The Rhondda Valleys Evan David Lewis, 1959 *Coalfields & Collieries of Australia* Frederick Danvers Power, 1912

Mines. Year 1896. List of Mines in the United Kingdom of Great Britain and Ireland, and the Isle of Man Her Majesty's inspectors of mines, 1897 **List of Mines in Great Britain and the Isle of Man**, 1900 [The Entrepreneurial Society of the Rhondda Valleys, 1840-1920](#) Richard Griffiths, 2010-07-30 This is the first book to examine in a systematic way the entrepreneurial society of the Welsh Valleys. Until now almost everything written about the society created by the Welsh coal industry has been about the workers and the unions and there has been a significant gap which needed to be filled if a rounded picture of life in the south Wales valleys during the coal boom was to be achieved. The book looks at the various sources of wealth in the area: coal, owning railway, building, possession of land in crucial areas, contracting, building, property development, shopkeeping and at the various origins from which the first generation entrepreneurs came. It then examines closely the networks of power and influence that built up among the second generation entrepreneurs in the close and claustrophobic middle class society of the Porth Pontypridd area. Its method is to take one extended family central to that society together with its vast network of friends and collaborators and to examine in great detail from original sources the often hair-raising business methods of these people as well as their conflicts of interest at times of industrial unrest. At the same time the changes in Valleys life are mirrored in the history of this group: the original rags to riches stories of so many of the first generation, the self-sufficient confidence of so many of the second generation for whom the coal boom seemed bound to last for ever and the gradual move thereafter out of the coal industry and down to the towns on the coast just in time to avoid the decline of the industry.

A History of Modern Wales 1536-1990 Philip Jenkins, 2014-10-13 Rich in detail but vigorous, authoritative and unsentimental. A History of Modern Wales is a comprehensive and unromanticised examination of Wales as it was and is. It stresses both the long-term continuities in Welsh history and also the significant regional differences within the principality.

Railways and Industry in the Tondur Valleys John Hodge, Stuart Davies, 2019-11-30 A photo-filled history of this part of Welsh coal country and its freight and passenger service. Following the first volume dealing with the Llynfi Valley, this book provides details on individual aspects of railways operation, focusing on the Ogmore, Garw and Porthcawl branches in this area of South Wales. The books give a history of the railway, coal mining and other industrial aspects of each Valley that combine to make up the Tondur Valleys, with detailed comments on the operation of the railway, passenger and freight, and details of each colliery within the area and their place within the South Wales coalfield. The study of Porthcawl traces its development from a dock to a seaside resort, with supporting photographs of both aspects. Each location is studied in detail with abundant photographs of railway and colliery activity. This is the first time such a study of

this area has been undertaken in such detail *The Geology of the South Wales Coal-field* Sir Aubrey Strahan, Richard Hill Tiddeman, Walcot Gibson, 1903 South Wales Miners: Glowyr de Cymru Robert Page Arnot, 2023-08-18 First published in 1967 South Wales Miners Glowyr de Cymru is a vivid portrayal of contending personalities in the generation before the first world war often set forth in their own words Outstanding amongst them are the founder of the Labour Party Keir Hardie and the young Liberal politician Winston Churchill whose successive ministerial duties brought him into close relation with the miners of South Wales Out of the almost insurrectionary situation of 1910 in Glamorgan there has come a widespread belief that Churchill was responsible for the shooting down of Welsh miners and that Tonypany in the Rhondda was once a scene of massacre In destroying this picturesque myth Page Arnot uncovers an array of facts that are stranger than this long lived fiction and also richer in their interplay of personalities Here soberly recorded are the facts that could make a chronicle play with dramatis personae ranging from Monarch and Minister to mineowners and working miners who daily lives create the tensions of the time Their national characteristics and their exceptional conditions at home or in chapel underground or on the surface form one side of the picture of which the other is furnished by the entrenched position of the associated coal owners This book will be of interest to students of history economics and labour studies **South Wales Coal Annual**, 1907 **The Geology of the South Wales Coal-field** Geological Survey of Great Britain, 1917 **International Mining and Metallurgical Manual**, 1925 **Annual Report** New South Wales.
