A New Geography on the Comparative Method, with Maps and Diagrams and an Outline of Commercial Geography John Miller Dow Meiklejohn, 1895 *The Greening of Asia* Mark L. Clifford, 2015-04-07 One of Asia's best respected writers on business and economy Hong Kong based author Mark L Clifford provides a behind the scenes look at what companies in China India Japan Korea the Philippines Indonesia Hong Kong Singapore and Thailand are doing to build businesses that will lessen the environmental impact of Asia's extraordinary economic growth Dirty air foul water and hellishly overcrowded cities are threatening to choke the region's impressive prosperity Recognizing a business opportunity in solving social problems Asian businesses have developed innovative responses to the region's environmental crises From solar and wind power technologies to green buildings electric cars water services and sustainable tropical forestry Asian corporations are upending old business models in their home countries and throughout the world Companies have the money the technology and the people to act yet as Clifford emphasizes support from the government in the form of more effective market friendly policies and the engagement of civil society are crucial for a region wide shift to greener business practices Clifford paints detailed profiles of what some of these companies are doing and includes a unique appendix that encapsulates the environmental business practices of more than fifty companies mentioned in the book *The Geopolitics of Australia's Regional Relations* D. Rumley, 2001-06-30 The origins of this book go back 30 years to the stimulation and interest generated by the political geography seminars led by John House at the University of Newcastle Upon Tyne I was very fortunate to graduate among its extremely capable sporty and enthusiastic class of 68 from where several academic geographers emerged Equally fortunately some of them and their predecessors had already blazed a trail to undertake graduate studies in Canada At the University of British Columbia I was supervised at different times by Julian Minghi and Victor Prescott both of whom are not only extremely capable academics but are also very fine people I owe an enormous debt to John Julian and Victor and to the British and Canadian taxpayers who provided financial support for my University studies In 1974 I began an academic career at the University of Western Australia where I have been ever since save for a two year period from 1991-3 as Professor of Australian Studies in the Department of International Relations at the University of Tokyo Viewing Australia and the Asia Pacific region from this different perspective within an extremely supportive Japanese environment had a profound impact I am especially grateful for the support provided by so many Japanese academic colleagues and friends beginning as early as 1976 Three individuals deserve special mention for their help guidance and enduring friendship George Ohshima Hiroshi Tanabe and Akihiro Kinda **Fault Lines in a Rising Asia** Chung Min Lee, 2016-04-19 Asia has already risen by most hard power measures But without an understanding of the downsides of Asia's rise the conventional narrative is incomplete misleading and inaccurate Chung Min Lee explores the fundamental dichotomy that defines contemporary Asia While the region has been an unparalleled economic success it is also home to some of the world's most dangerous diverse

and divisive challenges Contrary to prevailing wisdom he says Asia's rise doesn't mean the demise of the West Asia's rise over the past four decades is one of the most significant geopolitical and geoeconomic developments in world affairs as evinced by China's and more recently India's accelerated economic growth Yet the conventional narrative of Asia's rise is incomplete if not misleading given the fundamental dichotomy that defines contemporary Asia a region with unparalleled economic success but also home to the world's most dangerous diverse and divisive security military and political challenges How the strategically consequential Asian states manage to ameliorate or even overcome traditional geopolitical tinderboxes across the Taiwan Strait the Korean Peninsula and the Indian subcontinent and new zones of strategic competition such as the South China Sea is to going to have a profound impact on the shaping of regional order well into the 21st century

Textual Rivals studies some of the most debated issues in Herodotean scholarship One such is Herodotus self presentation the conspicuousness of his authorial persona is one of the most remarkable features of his *Histories* So frequently does he interject first person comments into the narrative that Herodotus at times almost becomes a character within his own text Important issues are tied to Herodotus self presentation First is the narrator's relationship to truth to what extent does he expect readers to trust his narrative While judgments regarding Herodotus overall veracity have often been damning scholars have begun to concentrate on how Herodotus presents his truthfulness Second is the precise genre Herodotus means to create with his work Excluding the anachronistic term historian exactly what would Herodotus have called himself as author Third is the presence of self referential characters whose actions often mirror Herodotus as narrator researcher in

the Histories David Branscome's investigative text points to the rival inquirers in Herodotus Histories as a key to unraveling these interpretive problems The rival inquirers are self-referential characters Herodotus uses to further his authorial self-presentation Through the contrast Herodotus draws between his own exacting standards as an inquirer and the often questionable standards of those rivals Herodotus underlines just how truthful readers should find his own work Textual Rivals speaks to those interested in Greek history and historiography narratology and ethnography Those in the growing ranks of Herodotus fans will find much to invite and intrigue *Rand McNally Pocket Atlas of the World* Rand McNally and Company, 1924
