Ratcliffe, 2016-06-01 Although women and men have different relationships to language and to each other traditional theories of rhetoric do not foreground such gender differences Krista Ratcliffe argues that because feminists generally have not conceptualized their language theories from the perspective of rhetoric and composition studies rhetoric and composition scholars must construct feminist theories of rhetoric by employing a variety of interwoven strategies recovering lost or marginalized texts rereading traditional rhetoric texts extrapolating rhetorical theories from such nonrhetoric texts as letters diaries essays cookbooks and other sources and constructing their own theories of rhetoric Focusing on the third option Ratcliffe explores ways in which the rhetorical theories of Virginia Woolf Mary Daly and Adrienne Rich may be extrapolated

from their Anglo American feminist texts through examination of the interrelationship between what these authors write and how they write In other words she extrapolates feminist theories of rhetoric from interwoven claims and textual strategies By inviting Woolf Daly and Rich into the rhetorical traditions and by modeling the extrapolation strategy methodology on their writings Ratcliffe shows how feminist texts about women language and culture may be reread from the vantage point of rhetoric to construct feminist theories of rhetoric She also outlines the pedagogical implications of these three feminist theories of rhetoric thus contributing to ongoing discussions of feminist pedagogies Traditional rhetorical theories are gender blind ignoring the reality that women and men occupy different cultural spaces and that these spaces are further complicated by race and class Ratcliffe explains Arguing that issues such as who can talk where one can talk and how one can talk emerge in daily life but are often disregarded in rhetorical theories Ratcliffe rereads Roland Barthes *The Old Rhetoric* to show the limitations of classical rhetorical theories for women and feminists Discovering spaces for feminist theories of rhetoric in the rhetorical traditions Ratcliffe invites readers not only to question how women have been located as a part of and apart from these traditions but also to explore the implications for rhetorical history theory and pedagogy

Santoro L'Hoir, 2018-07-17 The aim of this work is to recover classical Roman assumptions about women on the basis of the surviving linguistic data The author provides a control to her study of the connotations of the major Latin words for women in the form of a corresponding examination of how Roman authors use the various words for men The resulting analysis throws light not only on Roman gender vocabulary but also on Roman cultural perceptions of class moral worth and nationality Furthermore the author's detailed discussions of strictly linguistic evidence enable her to offer several original and persuasive insights about the traditional Latin literary representation of women Understanding the connotative range of gender terms such as *homo vir femina mulier* also reveals the value judgments made by ancient authors on male and female behaviour and can even be applied as a tool of historical analysis *Conversational Rhetoric* Jane Donawerth, 2012 In *Conversational Rhetoric* Jane Donawerth traces the historical development of rhetorical theory by women for women studying the moments when women produced theory about the arts of communication in alternative genres humanist treatises and dialogues defenses of women's preaching conduct books and elocution handbooks **The Handbook of Rhetoric and Public Address** Shawn J. Outlaw Rhetoric Jenny C. Mann, 2012-02-17 A central feature of English Renaissance humanism was its reverence for classical Latin as the one true form of eloquent expression Yet sixteenth century writers increasingly came to believe that England needed an equally distinguished vernacular language to serve its burgeoning national community Thus one of the main cultural projects of Renaissance rhetoricians was that of producing a common vernacular eloquence mindful of its classical origins yet self consciously English in character The process of vernacularization began during Henry VIII s reign and continued with fits and starts late into the seventeenth century However as Jenny C Mann shows in *Outlaw Rhetoric* this project was beset with problems and conflicts from the start *Outlaw Rhetoric* examines the substantial and largely unexplored archive of vernacular rhetorical guides produced in England between 1500 and 1700 Writers of these guides drew on classical training as they translated Greek and Latin figures of speech into an everyday English that could serve the ends of literary and national invention In the process however they confronted aspects of rhetoric that run counter to its civilizing impulse For instance Mann finds repeated references to Robin Hood indicating an ongoing concern that vernacular rhetoric is outlaw to the classical tradition because it is common popular and ephemeral As this book shows however such allusions hint at a growing acceptance of the nonclassical along with a new esteem for literary production that can be identified as native to England Working across a range of genres Mann demonstrates the effects of this tension between classical rhetoric and English outlawry in works by Spenser Shakespeare Sidney Jonson and Cavendish In so doing she reveals the political stakes of the vernacular rhetorical project in the age of Shakespeare

Transnational Feminist Rhetorics and

Gendered Leadership in Global Politics Rebecca S. Richards, 2014-10-28 Transnational Feminist Rhetorics and Gendered Leadership in Global Politics examines the rhetoric surrounding women who hold or have held the highest office of a nation state Heads of state such as Golda Meir Margaret Thatcher Benazir Bhutto Ellen Johnson Sirleaf and Michelle Bachelet have navigated their ascent to executive government in vastly different ways while contending with gendered expectations of leadership especially since most of them are the first woman to occupy their country's highest governmental position This book analyzes how these women rhetorically perform their positions of power discursively visually and physically in a traditionally male leadership role Specifically this project examines how certain rhetorical acts open up and close down the potential to confront the gendered expectations surrounding political leadership When people analyze campaign for or critique a female prime minister or a woman president they are not just talking about one woman but also referencing a collective neoliberal logic that interrupts and reaffirms the belief that the nation state is an eternal inevitable structure Diverse political figures such as Angela Merkel Julia Gillard and Indira Gandhi are continually put in conversation with one another through popular media representations academic scholarship and political analyses This book examines the effect of such comparisons and connections ultimately arguing that many of these gestures reduce or oversimplify women's contributions to world politics In order to show this effect this book manifests the transnational connections found in autobiographies organizations political commentaries biographical films and other sources that focus on women who have been heads of state

The Rhetoric of the Body from Ovid to Shakespeare Lynn Enterline,2000-05-11 This persuasive book analyses the complex often violent connections between body and voice in Ovid s *Metamorphoses* and narrative lyric and dramatic works by Petrarch Marston and Shakespeare Lynn Enterline describes the foundational yet often disruptive force that Ovidian rhetoric exerts on early modern poetry particularly on representations of the self the body and erotic life Paying close attention to the trope of the female voice in the *Metamorphoses* as well as early modern attempts at transgendered ventriloquism that are indebted to Ovid s work she argues that Ovid s rhetoric of the body profoundly challenges Renaissance representations of authorship as well as conceptions about the difference between male and female experience This vividly original book makes a vital contribution to the study of Ovid s presence in Renaissance literature *Communicating Gender*

Diversity Victoria Pruin DeFrancisco,Victoria Leto DeFrancisco,Catherine Helen Palczewski,2007-06-21 The purpose behind *Communicating Gender Diversity A Critical Approach* is not to provide any final conclusions about communicating gender Because gender is a constantly evolving concept both in terms of individuals gender identity development and the larger culture s predominant notions of gender such absolute claims are not possible Instead the intent is to better equip readers with tools with which they can examine and make sense of the intersections of communication and gender The text covers the variety of ways in which communication of and about gender and sex enables and constrains people s intersectional identities The authors believe people are social actors and as such create meaning through their symbolic interactions Thus the book s emphasis is not on how gender influences communication but on how communication constitutes gender They also believe that people are capable of being self reflective about communication processes and creative in generating new ways to play with symbols *Rhetorics of Motherhood* Lindal Buchanan,2013-04-08

Becoming a mother profoundly alters one s perception of the world as Lindal Buchanan learned firsthand when she gave birth Suddenly attentive to representations of mothers and mothering in advertisements fiction film art education and politics she became intrigued by the persuasive force of the concept of motherhood an interest that unleashed a host of questions How is the construct defined How are maternal appeals crafted presented and performed What do they communicate about gender and power How do they affect women

Her quest for answers has produced *Rhetorics of Motherhood* the first book length consideration of the topic through a feminist rhetorical lens Although both male and female rhetors employ motherhood to promote themselves and their agendas Buchanan argues it is particularly slippery terrain for women on the one hand affording them authority and credibility but on the other positioning them disadvantageously within the gendered status quo *Rhetorics of Motherhood* investigates that paradox by detailing the cultural construction and performance of the Mother in American public discourse tracing its use and impact in three case studies and by theorizing how when and why maternal discourses work to women s benefit or detriment In the process the reader encounters a fascinating array of issues including birth control civil rights and abortion and rhetors ranging from Diane Nash and Margaret Sanger to Sarah Palin and Michelle Obama As Buchanan makes clear motherhood is a rich site for investigating the interrelationships among gender power and public discourse Her latest book contributes to the discipline of rhetoric by attending to and making a convincing case for the significance of this understudied subject With its examination of timely controversies contemporary and historical figures and powerful women *Rhetorics of Motherhood* will appeal to a wide array of readers in rhetoric communications American studies women s studies and beyond *Rhetorics of Democracy in the Americas* Adriana Angel, Michael L. Butterworth, Nancy R.

Gómez, 2021-02-26 Democracy is venerated in US political culture in part because it is our democracy As a result we assume that the government and institutions of the United States represent the true and right form of democracy needed by all This volume challenges this commonplace belief by putting US politics in the context of the Americas more broadly Seeking to cultivate conversations among and between the hemispheres this collection examines local political rhetorics across the Americas The contributors scholars of communication from both North and South America recognize democratic ideals as irreducible to a single national perspective and reflect on the ways social minorities in the Western Hemisphere engage in unique political discourses The essays consider current rhetorics in the United States on American exceptionalism immigration citizenship and land rights alongside current cultural and political events in Latin America such as corruption in Guatemala women s activism in Ciudad Ju rez representation in Venezuela and media bias in Brazil Through a survey of these rhetorics this volume provides a broad analysis of democracy It highlights institutional and cultural differences in the Americas and presents a hemispheric democracy that is both more pluralistic and more agonistic than what is believed about the system in the United States In addition to the editors the contributors include Jos Cortez Linsay M Cramer Pamela Flores Alberto Gonz lez Amy N Heuman Christa J Olson Carlos Piovezani Clara Eugenia Rojas Blanco Abraham Romney Ren Agust n de los Santos and Alejandra Vitale *Rhetoric, Women and Politics in Early Modern England* ,
