Every emancipation movement, whether in Europe, Africa, or the Americas, has profoundly transformed the country and society in which it existed. This unique A-Z encyclopedia examines every effort to end slavery in the United States and the transatlantic world. It focuses on massive, broad-based movements as well as specific incidents, events, and developments and pulls together in one place information previously available only in a wide variety of sources. While it centers on the United States, the set also includes authoritative accounts of emancipation and abolition in Europe, Africa, the Caribbean, and Latin America. The *Encyclopedia of Emancipation and Abolition* provides definitive coverage of one of the most significant experiences in human history. It features primary source documents, maps, illustrations, cross references, a comprehensive chronology, and bibliography, and specialized indexes in each volume and covers a wide range of individuals and the major themes and ideas that motivated them to confront and abolish slavery.
