Richard Neutra And The Search For Modern Architecture A Biography And History:

Richard Neutra and the Search for Modern Architecture Thomas S. Hines, Richard Joseph Neutra, 1994-01-01 An important contribution to the understanding of modernist culture in the United States and a perceptive analysis of the achievement of a major American architect with a European background and an international reputation William Jordy Brown University This study part biography and part architectural analysis is a modern masterpiece of architectural history The prose is lucid and sometimes elegant very much like the work of Richard Neutra which it so brilliantly examines Peter Gay Yale University An important contribution to the understanding of modernist culture in the United States and a perceptive analysis of the achievement of a major American architect with a European background and an international reputation William Jordy Brown University The Frontier of Leisure Lawrence Culver, 2012-06-07 Tracing the history of Southern California from the late 19th century through the late 20th century this book reveals how this region did much more than just create lavish resorts like Santa Catalina Island and Palm Springs it literally remade American attitudes towards leisure

Private Landscapes Pamela Burton, Marie Botnick, 2002 When we think of the gardens of Southern California we tend to think of the enormous semiarid landscapes of the Huntington and Rancho Los Alamitos often built on the sprawling grounds of former ranches But there is another garden tradition in Southern California the modest rectangular suburban plots designed by the most famous architects of mid century modernism Richard Neutra Rudolph Schindler Gregory Ain Raphael Soriano Harwell Hamilton Harris A Quincy Jones and John Lautner These architects saw the garden as an outdoor extension of the space of the houses they designed rather than a neo Spanish fantasy to be added later by a landscapist Their modern gardens made use of low maintenance drought resistant plants and made room for informal outdoor living by children and adults with an emphasis on recreation and exercise The first book of its kind *Private Landscapes* profiles twenty significant gardens and their accompanying houses by these celebrated architects Using contemporary photographs by Julius Shulman and newly commissioned color images along with plans and plant lists *Private Landscapes* provides a never before seen look at these gardens As beautiful and practical now as they were 50 years ago these designs continue to provide inspiration for gardeners and designers everywhere

The Fountainheads Donald Leslie Johnson, 2005-01-01 Speculation abounds about the relationship between Frank Lloyd Wright and Ayn Rand Was Wright the inspiration for Howard Roark the architect hero of Rand's *The Fountainhead* What can be made of their collaboration on the book's failed 1944 movie adaptation and what can be gleaned from the 1949 Hollywood production of *The Fountainhead* Where does the FBI Wright was dubbed a communist sympathizer and Rand was called before the House Un American Activities Committee fit into the story Art architecture philosophy film and politics come together in this exploration which relies on the writings of Wright and Rand FBI files visual evidence and more to cement their connection Chapters are devoted to Wright and Rand the two together their parts in both the failed production of *The Fountainhead* and the successful one and the effect FBI harassment had on

the movie and on their lives Subsequent chapters discuss Wright's place as a Hollywood architect and offer telling set designs and architectural images from the 1949 production of *The Fountainhead* Several appendices supplement the illustrated text and there is a filmography of movies mentioned in the book A bibliography and index are also included

Architecture and the Landscape of Modernity in China before 1949 Edward Denison, 2017-02-17 This book explores China's encounter with architecture and modernity in the tumultuous epoch before Communism an encounter that was mediated not by a singular notion of modernism emanating from the west but that was uniquely multifarious deriving from a variety of sources both from the west and importantly from the east The heterogeneous origins of modernity in China are what make its experience distinctive and its architectural encounters exceptional These experiences are investigated through a re-evaluation of established knowledge of the subject within the wider landscape of modern art practices in China The study draws on original archival and photographic material from different artistic genres and architecturally concentrates on China's engagement with the west through the treaty ports and leased territories the emergence of architecture as a profession in China and Japan's omnipresence not least in Manchuria which reached its apogee in the puppet state of Manchukuo The study's geographically temporally and architecturally inclusive approach framed by the concept of multiple modernities questions the application of conventional theories of modernity or post colonialism to the Chinese situation By challenging conventional modernist historiography that has marginalised the experiences of the west's other for much of the last century this book proposes different ways of grappling with and comprehending the distinction and complexity of China's experiences and its encounter with architectural modernity *Cold War Hothouses* Beatriz

Colomina, Annemarie Brennan, Jeannie Kim, 2012-04-17 The technological innovation and unprecedented physical growth of the cold war era permeated American life in every aspect and at every scale From the creation of the military industrial complex and the beginnings of suburban sprawl to the production of the ballpoint pen and the TV dinner the artifacts of the period are as numerous and diverse as they are familiar Over the past half century our awe at the advances of postwar society has softened to nostalgia and our affection for its material culture has clouded our memories of the enormous spatial reorganizations and infrastructural transformations that changed American life forever *Richard Neutra's Miller House*

Stephen Leet, 2004-04 In 1937 the architect and his sophisticated client produced a masterwork of forward thinking and artful architecture **Googie Redux** Alan Hess, 2004-10-14 The book that helped spark the retro craze for fifties architecture and introduced the term googie to the world is back First published by Chronicle in 1986 this key survey of mid-century coffee shop and commercial architecture is still the standard work on the subject Googie Redux is a thoroughly revised and expanded edition of the classic and perennial top-selling book that rekindled the craze for 1950s coffee shop and commercial architecture Long derided by critics as popular folly the style so named after John Lautner's eccentric Los Angeles coffee shop was emblematic of Southern California's car-oriented architecture By the time of the first edition's debut

these buildings were being demolished by the score Alan Hess 1985 Chronicle book did much not only to educate legitimize and popularize the style that characterized this endangered architecture but it helped spark a resurgence of interest into midcentury modern design Completely revised and significantly expanded in both text and images some of them recently unearthed for this edition this redesigned package features is still an entertaining and informative look at the rise fall and resurgence of the commercial architecture that changed the American landscape Includes a greatly expanded guided tour of the iconic buildings in Southern California

The Curriculum of the Body and the School as Clinic Kellie Burns, Helen Proctor, 2023-12-05 This collection brings together cutting edge research on the history of embodiment health and schooling in an international context The book distinguishes a set of educational technologies schooling practices and school based public health programmes that organise and influence the bodies of children and young people defining the curriculum of the body Taking a historical approach with a focus on the period in which mass schooling became an international phenomenon the book is organised according to four major themes The first positions the school as a modern clinical space followed by the second that explores programmes and curricula which influence the discipline of and care for the body The third section examines the role of the built environment on the organisation and experience of children s bodies and the final section outlines the pedagogies rules and routines that determine how the body is treated and experienced in school International and multidisciplinary in scope this unique collection is of interest to postgraduate students and researchers in education and public health as well as history policy studies and sociology

Through the Healing Glass John Sadar, 2016-02-12 In the mid 1920s a physiologist a glass chemist and a zoo embarked on a project which promised to turn buildings into medical instruments The advanced chemistry of Vita Glass mobilised theories of light and medicine health practices and glassmaking technology to compress an entire epoch s hopes for a healthy life into a glass sheet yet it did so invisibly To communicate its advantage Pilkington Bros spared no expense as they launched the most costly and sophisticated marketing campaign in their history Engineering need for Vita Glass employed leading edge market research evocative photography and vanguard techniques of advertising psychology accompanied by the claim Let in the Health Rays of Daylight Permanently through Vita Glass Windows This is the story of how despite the best efforts of two glass companies the leading marketing firm of the day and the opinions of leading medical minds Vita Glass failed However it epitomised an age of lightness and airiness sleeping porches flat roofs and ribbon windows Moreover through its remarkable print advertising it strove to shape the ideal relationship between our buildings and our bodies

Schindler, Kings Road, and Southern California Modernism Robert Sweeney, Judith Sheine, 2012-10-30 This book establishes R M Schindler s Kings Road House amongst the icons of modernist housing as crucial as Le Corbusier Walter Gropius Mies van der Rohe or Frank Lloyd Wright to the story of twentieth century residential design Weaving together an impressive blend of primary sources Sweeney and Sheine

illuminate heretofore unknown or neglected stories regarding Schindler's life, his relationship with his mentors most notably Wright himself and the development of his unique theories about space. These essays will interest both scholars and practitioners of architecture as well as readers wishing to learn more about the development of architectural modernism in general. J. Philip Gruen, School of Design and Construction, Washington State University. [Designing the Creative Child](#) Amy F. Ogata, 2013-04-21. The postwar American stereotypes of suburban sameness, traditional gender roles and educational conservatism have masked an alternate self image tailor made for the Cold War. The creative child, an idealized future citizen, was the darling of baby boom parents, psychologists, marketers and designers who saw in the next generation promise that appeared to answer the most pressing worries of the age. *Designing the Creative Child* reveals how a postwar cult of childhood creativity developed and continues to this day. Exploring how the idea of children as imaginative and naturally creative was constructed, disseminated and consumed in the United States after World War II, Amy F. Ogata argues that educational toys, playgrounds, small middle class houses, new schools and children's museums were designed to cultivate imagination in a growing cohort of baby boom children. Enthusiasm for encouraging creativity in children countered Cold War fears of failing competitiveness and the postwar critique of social conformity, making creativity an emblem of national revitalization. Ogata describes how a historically rooted belief in children's capacity for independent thinking was transformed from an elite concern of the interwar years to a fully consumable and aspirational ideal that persists today. From building blocks to Gumby playhouses to Playskool trains, Creative Playthings to the Eames House of Cards, Crayola, fingerpaint to children's museums, material goods and spaces shaped a popular understanding of creativity. *Designing the Creative Child* demonstrates how this notion has been woven into the fabric of American culture. **Objects, Audiences, and Literatures** Carma Gorman, David Raizman, 2009-03-26. In *Objects, Audiences and Literatures: Alternative Narratives in the History of Design*, five art historians tap a variety of unexpected literary sources to reveal the dynamic relationship between intention and reception in architecture, interior design, costume and the decorative arts. The essays consider both handcrafted and serially produced objects from the eighteenth to the mid twentieth centuries, including a japanned high chest from colonial Boston, German and Austrian Artistic Dress, Tiffany lamps, the architecture of the 1925 Exposition Internationale des Arts Décoratifs et Industriels in Paris and the dream homes portrayed in two popular postwar American films. The five chapters demonstrate that a complex and even contradictory mixture of stakeholders determines the meanings of designed objects. Each author examines popular forms of literature in order to reveal the preconceptions that viewers brought with them to the experience of looking at and using objects. The authors' attentiveness to viewers' class and gender provides a methodological model for approaching the study of reception within the field of design history. *Objects, Audiences and Literatures* introduces a new generation of historians of design and decorative arts with five superb case studies. Looking beyond the laconic historical data that has formed the backbone of scholarship in this field, these authors plumb popular

culture films advertisements and especially novels to understand contemporaneous meanings of objects Using these polyglot sources with an eye particularly on narrative and gender they suss out heretofore unnoticed dissonances between the prescriptive pronouncements of avant garde insiders and the reception that design innovation found in broader publics These wide ranging essays are marked by imagination exuberance and acuity I look forward to using it in my teaching Margaretta M Lovell University of California Berkeley This is a welcome addition to the literature that addresses the growing scholarly and popular interest in design and design history Drawing on an impressive array of examples the authors explore how class gender and cultural context shaped the reception of architecture interior design costume and the decorative arts at various moments in the modern era The collection is noteworthy for the way each of the contributors draws upon literary sources for insights into design and material culture that transcend the specific examples under review Models of methodological rigor these essays should appeal to scholars in multiple disciplines Dennis P Doordan University of Notre Dame **Kem Weber**

Christopher Alan Long,2014-01-01 The first major look at the renowned industrial designer and architect who helped to shape the look of American modernism from the 1920s through the early 1950s For German born Kem Weber 1889 1963 design was not about finding a new expression it was about responding to structural economic and social requirements characteristic of our daily routine of living He sought to ensure that each design he produced whether a piece of furniture or a building or an interior was an improvement that responded to modern needs and modern life Weber was a leading figure of modernism on the West Coast from the 1920s through the early 1950s and his work greatly influenced the California style of the time His most iconic designs were his Bentlock line the Air Line chair the interiors for the Bixby House and his tubular steel furniture for Lloyd This book a result of significant new primary research in the Weber family s archives represents the first major study of the life and career of this important designer Christopher Long details the full range of Weber s contributions focusing particularly on the part he played in the advancement of American modernism and his role in heralding a new way of making and living **Building American Public Health** R. Lopez,2012-05-04 This historical study looks at how reformers have used urban planning and architecture to improve the health of urban residents of the United States It begins in the nineteenth century when problems in rapidly urbanizing cities threatened to overwhelm cities and then traces the development and impact of reform movements up through the First World War including discussions of model tenements the city beautiful movement tenement laws and zoning and building codes Midcentury design movements such as new efforts to plan suburbs and Modernism along with outlines of the impacts of public housing highway building and urban renewal are the focus of the middle chapters of the book The final third examines the revival of cities and the reconnection of public health with urban planning that occurred as the twentieth century ended **An Accidental Masterpiece** Dietrich Neumann,2020-12-07 The Complex History of a Building With the temporary exhibition pavilion of the German Reich at the 1929 International Exposition in Barcelona Mies van der Rohe designed an architectural icon but also a controversial

monument of the way the Weimar Republic portrayed itself The building is one of the most unusual success stories in the history of architecture Despite its short existence its reputation grew steadily in the following decades thanks in part to magnificent photographs It was soon considered the constructed manifesto of the Modern Age and its spatial and ideational ambitions were called a milestone of Modern architecture This comprehensively broadly researched book portrays the building s complex history and its political entanglement up to and including its reconstruction according to van der Rohe s plans at the original site between 1983 and 1986 Presumably the most important and influential architectural icon of the 20th century uniquely documented and depicted On the occasion of the 50th anniversary of Mies death and the Bauhaus centenary Many never before published photographs from archives in the US Germany and Spain
