**White Slavery** Christopher Alexander Berg, 2014-07-02 If there are things in here that people may find offensive don't blame me blame that in which you've allowed to be created around you I am just a reflection What started off as just another poetry book ended up becoming much much more Christopher Alexander Berg's latest work *White Slavery* is a creation that comes along maybe once every generation The words in this book surpass art emotion and even wisdom When describing this book all one can say is blessing This work this writer and his sacrifice have made this book a true blessing for us all Inspired by the cries of a nation from the mouths of the voiceless Berg has put together what's sure to be an instant classic I didn't want to write just another poetry book I wanted to do more and show more with the words this time I experimented with different types of writing styles and formats in order to push myself to the next level We are living

in dangerous times and in order to reach as many people as I could I knew I had to expand and not just write for those who are awake but for those who are asleep as well White Slavery punches holes into modern man's way of thinking and exposes the lies we've all been forced to believe If the truth does indeed hurt then get ready to have your heart broken and your mind blown away Welcome to the way things are Welcome to your chains

Kaviya Thamizhi, 2025-05-19 Why this book Mental health issues are on the rise and the children of today's world are burdened with a lot more problems than their ancestors had in the past The world that exists today did not exist before and hence this new world has its own new set of problems and solutions to which most of us are blind Mental health disturbances have their roots deeply set in childhood and it is mostly the childhood traumas and thinking style that shows up itself in later years as mental illnesses There is a saying A stitch in time saves nine A small word of care and support in kindergarten can prevent a major depressive disorder in the thirties Children get to spend 68 hours of the day in schools and most of their productive parts of the day are in the vicinity of teachers and friends I am here not undermining the role of parents but just trying to point out the fact that children tend to learn faster under the guidance of a good teacher A lucky student is one he/she who has found a mentor for life A teacher has more time to observe the child and get a better understanding of what the child is going through because children tend to grow closer to people whom they are in proximity with For example most best friends are children who sat next to each other on the same bench Proximity is one of the factors that play an important role in making and building relationships In this context parents drop their children at school feed them and put them to bed So this amounts to only a small percentage of the twentyfour hours in a day Bringing up children is not the sole responsibility of the parents alone but also that of the teachers political leaders and the whole society at large
