Rhetoric Retold:

Rhetoric Retold Cheryl Glenn, 1997 After explaining how and why women have been excluded from the rhetorical tradition from antiquity through the Renaissance Cheryl Glenn provides the opportunity for Sappho Aspasia Diotima Hortensia Fulvia Julian of Norwich Margery Kempe Margaret More Roper Anne Askew and Elizabeth I to speak with equal authority and as eloquently as Plato Aristotle Cicero and Augustine Her aim is nothing less than regendering and changing forever the history of rhetoric To that end Glenn locates women's contributions to and participation in the rhetorical tradition and writes them into an expanded inclusive tradition She regenders the tradition by designating those terms of identity that have promoted and supported men's control of public persuasive discourse the culturally constructed social relations between the appropriate roles for and the subjective identities of women and men Glenn is the first scholar to contextualize analyze and follow the migration of women's rhetorical accomplishments systematically To locate these women she follows the migration of the Western intellectual tradition from its inception in classical antiquity and its confrontation with and ultimate appropriation by evangelical Christianity to its force in the medieval Church and in Tudor arts and politics *The SAGE Handbook of Rhetorical Studies* Andrea A. Lunsford, Kirt H. Wilson, Rosa A. Eberly, 2008-10-29 The SAGE Handbook of Rhetorical Studies surveys the latest advances in rhetorical scholarship synthesizing theories and practices across major areas of study in the field and pointing the way for future studies Edited by Andrea A Lunsford and Associate Editors Kirt H Wilson and Rosa A Eberly the Handbook aims to introduce a new generation of students to rhetorical study and provide a deeply informed and ready resource for scholars currently working in the field **The Ethical Fantasy of Rhetorical Theory** Ira Allen, 2018-07-10 Despite its centrality to its field there is no consensus regarding what rhetorical theory is and why it matters The Ethical Fantasy of Rhetorical Theory presents a critical examination of rhetorical theory throughout history in order to develop a unifying vision for the field Demonstrating that theorists have always been skeptical of yet committed to truth however fantastic Ira Allen develops rigorous notions of truth and of a troubled freedom that spring from rhetoric's depths In a sweeping analysis from the sophists Aristotle and Cicero through Kenneth Burke Cha m Perelman and Lucie Olbrechts Tyceta and contemporary scholars in English communication and rhetoric's other disciplinary homes Allen offers a novel definition of rhetorical theory as the self consciously ethical study of how humans and other symbolic animals negotiate constraints *Language and Power on the Rhetorical Stage* Fiona Harris Ramsby, 2020-12-30 Through a fusion of narrative and analysis Language and Power on the Rhetorical Stage examines how theater can enact critical discourse analysis and how micro instances of iniquitous language use have been politically and historically reiterated to oppress and deny equal rights to marginalized groups of people Drawing from Aristophanes rhetorical plays as a template for rhetoric in action the author poses the stage as a rhetorical site whereby we can observe see and feel 20th century rhetorical theories of the body Using critical discourse analysis and Judith Butler's theories of the performative body as a methodological and

analytical lens the book explores how a handful of American plays in the latter part of the 20th century the works of Tony Kushner Suzan Lori Parks and John Cameron Mitchell among others use rhetoric in order to perform and challenge marginalizing language about groups who are not offered center stage in public and political spheres This innovative study initiates a conversation long overdue between scholars in rhetorical and performance studies as such it will be essential reading for academic researchers and graduate students in the areas of rhetorical studies performance studies theatre studies and critical discourse analysis

Classical Greek Rhetorical Theory and the Disciplining of Discourse David M. Timmerman, Edward Schiappa, 2010-03-22 This book contributes to the history of classical rhetoric by focusing on how key terms helped to conceptualize and organize the study and teaching of oratory David Timmerman and Edward Schiappa demonstrate that the intellectual and political history of Greek rhetorical theory can be enhanced by a better understanding of the emergence of terms of art in texts about persuasive speaking and argumentation The authors provide a series of studies to support their argument They describe Plato's disciplining of dialectic Socrates' alternative vision of philosophia and Aristotle's account of demagogia and symbola as terms for political deliberation The authors also revisit competing receptions of the Rhetoric to Alexander Additionally they examine the argument over when the different parts of oration were formalized in rhetorical theory illustrating how an old school focus on vocabulary can provide fresh perspectives on persistent questions

[Silence and Listening as Rhetorical Arts](#) Cheryl Glenn, Krista Ratcliffe, 2011-01-05 In *Silence and Listening as Rhetorical Arts* editors Cheryl Glenn and Krista Ratcliffe bring together seventeen essays by new and established scholars that demonstrate the value and importance of silence and listening to the study and practice of rhetoric Building on the editors groundbreaking research which respects the power of the spoken word while challenging the marginalized status of silence and listening this volumemakes a strong case for placing these overlooked concepts and their intersections at the forefront of rhetorical arts within rhetoric and composition studies Divided into three parts History Theory and Criticism and Praxes this book reimagines traditional histories and theories of rhetoric and incorporates contemporary interests such as race gender and cross cultural concerns into scholarly conversations about rhetorical history theory criticism and praxes For the editors and the other contributors to this volume silence is not simply the absence of sound and listening is not a passive act When used strategically and with purpose together and separately silence and listening are powerful rhetorical devices integral to effective communication The essays

cover a wide range of subjects including women rhetors from ancient Greece and medieval and Renaissance Europe African philosophy and African American rhetoric contemporary antiwar protests in the United States activist conflict resolution in Israel and Palestine and feminist and second language pedagogies Taken together the essays in this volume advance the argument that silence and listening are as important to rhetoric and composition studies as the more traditionally emphasized arts of reading writing and speaking and are particularly effective for theorizing historicizing analyzing and teaching An extremely valuable resource for instructors and students in rhetoric composition and communication studies Silence and Listening as Rhetorical Arts will also have applications beyond academia helping individuals cultural groups and nations more productively discern and implement appropriate actions when all parties agree to engage in rhetorical situations that include not only respectful speaking reading and writing but also productive silence and rhetorical listening

Gender and Rhetorical Space in American Life, 1866-1910 Nan Johnson, 2002 Nan Johnson demonstrates that after the Civil War nonacademic or parlor traditions of rhetorical performance helped to sustain the icon of the white middle class woman as queen of her domestic sphere by promoting a code of rhetorical behavior for women that required the performance of conventional femininity Through a lucid examination of the boundaries of that gendered rhetorical space and the debate about who should occupy that space Johnson explores the codes governing and challenging the American woman's proper rhetorical sphere in the postbellum years While men were learning to preach practice law and set political policies women were reading elocution manuals letter writing handbooks and other conduct literature These texts reinforced the conservative message that women's words mattered but mattered mostly in the home Postbellum pedagogical materials were designed to educate Americans in rhetorical skills but they also persistently directed the American woman to the domestic sphere as her proper rhetorical space Even though these materials appeared to urge the white middle class women to become effective speakers and writers convention dictated that a woman's place was at the hearthside where her rhetorical talents were to be used in counseling and instructing as a mother and wife Aided by twenty one illustrations Johnson has meticulously compiled materials from historical texts no longer readily available to the general public and in so doing has illuminated this intersection of rhetoric and feminism in the nineteenth century The rhetorical pedagogies designed for a postbellum popular audience represent the cultural sites where a rethinking of women's roles becomes open controversy about how to value their words Johnson argues this era of uneasiness about shifting gender roles and the icon of the quiet woman must be considered as evidence of the need for a more complete revaluing of women's space in historical discourse

Friendship in the Middle Ages and Early Modern Age Albrecht Classen, Marilyn Sandidge, 2011-03-29 Although it seems that erotic love generally was the prevailing topic in the medieval world and the Early Modern Age parallel to this the Ciceronian ideal of friendship also dominated the public discourse as this collection of essays demonstrates Following an extensive introduction the individual contributions explore the functions and the character of friendship from Late Antiquity Augustine to the 17th century They show the spectrum of variety in which this topic appeared not only in literature but also in politics and even in painting

be used to negotiate cross boundary mis understandings inform rhetorical theories advance feminist rhetorical research methods and methodologies and energize feminist practices within the university Glenn discusses the power of rhetorical feminism when applied in classrooms the specific ways it inspires and sustains mentoring and the ways it supports administrators especially directors of writing programs Thus the innovative theory of rhetorical feminism a theory rich with tactics and potentially broad applications opens up a new field of research theory and practice at the intersection of rhetoric and feminism
