Rhodesian Press The History Of The Rhode:

The Rhodesian Air Force in Zimbabwe's War of Liberation, 1966-1980 Darlington Mutanda, 2016-11-22 This book evaluates the development of the Rhodesian Air Force during the Second Chimurenga or Bush War 1966-1980. Airpower in irregular conflict is effective at the tactical level because guerrilla warfare is not a purely military conflict. The Rhodesian Air Force was deployed in a war-winning versus a supporting role as a result of the shortage of manpower to deal with insurgency and almost all units of the Rhodesian Security Forces depended on its tactical effectiveness. Technical challenges faced by the Air Force combined with the rate of guerrilla infiltration and the misuse of airpower to bomb guerrilla bases in neighboring countries largely negated the success of airpower.

Southern Rhodesia-South Africa Relations, 1923-1953 Abraham Mlombo, 2020-09-07 This book provides the first comprehensive study of the special relationship between Southern Rhodesia and South Africa. While most studies approach this from the history of British and South African relations or the history of South African territorial expansion, this book offers new insights by examining Southern Rhodesia's relations with South Africa from the former's perspective. Exploring relations through the lens of settler colonialism, the book argues that settler colonialism in the region was marked by a competitive and antagonistic relationship between settler communities, particularly Afrikaner and English communities. The book explores the connections between these countries by examining high politics, economic links, and social and cultural ties, highlighting both instances of competition and cooperation. Above all, it argues that economic ties were the cornerstone of the relationship and that these shaped the rest of the ties between the two countries. Drawing on archival records from Britain, South Africa, and Zimbabwe, as well as a number of secondary sources, it offers a much more nuanced perspective of this relationship than has been previously offered.

histories argues that the reality of the situation is of course much more intricate and complex Focusing on post war colonial Rhodesia Gendering the Settler State provides a fine grained analysis of the role s of white women in the colonial enterprise arguing that they held ambiguous and inconsistent views on a variety of issues including liberalism gender race and colonialism

A Matter of Weeks Rather Than Months J R T Wood,2012-08-02 Founded on 35 years of research into o the post 1945 Anglo Rhodesian history this book complements Richard Wood s The Welensky Papers A History of the Federation of Rhodesia and Nyasaland 1953 1963 1983 and So Far and No Further Rhodesia s bid for independence during the retreat from empire 1959 1965 2005 Of So Far Michael Hartnack wrote that Once in a lifetime comes a book which must force a total shift in the thinking person s perception of an epoch and of all the prominent characters who featured in it A Matter of Weeks Rather than Months recounts the action and reaction to Ian Smith s unilateral declaration of Rhodesia s independence the second such declaration since the American one of 1776 It examines the dilemmas of both sides Smith s problem was how to legitimise his rebellion to secure crucial investment capital markets trade and more His antagonist the British Prime Minister Harold Wilson was determined not to transfer sovereignty until Rhodesia accepted African majority rule in common with the rest of Africa Given British feelings for their Rhodesian kith and kin and Rhodesia s landlocked position Wilson eschewed the use of force He could only impose sanctions but hoped they would defeat Smith in a matter weeks rather than months The Rhodesians however evaded the sanctions with such success that they forced Wilson to negotiate a settlement Negotiations were nevertheless doomed because the self confident Rhodesians would not accept a period of direct British rule while rapid progress to majority rule was made or the imposition of restraints on powers they

had possessed since gaining self government in 1923 In tune with their allies in the African National Congress of South Africa the Rhodesian or Zimbabwean African nationalists had already adopted the Marxist concept of the Armed Struggle as a means to power Sponsored by the Communist Bloc its surrogates and allies they began a series of armed incursions from their safe haven in Zambia Although bloodily and easily repulsed they would learn from their mistakes as the Rhodesian forces would discover in the 1970s Consequently this is a tale of sanctions negotiations and counter insurgency warfare

AF Press Clips ,1979 *Decolonisation, Identity and Nation in Rhodesia, 1964-1979* David Kenrick,2019-11-02 This book explores concepts of decolonisation identity and nation in the white settler society of Rhodesia now Zimbabwe between 1964 and 1979 It considers how white settlers used the past to make claims of authority in the present It investigates the white Rhodesian state s attempts to assert its independence from Britain and develop a Rhodesian national identity by changing Rhodesia s old colonial symbols and examines how the meaning of these national symbols changed over time Finally the book offers insights into the role of race in Rhodesian national identity showing how portrayals of a timeless black population were highly dependent upon circumstance and reflective of white settler anxieties Using a comparative approach the book shows parallels between Rhodesia and other settler societies as well as other post colonial nation states and even metropolises as themes and narratives of decolonisation travelled around the world **Catalogue of the Colonial Office**

Central Africa Hyden Munene,2022-01-31 Copper King in Central Africa offers a detailed account of the corporate history of the Rhokana Rokana Corporation and its Nkana mine Thematically and chronologically organised it explores the discovery of viable ores on the Northern Rhodesian Zambian Copperbelt in the late 1920s which attracted foreign capital from South Africa Britain and the USA prompting the development of the Nkana mine and the formation of the Rhokana Corporation in the early 1930s It follows through the evolution of the copper mining industry up to the re privatisation of the Zambian mining sector in 1991 The book ties into a single narrative the disparate themes of corporate organisation labour relations and profitability of Rhokana demonstrating how the firm was for a time the most important mining entity in the Northern Rhodesian Zambian mining industry Rhokana was both an investment firm on the Copperbelt and a mining company through Nkana mine Thus the Corporation was central to the development and profitability of the copper industry in Zambia Its corporate and labour policies influenced the Copperbelt as a whole Employing the largest labour force in the mining sector Rhokana spearheaded the labour movement on the Copperbelt Its Nkana mine was also the largest producer of copper in the Northern Rhodesian mining industry between 1940 and 1953 and contributed hugely to the war economies of Britain and the USA Throughout its history Nkana was also a major source of cobalt After nationalisation of the mining sector in 1970 Rhokana surrendered its investments in the wider copper industry but remained central to the Copperbelt s smelting and

refining operations owning the biggest metallurgical facilities in the industry of State. Bureau of African Affairs, 1978
