Crafting Preservation Criteria John H. Sprinkle, Jr., 2014-03-05 In 1966 American historic preservation was transformed

by the passage of the National Historic Preservation Act which created a National Register of Historic Places Now comprising more than 14 million historic properties across the country the National Register is the official federal list of places in the United States thought to be worthy of preservation One of the fundamental principles of the National Register is that every property is evaluated according to a standard set of criteria that provide the framework for understanding why a property is significant in American history The origins of these criteria are important because they provide the threshold for consideration by a broad range of federal preservation programs from planning for continued adaptive use to eligibility for grants and inclusion in heritage tourism and educational programs Crafting Preservation Criteria sets out these preservation criteria for students explaining how they got added to the equation and elucidating the test cases that allowed for their use From artworks to churches from the fifty year rule to the historic scene students will learn how places have been historically evaluated to be placed on the National Register and how the criteria evolved over time *Revive and Thrive: The Art of Town Revitalization and Historical Preservation* Harlan G. Otis, Transform your town into a vibrant heritage hub and inspire a renaissance of cultural abundance even if you're a novice in historic preservation Throughout this book we'll explore the transformative powers vesting within historic preservation not just a means to revive old structures but an opportunity to invigorate your community fuel local economies and safeguard the cultural continuity that shapes our identities Indeed the real essence of historic preservation extends beyond safeguarding old structures It's about people and the narratives entwined in these spaces This book was written with the understanding that you might not have a professional background in historic preservation It's presented in accessible language and formats breaking down complex concepts with engaging visuals and simple explanations We emphasize an inclusive and community focused approach to revitalization efforts maintaining housing affordability respecting resident rights and genuinely adding value to the lives of all community residents Your town offers a unique heritage and untold histories that when sustained that can be nurtured into a profound sense of pride and belonging among all members of your community Managing the Magic of Old Places Jeremy Wells, 2025-10-14 From 1849 to the early 1980s the development of US historic preservation policy was shaped by fewer than one hundred elite White men from Europe and America This orthodox preservation doctrine has too long silenced the vibrant experiential relationships between everyday people and their heritage *Managing the Magic of Old Places* Crafting Public Policies for People Centered Historic Preservation offers a radical rethinking of how historic preservation is approached in the United States Author Jeremy C Wells argues for a revolutionary shift in federal preservation policy one that embraces community based participatory practice and draws from environmental psychology to tap into the intangible emotional connections people have with old places Wells highlights the experiential values that laypeople often ascribe to historic environments which are frequently dismissed by expert driven policies He contends that if historic preservation policy continues to ignore these aspects the field will lose relevance as the gap between professionals and the public widens

Drawing from interdisciplinary research in the social sciences particularly phenomenology and environmental psychology Wells's vision of public preservation policy centers the lived experiences of communities reinvigorating the field and ensuring that the preservation of historic places resonates with a wider more inclusive audience Wells positions his work within the growing field of critical heritage studies yet his focus on the psychological and emotional aspects of preservation distinguishes it as a unique contribution By placing the needs and experiences of the public at the heart of preservation efforts Wells critiques the historical foundations of US preservation policy while offering a bold agenda for reform

Challenging History Leah Worthington, Rachel Clare Donaldson, John W. White, 2021-07-22 A collection of essays that examine how the history of slavery and race in the United States has been interpreted and inserted at public historic sites For decades racism and social inequity have stayed at the center of the national conversation in the United States sustaining the debate around public historic places and monuments and what they represent These conversations are a reminder of the

crucial role that public history professionals play in engaging public audiences on subjects of race and slavery This difficult history has often remained un or underexplored in our public discourse hidden from view by the tourism industry or even by public history professionals themselves as they created historic sites museums and public squares based on white centric interpretations of history and heritage Challenging History through a collection of essays by a diverse group of scholars and practitioners examines how difficult histories specifically those of slavery and race in the United States are being interpreted and inserted at public history sites and in public history work Several essays explore the successes and challenges of recent projects while others discuss gaps that public historians can fill at sites where Black history took place but is absent in the interpretation Through case studies the contributors reveal the entrenched false narratives that public history workers are countering in established public history spaces and the work they are conducting to reorient our collective understanding of the past History practitioners help the public better understand the world Their choices help to shape ideas about heritage and historical remembrances and can reform even transform worldviews through more inclusive and ethically narrated histories Challenging History invites public historians to consider the ethical implications of the narratives they choose to share and makes the case that an inclusive honest and complete portrayal of the past has the potential to reshape collective memory and ideas about the meaning of American history and citizenship

Stiefel,Jeremy C. Wells,2014-09-02 Over the past twenty years there has been a fundamental shift in the institutional organization of historic preservation education Historic preservation is the most recent arrival in the collection of built environment disciplines and therefore lacks the pedagogical depth and breadth found in allied endeavors such as architecture and planning As the first degree programs in preservation only date to the 1970s and the first doctoral programs to the 1990s new faculty are confronted with pedagogical challenges that are unique to this relatively nascent field Based on a conference that included educators from around the world Barry L Stiefel and Jeremy C Wells now present a collection that seeks to address fundamental issues of preservation pedagogy outcome based education and assessment and global issues of authenticity and significance in historic preservation The editors argue that the subject of the analysis has shifted from What is the best way to fix a historic building to What are the best ways for teaching people how to preserve historic properties and why according to the various standards that have been established This important reconsideration of the state of the field in historic preservation education will appeal to a broad audience across numerous disciplines *Invisible Cultural*

Urban Transformations Nicholas Wise, Julie Clark, 2017-06-14 Economic restructuring and demographic change have in recent years placed much strain on urban areas with the effects falling disproportionately on neighbourhoods that were previously underpinned by industry and manufacturing This has presented policy makers and city planners with a binary choice to resist change and stagnate or to change and attempt to keep up with the pace of global demand This edited book tells the story of how urban transformation impacts on people's lives and everyday interactions to question where and to whom benefit accrues from these changes *Urban Transformations* offers insight into both risk and reward as local communities and public authorities creatively address the challenge of building vital and sustainable urban environments The authors in this edited collection argue that understanding the specifics of community space and place is crucial to delivering insights into how where when why and for whom urban areas might successfully transform The chapters investigate urban change using a range of approaches and case studies from the four corners of the Earth from the United States to Iran from the United Kingdom to Canada The varying scales at which governance or regeneration initiatives operate the nature and composition of urban communities and the local or global interests of different private sector actors all raise questions for urban policy and practice It is important to not only consider the drivers of regeneration but its beneficiaries need to be identified This edited volume addresses and elaborates on critical issues facing urban transformation and renewal as a basis for future discussion on strategies for successful urban transformation

The Greatest Beach Ethan Carr, 2019-06-01 In the mid nineteenth century Thoreau recognized the importance of preserving the complex and fragile landscape of Cape Cod with its weathered windmills expansive beaches dunes wetlands harbors and the lives that flourished here supported by the maritime industries and saltworks One hundred years later the National Park Service working with a group of concerned locals then senator John F Kennedy and other supporters took on the challenge of meeting the needs of a burgeoning public in this region of unique natural beauty and cultural heritage To those who were settled in the remote wilds of the Cape the impending development was threatening and as the award winning historian Ethan Carr explains the visionary plan to create a national seashore came very close to failure Success was achieved through unprecedented public outreach as the National Park Service and like minded Cape Codders worked to convince entire communities of the long term value of a park that could accommodate millions of tourists Years of contentious negotiations resulted in the innovative compromise between private and public interests now known as the Cape Cod model *The Greatest Beach* is essential reading for all who are concerned with protecting the nation's gradually diminishing cultural landscapes In his final analysis of Cape Cod National Seashore Carr poses provocative questions about how to balance the conservation of natural and cultural
