## Rhetoric Of Fiction:

The Rhetoric of Fiction Wayne C. Booth, 1961 Rhetoric is the author's term for the means by which the writer makes known his vision to the reader and persuades him of its validity and he demonstrates convincingly that there is no essential difference between ostentatiously rhetorical novelists like Fielding and Dickens and the admired masters of impersonality Flaubert James Joyce this is a major critical work which should be required reading for everyone concerned in the academic study of prose fiction Modern Language Review

The Rhetoric of Fiction Wayne C. Booth, 2010-05-15 The first edition of *The Rhetoric of Fiction* transformed the criticism of fiction and soon became a classic in the field One of the most widely used texts in fiction courses it is a standard reference point in advanced discussions of how fictional form works how authors make novels accessible and how readers recreate texts and its concepts and terms such as the implied author the postulated reader and the unreliable narrator have become part of the standard critical lexicon For this new edition Wayne C Booth has written an extensive Afterword in which he clarifies misunderstandings corrects what he now views as errors and sets forth his own recent thinking about the rhetoric of fiction The other new feature is a Supplementary Bibliography prepared by James Phelan in consultation with the author which lists the important critical works of the past twenty years two decades that Booth describes as the richest in the history of the subject

**The Rhetoric of RHETORIC** Wayne C. Booth, 2009-02-09 In this manifesto distinguished critic Wayne Booth claims that communication in every corner of life can be improved if we study rhetoric closely Written by Wayne Booth author of the seminal book *The Rhetoric of Fiction* 1961 Explores the consequences of bad rhetoric in education in politics and in the media Investigates the possibility of reducing harmful conflict by practising a rhetoric that depends on deep listening by both sides

A Rhetoric of Irony Wayne C. Booth, 1974 Perhaps no other critical label has been made to cover more ground than irony and in our time irony has come to have so many meanings that by itself it means almost nothing In this work Wayne C Booth cuts through the resulting confusions by analyzing how we manage to share quite specific ironies and why we often fail when we try to do so How does a reader or

listener recognize the kind of statement which requires him to reject its clear and obvious meaning And how does any reader know where to stop once he has embarked on the hazardous and exhilarating path of rejecting what the words say and reconstructing what the author means In the first and longer part of his work Booth deals with the workings of what he calls stable irony irony with a clear rhetorical intent He then turns to intended instabilities ironies that resist interpretation and finally lead to the infinite absolute negativities that have obsessed criticism since the Romantic period Professor Booth is always ironically aware that no one can fathom the unfathomable But by looking closely at unstable ironists like Samuel Becket he shows that at least some of our commonplaces about meaninglessness require revision Finally he explores with the help of Plato the wry paradoxes that threaten any uncompromising assertion that all assertion can be undermined by the spirit of irony

**The Company We Keep** Wayne C. Booth, 1988 Wayne C Booth argues for the relocation of ethics to the center of our engagement with literature What he has succeeded in doing is to establish that ethical values must enter into our experience of literature Richard Eder Los Angeles Times Book Review *The Novel* Dorothy J. Hale, 2005-11-04 The Novel An Anthology of Criticism and Theory 1900 2000 is a collection of the most influential writings on the theory of the novel from the twentieth century Traces the rise of novel theory and the extension of its influence into other disciplines especially social cultural and political theory Broad in scope including sections on formalism the Chicago School structuralism and narratology deconstruction psychoanalysis Marxism social discourse gender post colonialism and more Includes whole essays or chapters wherever possible Headnotes introduce and link each piece enabling readers to draw connections between different schools of thought Encourages students to approach theoretical texts with confidence applying the same skills they bring to literary texts Includes a volume introduction a selected bibliography an index of topics and short author biographies to support study

to Terms Seymour Benjamin Chatman,1990      The Rhetoric of Modernist Fiction Morton Levitt,2006 A wide ranging response to The Rhetoric of Fiction      **Studies in the Rhetoric of Fiction** Ana-Karina Schneider,2015-09-18 Studies in the Rhetoric of Fiction investigates the contemporary novel's relation to its forerunners the picaresques romances and sentimental novels of the 18th century Henry Fielding Laurence Sterne and Jane Austen are stable landmarks while of the contemporary practitioners a handful recur from one chapter to the next particularly Julian Barnes Ian McEwan and Kazuo Ishiguro The chapters share an interest in the rhetoric of fiction broadly understood as the way in which fictional works achieve their effects on readers whether by directly addressing a hypothetical reader using irony and parody orchestrating competitions between divergent narratives imitating musical structures inviting intertextual readings or openly taking issue with traditional conventions and expectations Chapters focusing on narrative strategy and metanarrative comment therefore alternate with those interrogating reading practices and readerly participation in the rhetorical interchange This collection of essays however does not propose a consistent theory of the rhetoric of fiction nor does it claim any generalisable validity for its findings Rather it consists of a series of readings that address various formal aspects of the novels they focus on showing rhetoric in action pointing out the complex ways in which its means and strategies change in time and across genres and media It restores a sense that whatever old tricks the author or narrator is perceived to be up to they are an invitation to the reader to take part in the fun The book will appeal to students and scholars in the early stages of their research encouraging readings that identify rhetorical strategies that challenge conventional forms and expectations It is therefore largely free of rhetorical terminology making sparing use of it when distinctions must be drawn and the more technical aspects of novels are interrogated      Writing the Scene of Speaking Jon R. Snyder,1989 The rediscovery in sixteenth century Italy of Aristotle's Poetics marks a crucial moment in the development of Western thought about literature for the flood of new and controversial works that accompanied this event laid the foundations of modern literary criticism and theory This is a study of the main literary theories of the late Italian Renaissance that seek to define a poetics of dialogue The author contends that dialogue among the most popular of all prose forms in Italy to develop a new theory of literature because it seems to subvert the conventional Renaissance understanding of what is literary and what is not With its close ties to dialectic and to Platonic philosophy on the one hand and its equally vital links to imaginative fiction on the other dialogue in the Renaissance stands at the crossroads of the discourses of cognition and fiction Writing the Scene of Speaking examines the different solutions offered by sixteenth century Italian theorists to the problem posed by the hybrid textuality of dialogue and sets them in the context of a culture in a dramatic state of transition      **Environmental Values in American Popular-culture Narratives** Kelly Christine Ball-Stahl,2005      **Seria Filologia Angielska** ,1978      **Richard Wright's Hero** Katherine Richards Sprandel,1973      A Rhetoric of the Unreal Christine Brooke-Rose,1981-10-15 This 1981 book is a study of wide range of fiction from short stories to tales of horror from fairy tales and romances to science fiction to which the rather loose term

fantastic has been applied Cutting across this wide field Professor Brooke Rose examines in a clear and precise way the essential differences between these types of narrative against the background of realistic fiction In doing so she employs many of the methods of modern literary theory from Russian formalism to structuralism while at the same time bringing to these approaches a sharp critical intuition and sound common sense of her own The range of texts considered is broad from Poe and James to Tolkien from Flann O'Brien to the American postmodernism This book should prove a source of stimulation to all teachers and students of modern literary theory and genre as well as those interested in fantastic literature
