Rhetoric Of Terrorism And Counterterrorism:

The Rhetoric of Terrorism and Counterterrorism Richard Leeman, 1991-01-21 Using the responses of the Reagan and Nixon administrations to terrorism as case studies this treatise prescribes democratic rhetoric as the most strategic counterterrorist response available

Terrorism Dan O'Hair, 2008 This volume offers the best available thinking and analysis on the topic of the rhetoric and communication of terrorism Each of the chapters isolates a particular issue or concern and exposes the difficult choices and subsequent processes facing participants in the management of terrorism By wrapping the analysis in a web of communication and rhetorical processes and theories the authors develop unique perspectives from which to characterize these contexts This volume is intended for multiple audiences including those interested not only in the specific topic but in risk communication crisis management policy management and political science

Post-9/11 American Presidential Rhetoric Colleen Elizabeth Kelley, 2008-01-01 Post 9 11 American Presidential Rhetoric examines the communication offensive orchestrated by George W Bush and the members of his administration between the initial terrorism crisis of September 11 2001 and the March 20 2003 invasion of Iraq Colleen Elizabeth Kelley argues that the president relied on a set of particular strategies that coalesced into protofascist talk in order to discursively manage the post 9 11 situation and justify its 2003 war against Iraq This book suggests a framework for analyzing emergent fascist public discourse and its potential for producing additional substantial antidemocratic speech and action Kelley further reviews the role of the media in conveying President Bush's rhetorical doctrine to the American public The rhetoric of democratic discourse is presented as a firewall to guarantee that such speech based behaviors which are endorsed by willing publics and developed within democracies fail to thrive and do not destroy the very systems that enabled them in the first place Post 9 11 American Presidential Rhetoric is a stimulating text that will strike up discussion among scholars of political communication and those interested in cultural studies

Presidential Rhetoric on Terrorism under Bush, Obama and Trump

Gabriel Rubin, 2020-03-21 Through the analysis of eighteen years of presidential data this book shows how Presidents Bush Obama and Trump have conducted and framed the war on terror since its inception in 2001 Examining all presidential speeches about terrorism from George W Bush's two terms as President Barack Obama's two terms as President and Donald Trump's first year as President this book is the first to compare the three post 9/11 presidents in how they have dealt with the terror threat Presidential Rhetoric on Terrorism under Bush Obama and Trump argues that when policies need to be sold to the public and Congress presidents make their pertinent issues seem urgent through frequent speech making and threat inflation It further illustrates how after policies are sold a new President's reticence may signify quiet acceptance of the old regime's approach After examining the conduct of the war on terror to date it concludes by posing policy suggestions for the future *Clinton, New Terrorism and the Origins of the War on Terror* Chin-Kuei Tsui, 2016-07-15 A frequent assumption of the American led war on terror and its accompanying discourse originated largely with the George W Bush Administration and that there was a counterterrorism policy revolution in the U S political arena Challenging these assumptions through a genealogical analysis of U S terrorism and counterterrorism discourses this book demonstrates a distinct continuity and lack of change of U S counterterrorism policy from Ronald Reagan to Bill Clinton and through to George W Bush The book focuses on President Clinton's discursive construction of new terrorism or catastrophic terrorism and the counterterrorism practices implemented by the Clinton Administration while simultaneously comparing it with President Reagan's and President George W Bush's approaches to counterterrorism It shows how the war on terror can be traced to earlier periods and that the so called Bush revolution was largely built upon the existing framework established by President Reagan and President Clinton Prior to the 2001 terrorist attacks Clinton had expanded Reagan's first war on terrorism discourse and constructed the new terrorism discourse characterised by the notions of borderless threats home grown terrorism WMD terrorism cyberterrorism and rogue states Clinton's new terrorism discourse provided a useful framework for George W Bush to discursively respond to the terrorist attacks on September 11th 2001 Aiming to uncover the myth of President George W Bush's foreign policy revolution and contribute to a deeper historical understanding of the U S led war on terror it will be of great use to postgraduates and scholars of US foreign policy security studies and terrorism studies *American Voices* Bernard K. Duffy, Richard Leeman, 2005-08-30 Contemporary public speaking remains an important part of our national life and a substantial force in shaping current events Many of America's most important moments and issues such as wars scandals election campaigns September 11 2001 have been defined by oratory Here over 50 essays cover a substantial and interesting group of major American social political economic and cultural figures from the 1960s to the present Each entry explains the biographical forces that shaped a speaker and his or her rhetorical approach focuses mainly on a discussion of the orator's major speeches within the context of historical events and concludes with an appraisal of the speaker and his or her contribution to American political and social life All entries incorporate chronologies of major speeches bibliographies

The Transfiguring Sword Cheryl R. Jorgensen-Earp, 2015-03-15 Cheryl R Jorgensen Earp provides a new understanding of the recurrent rhetorical need to employ conservative rhetoric in support of a radical cause Her study challenges the common view that the suffragettes use of military metaphors their vilification of the government and their violent attacks on property were signs of hysteria and self destruction Instead what emerges is a picture of a deliberate if controversial strategy of violence supported by a rhetorical defense of unusual power and consistency

Arguing Counterterrorism Daniela Pisoii, 2014-04-03 This book offers a multifaceted analytical account of counterterrorism argumentative speech Traditionally existing scholarship in this field of research has taken a selective focus

on issues and actors concentrating mainly on US state discourse after 9 11 However this approach ignores the fact that there was counterterrorism speech before 9 11 and that there are other countries and other actors who also actively engage in the counterterrorism discursive field both within and outside of the Western world Addressing several thematic chronological and methodological gaps in the current literature *Arguing Counterterrorism* offers a dynamic perspective on counterterrorism argumentative speech Over the course of the volume the authors tackle the following key issues first historical and cultural continuity and change Second the phenomenology of counterterrorism speech its nature instrumentalisation implications and interactions between the various actors involved The third theme is the anatomy of counterterrorism speech namely its political cultural and linguistic constitutive elements Employing a multi disciplinary framework the authors explore these issues through a geographically and historically diverse range of case studies resulting in a book that broadens the perspective of counterterrorism argumentation analysis This book will be of much interest to students of critical terrorism studies counterterrorism discourse analysis security studies and IR

Counterterrorism in Transition Guendalina Simoncini, 2024-04-02 This volume offers a critical examination of how counterterrorism measures influence democratic processes with a specific focus on the case study of post 2011 Tunisia More concretely it assesses the effects of counterterrorist discourses and practices on the democratic transition initiated after the Dignity Revolution of 2010 2011 Tunisia has been the only Arab country to experience a structured democratic transition after the Arab uprisings However the measures taken to counter the rise of salafi jihadism in the country strongly marked the transitional process This research analyses the detrimental impact of counterterrorism on Tunisian political transition and democratic consolidation It highlights human rights violations and their legitimization the strengthening of repressive mechanisms the enactment of liberticidal laws the normalization of exceptional governance and the constriction of public space while also detailing its negative effects on the state s economy The book posits that the counterterrorism rhetoric and policies have played a significant role in facilitating the democratic backsliding witnessed in Tunisia beginning in 2021 The research adopts a discursive ethnographic approach that integrates critical analysis of presidential and parliamentary discourse with extensive fieldwork among institutional and associative actors in Tunisia The volume represents the first comprehensive and holistic assessment of counterterrorism discourses and policies implemented in post 2011 Tunisia highlighting their progressive impact on democratic transition

Rhetoric, Fantasy, and the War on Terror Vaheed Ramazani, 2020-11-16 Drawing on psychoanalytic and semiotic perspectives this book examines discourses mediating the global War on Terror including governmental speeches legal documents print and broadcast journalism and military memoirs The book argues that these discourses motivate and are motivated by a myth of imminent harm that purportedly justifies a series of preemptive measures such as war torture and targeted killing as well as an array of intrusive domestic security procedures such as profiling and mass surveillance Dominant themes include selective compassion in the mainstream media the language of war

and the sacrificial sublime asymmetrical warfare and the nostalgia for total war weaponized drones and just war theory and the role of American exceptionalism in normalizing endless war Scholars and students alike will take interest in this original contribution to the fields of cultural studies psychoanalysis media studies rhetoric critical international relations and international humanitarian law and ethics
