**Master List of Periodical and Newspaper Holdings as of August 1984** US Army Military History Institute, Mathilde Y. Carter, 1985      *Secret Intelligence in the European States System, 1918-1989* Jonathan Haslam, Karina Urbach, 2013-12-18 The history of secret intelligence like secret intelligence itself is fraught with difficulties surrounding both the reliability and completeness of the sources and the motivations behind their release which can be the product of ongoing propaganda efforts as well as competition among agencies Indeed these difficulties lead to the Scylla and Charybdis of overestimating the importance of secret intelligence for foreign policy and statecraft and also underestimating its importance in these same areas problems that generally beset the actual use of secret intelligence in modern states But in recent decades traditional perspectives have given ground and judgments have been revised in light of new evidence This volume brings together a collection of essays avoiding the traditional pitfalls while carrying out the essential task of analyzing the recent evidence concerning the history of the European state system of the last century The essays offer an array of insight across countries and across time Together they highlight the critical importance of the prevailing domestic circumstances technological governmental ideological cultural financial in which intelligence operates A keen interdisciplinary eye focused on these developments leaves us with a far more complete understanding of secret intelligence in Europe than we've had before      **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1965      **The Emergence of Tropical Medicine in France** Michael A. Osborne, 2014-03-24 The Emergence of Tropical Medicine in France examines the turbulent history of the ideas people and institutions of French colonial and tropical medicine from their early modern origins through World War I Until the 1890s colonial medicine was in essence naval medicine taught almost exclusively in a system of provincial medical schools built by the navy in the port cities of Brest Rochefort sur Mer Toulon and Bordeaux Michael A Osborne draws out this separate species of French medicine by examining the histories of these schools and other institutions in the regional and municipal contexts of port life Each site was imbued with its own distinct sensibilities regarding diet hygiene ethnicity and race all of which shaped medical knowledge and practice in complex and heretofore unrecognized ways Osborne argues that physicians formulated localized concepts of diseases according to specific climatic and meteorological conditions and assessed diagnosed and treated patients according to their ethnic and cultural origins He also demonstrates that regions more so than a coherent nation built the empire and specific medical concepts and practices Thus by considering tropical medicine's distinctive history Osborne brings to light a more comprehensive and nuanced view of French medicine medical geography and race theory all the while acknowledging the navy's crucial role in combating illness and investigating the racial dimensions of health      **Current Catalog** National Library of Medicine (U.S.), 1970 First multi year cumulation covers six years 1965-70      **The Belgian Army and Society from Independence to the Great War** Mario Draper, 2018-02-13 This book explores Belgian state building through the

prism of its army from independence to the First World War It argues that party politics which often ran along geographical linguistic and religious lines prevented both Flemings and Walloons from reconciling their regional identities into a unified concept of Belgian nationalism Equally it obstructed the army from satisfactorily preparing to uphold Belgium's imposed neutrality before 1914 Situated uneasily between the two powerhouses of nineteenth century Europe Belgium offers a unique insight into the concepts of citizenship and militarisation in a divided society in the era of fervent nationalism By examining the composition experience and image of the army's officer corps and rank and file as well as those of the auxiliary forces this book shows that although military and civilian society often stood aloof from one another the army as a national institution offered a fleeting glimpse into the dichotomy that was pre war Belgium

**The Casablanca Connection** William A Hoisington Jr.,2019-05-01 The Casablanca Connection examines France's colonial policy in Morocco from the Popular Front to the end of the Vichy regime in North Africa relating it to overall French imperial policy and placing it in a European and world context At the center of this study is General Charles Nogu's resident general of Morocco from 1936 to 1943 who during this period provided the protectorate with purpose authority direction and continuity Nogu's restored the precepts of colonial rule established in Morocco twenty four years earlier by Marshal Hubert Lyautey France's most illustrious soldier administrator Nogues's accomplishments made Morocco stronger for France than it had been in a decade This French peace however was disturbed by the Spanish Civil War and World War II and Nogu's's well intentioned but misguided decisions during this time ended his career amidst charges of collaboration and anti Allied sentiment Nevertheless William A Hoisington Jr argues Nogu's had interpreted Lyautey's lessons with talent and originality Originally published in 1984 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

The Road to Sedan Richard Holmes,1984

At the Eleventh Hour Hugh Cecil,Peter H. Liddle,1998-08-12 Following on from the highly acclaimed Facing Armageddon and Passchendaele in Perspective At the Eleventh Hour recognises that a world was ending in November 1918 and by international collaboration on the 80th Anniversary we learn through this book what it was like to experience the transition from war to peace Distinguished historians brilliantly convey a sense of immediacy as the Armistice is recreated and analysed The reader will not just acquire new areas of information he will have some of the existing knowledge which he thought was soundly held strikingly challenged in the pages of this superbly illustrated book

*A Desert Named Peace* Benjamin Claude Brower,2011 In the mid nineteenth century French colonial leaders in Algeria started southward into the Sahara beginning a fifty year period of violence Lying in the shadow of the colonization of northern Algeria which claimed the lives of over a million people French empire in the Sahara sought power through physical force as it had elsewhere yet violence in the Algerian Sahara followed a more complicated logic than the old argument that it was simply a way to get

empire on the cheap *A Desert Named Peace* examines colonial violence through multiple stories and across several fields of research It presents four cases the military conquests of the French army in the oases and officers predisposition to use extreme violence in colonial conflicts a spontaneous nighttime attack made by Algerian pastoralists on a French village as notable for its brutality as for its obscure causes the violence of indigenous forms of slavery and the colonial accommodations that preserved it during the era of abolition and the struggles of French Romantics whose debates about art and politics arrived from Paris with disastrous consequences Benjamin Claude Brower uses these different perspectives to reveal the unexpected causes of colonial violence such as France's troubled revolutionary past and its influence on the military's institutional culture the aesthetics of the sublime and its impact on colonial thinking the ecological crises suffered by Saharan pastoralists under colonial rule and the conflicting paths to authority inherent in Algerian Sufism Directly engaging a controversial history *A Desert Named Peace* offers an important backdrop to understanding the Algerian war for independence 1954-1962 and Algeria's ongoing internal war begun in 1992 between the government and armed groups that claim to fight for an Islamist revolution

**Two Roads to War** Robin Higham, 2012-06-15 Noted aviation historian Robin Higham has written this comparative study of the evolution of the French and British air arms from 1918 to 1940 to determine why the Armée de l'Air was defeated in June 1940 but the Royal Air Force was able to win the battle over Britain in September After analyzing the structure men and material of the air arms and the government and economic infrastructure of both countries he concludes that the French force was dominated by the Armée de Terre had no suitably powerful aero engines and suffered from the chaos of French politics In contrast the independent RAF evolved into a sophisticated scientifically based force supported by consistent government practices Higham's thorough examination however finds the British not without error

*Biplanes at War* Wray R. Johnson, 2019-04-16 Unlike the relative uniformity of conventional warfare the peculiarities of small wars prevent a clear definition of rules and roles for military forces to follow During the small wars era aviation was still in its infancy and the US military had only recently begun battling in the skies The US Marine Corps recognized that flexibility and ingenuity would be critical to the successful conduct of small wars and thus employed the new technology of aviation In *Biplanes at War* US Marine Corps Aviation in the Small Wars Era 1915-1934 author Wray R. Johnson provides a riveting history of the marines' use of aviation between the world wars a time in which young soldiers were volunteering to fly in combat when flying itself was a dangerous feat Starting with Haiti in 1915 *Biplanes at War* follows the marines' aviation experiences in Haiti the Dominican Republic China and Nicaragua chronicling how marines used aircraft to provide supporting fires e.g. dive bombing to ground troops in close contact with irregular opponents evacuate the sick and wounded transport people and cargo e.g. to assist humanitarian operations and even support elections in furtherance of democracy After years of expanding the capabilities of airplanes far beyond what was deemed possible the small wars era ended and the US Marines Corps transitioned into an amphibious assault force The legacy of the marines

ability to adapt and innovate during the small wars era endures and provides a useful case study Biplanes at War sheds light on how the marines pioneered roles and missions that have become commonplace for air forces today an accomplishment that has largely gone unrecognized in mainstream histories of aviation and air power *Guibert's Defense of the System of Modern War* Jonathan Abel, 2025-05-21 Guibert was France's foremost military theorist in the eighteenth century He wrote two great treatises but the second is often ignored in favor of the first the General Essay on Tactics That second treatise the Defense of the System of Modern War is presented here for the first time in English with extensive annotations by the translator In it Guibert explores the beginnings of operational level warfare laying the groundwork for Napoleon and his successors

**France Between the Wars** Sian Reynolds, 2002-11-01 Sian Reynolds challenges the prevailing assumption that women had little influence or power in France during the interwar period She combines extensive empirical research with revealing insights into France's political history and women's history

**War and Society in Revolutionary Europe, 1770-1870** Geoffrey Best, 1998 Armed force was used to make and prevent revolution in modern Europe and as it spread it came to determine the affairs and fates of all the European nations Beginning with the eve of the French Revolution Geoffrey Best explains in lively detail the vast armed forces and militarized societies of the Napoleonic age He then proceeds to analyse the contest between Europe's continuing revolutionary underground and the armies of reactionary and alien governments that culminated with the revolutions and wars of national liberation of 1848-66 Under the banners of Napoleon Bonaparte and other warrior heroes of the epoch a military stamp was set on the European mind the consequences of which Best critically assesses

**Educating Air Forces** Randall Wakelam, David Varey, 2020-12-01 Compared to armies and navies which have existed as professional fighting services for centuries the technology that makes air forces possible is much newer As a result these services have had to quickly develop methods of preparing aviators to operate in conditions ranging from peace or routine security to full scale war The first book to address the history and scope of air power professionalization through learning programs Educating Air Forces offers valuable new insight into strategy and tactics worldwide Here a group of international experts examine the philosophies policies and practices of air service educational efforts in the United States France Italy Germany Australia Canada and the UK The contributors discuss the founding successes and failures of European air force learning programs between the Great War and World War II and explore how the tense Cold War political climate influenced the creation curriculum and results of various programs They also consider how educational programs are adapting to soldiers needs and the demands of modern warfare Featuring contributions from eminent scholars in the field this volume surveys the learning approaches globally employed by air forces in the past century and evaluates their effectiveness Educating Air Forces reveals how experiential learning and formal education are not only inextricably intertwined but also necessary to cope with advances in modern warfare

*Strategy and Command* Roy A. Prete, 2009-06-01 Histories of the First World War are often written from a British perspective ignoring the coalition element

of the conflict and the French point of view In Strategy and Command Roy Prete offers a major new interpretation supported by in depth research in French archival sources In the first of three projected volumes Prete crafts a behind the scenes look at Anglo French command relations during World War I from the start of the conflict until 1915 when trench warfare drastically altered the situation Drawing on extensive archival research Prete argues that the British government's primary interest lay in the defence of the empire the small expeditionary force sent to France was progressively enlarged because the French especially Commander in Chief Joseph Joffre dragged their British ally into a progressively greater involvement Several crises in Anglo French command relations derived from these competing strategic objectives New information gleaned from French public and private archives including private diaries enlarge our understanding of key players in the allied relationship Prete shows that suspicion and distrust on the part of both sides of the alliance continued to inform relations well after the circumstances creating them had changed Strategy and Command clearly establishes the fundamental strategic differences between the allies at the start of the war setting the stage for the next two volumes

**Luftwaffe** Williamson Murray, 2021-11-21 This book first published in 1985 is an in depth analysis of the Luftwaffe in the Second World War using previously untapped German archives and newly released Ultra intelligence records It looks at the Luftwaffe within the context of the overall political decision making process within the Third Reich It is especially valuable for its careful study of industrial production and pilot losses in the conduct of operations **Minotaur** John

Cerullo, 2011-01-15 On February 11 1912 an estimated 120 000 people in Paris participated in a ceremony that was at once moving and macabre a public procession to P re Lachaise Cemetery where the remains of a soldier named Albert Aernoult would be incinerated after a series of angry speeches denouncing the circumstances of his death This ceremony occurred at a pivotal point in the Aernoult Rousset Affair a three year agitation over the practice of French military justice that was labeled a proletarian Dreyfus Affair Aernoult had died in one of the French Army's Algerian penal camps in the summer of 1909 allegedly at the hands of his officers His death came to the attention of the public through the intervention of a fellow prisoner a career criminal named mile Rousset who provoked prosecution in a military court in order to launch his own J accuse against camp officers Rousset's charges seemed to be bearing fruit until he himself was indicted for murder whereupon the entire Affair took on a new intensity Cerullo's lively suspenseful account of this dramatic story which has never been fully told will become the standard In the current era of special military courts commissions and prisons the subject of military justice is an urgent one Minotaur will interest historians of modern France military historians and students of military justice and legal scholars while also appealing to general readers of modern European history and military law

The Dreyfus Affair and the Crisis of French Manhood Christopher E. Forth, 2004-02-06 Finally he examines the relation of the Dreyfus Affair to the culture of forcethat marked French society during the prewar years thus accounting for the rise of the youthful athlete as a more compelling manly ideal than the bookish and sedentary intellectual
