutionaries believed were critical for reshaping their society American policymakers he argues articulated their own imagined Vietnam a deprecating vision informed by the conviction that the country should be remade in America's image Contrary to other historians who focus on the Soviet American rivalry and ignore the policies and perceptions of Vietnamese actors Bradley contends that the global discourse and practices of colonialism race modernism and postcolonial state making were profoundly implicated in and ultimately transcended the dynamics of the Cold War in shaping Vietnamese American relations **Miracles, Convulsions, and Ecclesiastical**

Margaret Butler,2004-08-27 Relations between France and Britain have always been uneasy and ambivalent But in cinema WWII changed all that for a time Although the two countries wartime fortunes differed post war both were busy reintegrating returning servicemen and prisoners of war and accomodating the changed aspirations of women Margaret Butler examines these subjects and more in her comparative study of the cinemas of Britain and France during and after the war Using the concept of continuity she shows how cinema dealt directly with ideas of belonging and alienation inclusion and exclusion unity and division She also draws on contemporary debates and offers a perceptive reading of key films to reveal the meaning and appeal of French classics like Les Enfants du Paradis and notable British productions like Waterloo Road

Homo Academicus Pierre Bourdieu,1988 In this highly original work Pierre Bourdieu turns his attention to the academic world of which he is part and offers a brilliant analysis of modern intellectual culture The academy is shown to be not just a realm of dialogue and debate but also a sphere of power in which reputations and careers are made defended and destroyed Employing the distinctive methods for which he has become well known Bourdieu examines the social background and

practical activities of his fellow academics from Foucault Derrida and Lacan to figures who are lesser known but not necessarily less influential Bourdieu analyzes their social origins and current positions how much they publish and where they publish it their institutional connections media appearances political involvements and so on This enables Bourdieu to construct a map of the intellectual field in France and to analyze the forms of capital and power the lines of conflict and the patterns of change which characterize the system of higher education in France today Homo Academicus paints a vivid and dynamic picture of French intellectual life today and develops a general approach to the study of modern culture and education It will be of great interest to students of sociology education and politics as well as to anyone concerned with the role of intellectuals and higher education today **Fascism** Michael S. Neiberg, 2017-11-30 This volume presents the best writings on the origins development success and failure of fascism outside Germany By treating the problem in a global context these essays together add tremendous complexity to our understanding of one of history's most destructive political movements The collection covers theories origins and definitions of fascism fascism in power fascism in opposition and fascism in a global and comparative setting *Britain and the Spanish Anti-Franco Opposition* D. Dunthorn, 2000-10-06 After fascism's defeat in 1945 Britain did not cooperate with Franco's Spanish opponents to end his dictatorship This study demonstrates how divisions in the Spanish opposition were one factor but argues that Britain's strategic and commercial interests in Spain also acted as a disincentive Only when international pressure for sanctions threatened Iberian stability in 1947 did the British government turn to the Spanish opposition With the advent of the Cold War however the opposition became irrelevant to British needs and Franco's survival was guaranteed **The French empire between the wars** Martin Thomas, 2017-03-01 By considering the distinctiveness of the inter war years as a discrete period of colonial change this book addresses several larger issues such as tracing the origins of decolonization in the rise of colonial nationalism and a re assessment of the impact of inter war colonial rebellions in Africa Syria and Indochina The book also connects French theories of colonial governance to the lived experience of colonial rule in a period scarred by war and economic dislocation
