Rhetoric Essays In Invention And Discovery:

Rhetoric Richard Peter McKeon, 1987 The essays of Richard McKeon have long circulated piecemeal among scholars who see him as the leading twentieth century philosopher and historian of rhetoric This volume brings together McKeon's seminal works in rhetoric and philosophy and vividly demonstrates the basis for this extraordinary reputation **Catholic Horror**

and Rhetorical Dialectics Gavin F. Hurley, 2024-06-15 Identifying an important subgenre of horror literature this book argues that Catholic horror fiction works distinctively to inspire the philosophical theological and spiritual imaginations of readers from all backgrounds and faith traditions Hurley analyzes four novels that are foundational to the genre of Catholic horror J K Huysmans's *L'Ève* 1891 Robert Hugh Benson's *The Light Invisible* 1903 and *A Mirror of Shalott* 1907 and William Peter Blatty's *The Exorcist* 1971 Putting these texts in conversation with the classical liberal arts the book shows how Catholic horror fiction coheres in a commitment to dialectical thinking that aims both to resolve and to accommodate contrasting world views Given its use of this methodology Catholic horror literature is uniquely positioned to draw readers into a contemplative mindset In presenting ghost stories tales of possession and narratives about evil Catholic horror invites audiences to confront and reflect on profound existential questions questions about the line between life and death the nature of being and the meaning of reality **The History and Theory of Rhetoric** James A. Frost, 2017-03-02 Lawyers law students and their teachers all too frequently overlook the most comprehensive adaptable and practical analysis of legal discourse ever devised the classical art of rhetoric Classical analysis of legal reasoning methods and strategy is the foundation and source for most modern theories on the topic Beginning with Aristotle's *Rhetoric* and culminating with Cicero's *De Oratore* and Quintilian's *Institutio Oratoria* Greek and Roman rhetoricians created a clear experience based theoretical framework for analyzing legal discourse This book is the first to systematically examine the connections between classical rhetoric and modern legal discourse It traces the history of legal rhetoric from the classical

period to the present day and shows how modern theorists have unknowingly benefited from the classical works It also applies classical rhetorical principles to modern appellate briefs and judicial opinions to demonstrate how a greater familiarity with the classical sources can deepen our understanding of legal reasoning

Rethinking the Rhetorical Tradition James L. Kastely, 1997-01-01 What is the role of rhetoric in a civil society In this thought provoking book James L Kastely examines works by writers from Plato to Jane Austen and locates a line of thinking that values rhetoric but also raises questions about the viability of rhetorical practice While dealing principally with literary theory rhetoric and philosophy the author's arguments extend to practical concerns and open up the

way to deeper thinking about individual responsibility for existing injustices for inadvertently injuring others and for silencing those without power

Building a Social Democracy Robert Danisch, 2015-11-06 Building a Social Democracy offers an alternative intellectual history of American pragmatism one that tries to reclaim the middle of the twentieth century in order to push neo pragmatism beyond its philosophical limitations Danisch argues that the major entailment of the invention of American pragmatism at the beginning of the twentieth century is that rhetorical practices are the rightful object of study and means of improving democratic life Pragmatism entails a commitment to rhetoric Rhetorical pragmatism is intended to be more faithful to the project of first generation pragmatism to offer insight into the ways in which rhetoric operates in contemporary democratic cultures to recommend practices methods and modes of action for improving contemporary democratic cultures and to subordinate philosophy to rhetoric by reimagining appropriate ways for pragmatist scholarship and social research to advance

Rhetorical Minds Todd Oakley, 2020-04-09 Minds are rhetorical From the moment we are born others are shaping our capacity for mental agency As a meditation on the nature of human thought and action this book starts with the proposition that human thinking is inherently and irreducibly social and that the long rhetorical tradition in the West has been a neglected source for thinking about cognition Each chapter reflects on a different dimension of human thought based on the fundamental proposition that our rhetoric thinks and acts with and through others

Recovering Overlooked Pragmatists in Communication Robert Danisch, 2019-03-16 This collection of essays engages with the current resurgence of interest in the relationship between American pragmatism and communication studies The topics engaged in this collection of essays is necessarily diverse with some of the figures discussed within often viewed as minor or ancillary to the main tradition of pragmatism However each essay attempts to show the value of reading these minor figures for philosophy and rhetorical studies The diversity of the pragmatist tradition is evident in the ways in which unlikely figures like Hu Shi Ambedkar and Alice Dewey leverage some of the original commitments of pragmatism to do important intellectual social and political work within the circumstances that they find themselves This collection of essays also serves as a reminder for how we might reimagine and reuse pragmatism for our own social and political projects and challenges

The Pedagogy of Adaptation Dennis Cutchins, Laurence Raw, James M. Welsh, 2010-02-23 From All Quiet on the Western Front and Gone with the Wind to No Country for Old Men and Slumdog Millionaire many of the most memorable films have been adapted from other sources And while courses on film studies are taught throughout the world The Pedagogy of Adaptation makes a strong case for treating adaptation studies as a separate discipline What makes this book unique is its claim that adaptation is above all a creative process and not simply a slavish imitation or reproduction of an original This collection of essays focuses on numerous contexts to emphasize why adaptations matter to students of literature It is the first such volume devoted exclusively to teaching adaptations from a practical teacher centered angle Many of the essays show how adaptation as a discipline can be used to prompt reflection on cultural historical and political

differences Written by specialists in a variety of fields ranging from film radio theater and even language studies the book adopts a pluralistic view of adaptation showing how its processes vary across different contexts and in different disciplines Defining new horizons for the teaching of adaptation studies these essays draw on such disparate sources as Frankenstein Moby Dick and South Park This volume not only provides a resource book of lesson plans but offers valuable pointers as to why teaching literature and film can help develop students skills and improve their literacy The Struggle for Utopia

Victor Margolin,1997 Focusing on the difficult relationship between art and social change Margolin brings important new insights to our understanding of the avant garde s role in a period of great political complexity **Simplifying Complexity** George E. Yoos,2015-01-01 Simplifying complexity explores how to eliminate ignorance which in the view of the author is the purpose of the sciences and technologies and their consequent developments More specifically the book deals with the plurality of the sciences and technologies It is about the way in which each of them develops around the prosthetics of printed languages and the models used as visual aids to help us create new modes of communication to understand and solve human problems Consequently the task is to simplify the complexity that we find in different sciences both social and physical In his collection of essays George E Yoos surveys a number of different models that have evolved from the innate biological forms of grammar logic and modes of orientation He investigates the evolution of socially constructed systems of numeracy and measurement that have evolved and developed in different languages for the use in scientific and technological communication He identifies methods derived from three distinct personal experiences the use of types of prosthetic mnemonic and attention controlling devices in order to yield simpler perspectives of complex states of affairs George E Yoos emeritus professor is a legend in the field of rhetoric Founder and editor of the Rhetoric Society Quarterly 1972 1985 author of Reframing Rhetoric 2007 Politics and Rhetoric 2009 and fellow of the Rhetoric Society of America

Advocating Heightened Education Kathleen F. McConnell,2020-08-20 Colleges and universities face unprecedented pressure to streamline and reduce their infrastructure A new generation of reformers frustrated by bureaucratic obstacles and rising costs dream of education without schools Those reforms if realized promise to render education indistinguishable from other social spheres Advocating Heightened Education mobilizes situated theories of learning to advocate the labor and expense that goes into maintaining campuses Higher education s bulky and incommensurable institutions from the community colleges and Ivy Leagues to the regional public universities and small liberal arts campuses serve a critical modality They ensure that educational forms remain visible and available for critique Their diversity of form retains the possibility of divergent and transformative educational futures This ethnographic and archival study of two alternative campuses The Evergreen State College and California State University Monterey Bay illustrates how educators advocate their work by heightening its visibility and by modeling appreciation for situated teaching and inquiry It provides examples of those advocacy techniques with stories of professional life and close readings of historical documents that include

Lan,2016-11-10 Readings of Aristotle s and Confucius teachings reveal that both philosophers rhetorical thinking contain vital similarities which can help us understand cultural differences today Much has been said about Aristotle s definition of rhetoric as the faculty of observing in any given case the available means of persuasion but few studies have focused on his depiction of rhetoric as partly like dialectic and partly like sophistical reasoning Yet this Aristotelian conception of rhetoric sheds light on a similarity with Confucius teaching both Confucius and Aristotle see the human understanding of the truths of things as necessarily having a dimension that is open ended and discursive **Cicero and Modern Law** Richard O.
