Rewards And Reform Creating Educational Incentives That Work:

Rewards and Reform Susan H. Fuhrman, Jennifer A. O'Day, 1996-05-06 Rewards and Reform offers a comprehensive view of student teacher managerial and organizational incentives and shows how they are linked to school reform goals. Noted experts in education policy practice and research as well as respected thinkers and practitioners from the public and private sectors consider a variety of incentive approaches. Drawing from such diverse sources as studies of performance incentives, reforms in Vermont, school structuring in New York City, private sector research on management and current theories of motivation and organizational development, the book explains the underlying issues surrounding incentives and reform and provides a framework for future research and policy. The book shows for example how workplace redesigns could answer teachers' needs for autonomy and participation and so bolster the professional nature of teaching. It also examines alternative ways of thinking about teacher compensation.

No Child Left Behind and the Reduction of the Achievement Gap

Alan R. Sadovnik, Jennifer A. O'Day, George W. Bohrnstedt, Kathryn M. Borman, 2013-10-11 This monumental collection presents the first ever sociological analysis of the No Child Left Behind Act and its effects on children, teachers, parents, and schools. More importantly, these leading sociologists consider whether NCLB can or will accomplish its major goal to eliminate the achievement gap by 2014. Based on theoretical and empirical research, the essays examine the history of federal educational policy and place NCLB in a larger sociological and historical context. Taking up a number of policy areas affected by the law, including accountability and assessment, curriculum and instruction, teacher quality, parental involvement, school choice, and urban education, this book examines the effects of NCLB on different groups of students and schools and the ways in which school organization and structure affect achievement. No Child Left Behind concludes with a discussion of the important contributions of sociological research and sociological analysis integral to understanding the limits and possibilities of the law to reduce the achievement gap.
