Valdez,2020-05-01 This work shows that novelists often responded to newspapers by reworking well known events covered by Victorian newspapers in their fictions With each chapter addressing a different narrative modality and its relationship to the news

British Museum Catalogue of printed Books ,1895 **The English Catalogue of Books** Sampson Low,1901 Volumes for 1898 1968 include a directory of publishers *The Secret Library* Oliver Tearle,2016-09-29 As well as taking in the well known titles that have helped shape the world in which we live *The Secret Library* brings to light more neglected items among the bookshelves of the world In Another Country Priya Joshi,2002-04-24 In a work of stunning archival recovery and interpretive virtuosity Priya Joshi illuminates the cultural work performed by two kinds of English novels in India during the colonial and postcolonial periods Spanning the nineteenth and twentieth centuries readers and writers empire and nation consumption and production *In Another Country* vividly explores a process by which first readers and then writers of the English novel indigenized the once imperial form and put it to their own uses Asking what nineteenth century Indian readers chose to read and why Joshi shows how these readers transformed the literary and cultural influences of empire By subsequently analyzing the eventual rise of the English novel in India she further demonstrates how Indian novelists from Krupa Sathianadhan to Salman Rushdie took an alien form in an alien language and used it to address local needs Taken together in this manner reading and writing reveal the complex ways in which culture is continually translated and transformed in a colonial and postcolonial context Famine and Fashion Beth Harris,2017-03-02 Like the figure of the governess the seamstress occupied a unique place in the history of the nineteenth century appearing frequently in debates about women s work and education and the condition of the working classes generally in the rapidly changing capitalist marketplace Like the governess the figure of the needlewoman is ubiquitous in art fiction and journalism in the nineteenth century The fifteen articles in this book address the seamstress s appearance as a real figure in the changing economies of nineteenth century Britain America and France and as an important cultural icon in the art and literature of the period They treat the many different types of needlewomen in the nineteenth century from skilled milliners and dressmakers some of whom owned their own businesses selling merchandise to other women forming a unique female economy to women who

through reduced circumstances were forced into the lowest end of paid needlework sewing clothing at home for starvation wages like the impoverished shirt maker in the famous Victorian poem by Thomas Hood *The Song of the Shirt* This volume assembles the work of leading American British and Canadian scholars from many different fields including art history literary criticism gender studies labor history business history and economic history to draw together recent scholarship on needlewomen from a variety of different disciplines and methodologies *Famine and Fashion* will therefore appeal to anyone studying images of work in the nineteenth century popular and canonical nineteenth century literature the history of women's work the history of sweated labor the origins of the ready made clothing industry and early feminism

Modern English Biography Frederic Boase, 1901

Heroes & Villains of the British Empire Stephen Basdeo, 2020-07-30 An analysis of the builders of the British Empire how they were represented in popular culture of the day and how that vision has changed over time From the sixteenth until the twentieth century British power and influence gradually expanded to cover one quarter of the world's surface The common saying was that the sun never sets on the British Empire What began as a largely entrepreneurial enterprise in the early modern period with privately run joint stock trading companies such as the East India Company driving British commercial expansion by the nineteenth century had become especially after 1857 a state run endeavour supported by a powerful military and navy By the Victorian era Britannia really did rule the waves *Heroes and Villains of the British Empire* is the story of how British Empire builders such as Robert Clive General Gordon and Lord Roberts of Kandahar were represented and idealised in popular culture The men who built the empire were often portrayed as possessing certain unique abilities which enabled them to serve their country in often inhospitable territories and spread

what imperial ideologues saw as the benefits of the British Empire to supposedly uncivilised peoples in far flung corners of the world These qualities and abilities were athleticism a sense of fair play devotion to God and a fervent sense of duty and loyalty to the nation and the empire Through the example of these heroes people in Britain and children in particular were encouraged to sign up and serve the empire or in the words of Henry Newbolt Play up Play up And Play the Game Yet this was not the whole story while some writers were paid up imperial propagandists other writers in England detested the very idea of the British Empire And in the twentieth century those who were once considered as heroic military men were condemned as racist rulers and exploitative empire builders

Abstraction and the Classical Ideal, 1760-1920 Charles A. Cramer, 2006 This study traces an important but largely overlooked conception of abstraction in art from its roots in eighteenth century empirical epistemology to its application in the pursuit of ideal form from Joshua Reynolds to Piet Mondrian Theorized by Enlightenment philosophy as a means of discovering ideal essence by purging natural form of its accidental and contingent qualities abstraction was a major focus of philosophical scientific and aesthetic discourse for more than one hundred fifty years serving as the nucleus of fundamental debates about the philosophy of mind the relationship between the Ancients and the Moderns the nature of human racial and functional variety the nature of God s creative ideas the use of brushwork in painting the validity of abstraction in art and the visual appearance of ideal truth and beauty
