Psychoanalysis Charles Baudouin, 2015-04-17 Originally published in 1922 this title was intended for the expert and for the general reader The original blurb states As far as the general reader is concerned there does not yet exist a volume which gives a straightforward and thoroughly comprehensible explanation of the leading methods and theories of psychoanalysis in conjunction with an exposition of the philosophical educational and general psychological bearings of the doctrine But the author's main object is a practical one The method to which experience has led me and whose results are here recorded writes Baudouin in the first chapter is founded upon unceasing collaboration between autosuggestion and psychoanalysis Whether it be heretical or not I am confident that immense advantage can be derived from such collaboration *Tremor & Precision*, 2002 **Diario de las sesiones ... 1838 (-1921/2)**. Feminism's Empire Carolyn J. Eichner, 2022-06-15 *Feminism's Empire* investigates the complex relationships between imperialisms and feminisms in the late nineteenth century and demonstrates the challenge of conceptualizing pro imperialist and anti imperialist as binary positions By intellectually and spatially tracing the era's first French feminists engagement with empire Carolyn J Eichner explores how feminists opposed yet employed approaches to empire in writing speaking and publishing In differing ways they ultimately tied forms of imperialism to gender liberation Among the era's first anti imperialists French feminists were enmeshed in the hierarchies and epistemologies of empire They likened their gender based marginalization to imperialist oppressions Imperialism and colonialism's gendered and sexualized racial hierarchies established categories of inclusion and exclusion that rested in both universalism and ideas of nature that presented

colonized people with theoretical yet impossible paths to integration Feminists faced similar barriers to full incorporation due to the gendered contradictions inherent in universalism The system presumed citizenship to be male and thus positioned women as outsiders Feminism's Empire connects this critical struggle to hierarchical power shifts in racial and national status that created uneasy linkages between French feminists and imperial authorities [Forthcoming Books](#) Rose

Army,1996-10 **Decentralization, Democratization, and Informal Power in Mexico** Andrew Selee,2015-10-20 In the last two decades of the twentieth century many countries in Latin America freed themselves from the burden of their authoritarian pasts and developed democratic political systems At the same time they began a process of shifting many governmental responsibilities from the national to the state and local levels Much has been written about how decentralization has fostered democratization but informal power relationships inherited from the past have complicated the ways in which citizens voice their concerns and have undermined the accountability of elected officials In this book Andrew Selee seeks to illuminate the complex linkages between informal and formal power by comparing how they worked in three Mexican cities The process of decentralization is shown to have been intermediated by existing spheres of political influence which in turn helped determine how much the institution of multiparty democracy in the country could succeed in bringing democracy closer to home

The New Prometheans Courtenay Raia,2019-12-04 The Society for Psychical Research was established in 1882 to further the scientific study of consciousness but it arose in the surf of a larger cultural need Victorians were on the hunt for self understanding Mesmerists spiritualists and other romantic seekers roamed sunken landscapes of entrancement and when psychology was finally ready to confront these altered states psychical research was adopted as an experimental vanguard Far from a rejected science it was a necessary heterodoxy probing mysteries as diverse as telepathy hypnosis and even s ance phenomena Its investigators sought facts far afield of physical laws evidence of a transcendent irreducible mind The New Prometheans traces the evolution of psychical research through the intertwining biographies of four men chemist Sir William Crookes depth psychologist Frederic Myers ether physicist Sir Oliver Lodge and anthropologist Andrew Lang All past presidents of the society these men brought psychical research beyond academic circles and into the public square making it part of a shared far reaching examination of science and society By layering their papers textbooks and lectures with more intimate texts like diaries letters and literary compositions Courtenay Raia returns us to a critical juncture in the history of secularization the last great gesture of reconciliation between science and sacred truths [Public Opinion](#) ,1891 *The Saturday Review of Politics, Literature, Science, Art, and Finance* ,1879
