## **Rhetoric Of Social Research:**

**The Rhetoric of Social Research** Albert Hunter,1990      **Imaginative Methodologies in the Social Sciences** Dr Kieran Keohane,2014-04-28 Challenging the mainstream orthodoxy of social scientific methodology which closely guards the boundaries between the social sciences and the arts and humanities this volume reveals that authors and artists are often engaged in projects parallel to those of the social sciences and vice versa thus demonstrating that artistic and cultural production does not necessarily constitute a specialist field but is in fact integral to social reality      **The Rhetoric of Economics** Deirdre N. McCloskey,1998-05-15 A classic in its field this pathbreaking book humanized the scientific rhetoric of economics to reveal its literary soul Economics needs to admit that it like other sciences works with metaphors and stories Its most mathematical and statistical moments are properly dominated by comparison and narration that is to say human persuasion The book was McCloskey s opening move in the development of a humanomics and unification of the sciences and the humanities on the field of ordinary business life      ***Methods for Social Theory*** Jan Ch. Karlsson,Ann Bergman,2016-12-15 This book constitutes a practical guide to the important skills of both theorizing and writing in social scientific scholarship focusing on the importance of identifying relations between concepts that are useful for explaining social entities and of producing a text that convincingly advances the theory that has been constructed Taking as its point of departure the distinction between the research process and the reporting process between clarifying one s ideas to oneself and writing to express these ideas clearly to others this volume concentrates on writing when theorizing as a way of thinking emphasizing the series of relations that exist between ontology epistemology and rhetoric upon which successful theoretical writing depends Richly illustrated with practical examples the book is divided into two parts the first of which presents techniques for theorizing based upon visualized and logical connections of ideas concepts and empirical patterns in both free and systematic ways and the second part providing techniques for structuring and presenting arguments in essays papers articles or books As such *Methods for Social Theory* offers a toolbox for the development and presentation of social thought which will prove essential for students and teachers across the social sciences      **Encyclopedia of Rhetoric and Composition** Theresa Jarnagin Enos,2011-04-06 This reference guide surveys the field covering rhetoric s principles concepts applications practical tools and major thinkers Drawing on the scholarship and expertise of 288 contributors the Encyclopedia presents a long needed overview of rhetoric and its role in contemporary education and communications discusses rhetoric s contributions to various fields surveys the applications of this versatile discipline to the teaching of English and language arts and illustrates its usefulness in all kinds of discourse argument and exchange of ideas      **The Oxford Handbook of Multimethod and Mixed Methods Research Inquiry** Sharlene Nagy Hesse-Biber,R. Burke Johnson,2015-06-04 Offering a variety of innovative methods and tools The Oxford Handbook of Multimethod and Mixed Methods Research Inquiry provides the most comprehensive and up to date presentation on multi and mixed methods research available Written in clear and

Roberts, James M. M. Good, 1993 **The Legacy of Kenneth Burke** Herbert W. Simons, Trevor Melia, 1989 Capturing the lively modernist milieu of Kenneth Burke's early career in Greenwich Village where Burke arrived in 1915 fresh from high school in Pittsburgh this book discovers him as an intellectual apprentice conversing with the moderns Burke found himself in the midst of an avant garde peopled by Malcolm Cowley Marianne Moore Jean Toomer Katherine Anne Porter William Carlos Williams Allen Tate Hart Crane Alfred Stieglitz and a host of other fascinating figures Burke himself who died in 1993 at the age of 96 has been hailed as America's most brilliant and suggestive critic and the most significant theorist of rhetoric since Cicero Many schools of thought have claimed him as their own but Burke has defied classification and indeed has often been considered a solitary eccentric genius immune to intellectual fashions But Burke's formative work of the 1920s when he first defined himself and his work in the context of the modernist conversation has gone relatively unexamined Here we see Burke living and working with the crowd of poets painters and dramatists affiliated with Others magazine Stieglitz's 291 gallery and Eugene O'Neill's Provincetown Players the leftists associated with the magazines The Masses and Seven Arts the Dadaists and the modernist writers working on literary journals like The Dial where Burke in his capacity as an associate editor saw T S Eliot's The Wasteland into print for the first time and provided other editorial services for Thomas Mann e e cummings Ezra Pound and many other writers of note Burke also met the iconoclasts of the older generation represented by Theodore Dreiser and H L Mencken the New Humanists and the literary nationalists who founded Contact and The New Republic Jack Selzer shows how Burke's own early poems fiction and essays emerged from and contributed to the modernist conversation in Greenwich Village He draws on a wonderfully rich array of letters between Burke and his modernist friends and on the memoirs of his associates to create a vibrant portrait of the young Burke's transformation from aesthete to social critic **The SAGE Handbook of Rhetorical Studies** Andrea A. Kjeldsen, 2017-11-10 This book examines the reception of rhetoric and the rhetoric of reception By considering salient rhetorical traits of rhetorical utterances and texts seen in context and relating this to different kinds of reception and or audience use and negotiation the authors explore the connections between rhetoric and reception In our time new media and new forms of communication make it harder to distinguish between speaker and audience The active involvement of users and audiences is more important than ever before This project is based on the premise that rhetorical research should reconsider the understanding conceptualization and examination of the rhetorical audience From mostly understanding audiences as theoretical constructions that are examined textually and speculatively the contributors give more attention to empirical explorations of actual audiences and users The book will provide readers with new knowledge on the workings of rhetoric as well as illustrative and guiding examples of new methods of rhetorical studies

Political Style Robert Hariman, 2010-07-15 In this book Robert Hariman demonstrates how matters of style of diction manners sensibility decor and charisma influence politics In critical studies of classic texts Hariman identifies four dominant political styles The realist style as found in Machiavelli's *The Prince* creates a world of sheer power constant calculation and emotional control this style is the common sense of modern political science The courtly style depicted in Kapuscinski's *The Emperor* is characterized by high decorousness hierarchies and fixation on the body of the sovereign this style infuses mass media coverage of the American presidency The republican style reflected in Cicero's letters to Atticus promotes the art of oratory consensus and

civility it informs our ideal of democratic conversation The bureaucratic style as captured in Kafka's *The Castle* emphasizes institutional procedures official character and the priority of writing this style structures everyday life Hariman looks at effective political artistry in figures from antiquity to modern politicians such as Vaclav Havel Ronald Reagan and Bill Clinton He discusses the crises to which each style is susceptible as well as the social and moral consequences of each style's success

**Questioning Qualitative Inquiry** Martyn Hammersley, 2008-07-10 Is qualitative research in crisis In *Questioning Qualitative Inquiry* Martyn Hammersley raises fundamental questions about the current state of qualitative social research He examines some of the changes that have taken place within it over the past fifty years suggesting that the move away from natural science as a model and towards an appeal to literature and art involves rejection of key principles that are essential to research of any kind Hammersley argues that in important respects qualitative inquiry has not lived up to the claims originally made on its behalf and that more recent developments have worsened the situation Insufficient attention has been given to the problems surrounding leading ideas like thick description analytic induction and constructionism The argument is pursued through discussion of the work of influential writers such as Clifford Geertz Denzin and Lincoln and by detailed examination of concrete issues like the value of interview data the rationales for discourse and conversation analysis the role of rhetoric in research reports and the nature of assessment criteria At a time when qualitative inquiry is coming under renewed challenge in some quarters the task of addressing the methodological problems it faces has become urgent

These essays on current developments and debates are essential reading for anyone interested in the future of qualitative research
