**Rickover** Norman Polmar, Thomas B. Allen, 1984      **Shield of David** Chaim M. Rosenberg, 2022-11-29 Jews first arrived in the New World in 1654 seeking religious freedom Since the beginning of American nationhood Jewish volunteers and conscripts fought in the Revolutionary War the War of 1812 on both sides of the Civil War the Spanish American War in both World Wars and in the Korean Vietnam Iraq and Afghanistan wars Over the years the American military learned to integrate its Jewish servicemen and women by providing Jewish military chaplains kosher food religious services and placing the Star of David on the graves of fallen Jewish soldiers The end of conscription and the establishment of the All Volunteer Force in 1973 offered other paths to serve our country American Jews have contributed with distinction in the arts and sciences academia entertainment government and in building the economy For Jews America is the Goldene Medina the Golden Country      *Innovation and the Arms Race* Matthew Evangelista, 2023-08-15 Innovation and the Arms Race investigates the causes and mechanisms of the technological arms race between the United States and the Soviet Union Challenging the commonly held notion that Soviet weapons innovation processes simply mirror those of the United States Matthew Evangelista shows that the United States usually leads in introducing new military technology while the Soviets typically react to American initiatives Evangelista bases his study of pivotal nuclear weapons development decisions on a variety of US and USSR primary sources including the memoirs of weapons designers and scientists declassified intelligence analyses Soviet Academy of Science documents and Nikita Khrushchev's taped reminiscences He finds that in the United States impetus for innovation comes from the bottom at the initiative of corporate or government researchers and military officials whereas the centralized Soviet system produces innovations from the top in response to foreign developments A revelatory analysis of US military policy Soviet American relations and weaponry development Innovation and the Arms Race bears lessons for the study of great power competition and military innovation today      *The Freedom of Information Reform Act* United States. Congress. House. Committee on Government Operations. Government Information, Justice, and Agriculture Subcommittee, 1985      **The ANZUS Crisis, Nuclear Visiting and Deterrence** Michael Pugh, 1989 The development of nuclear weapons has been a critical problem for the NATO alliance In the Pacific a region of increasing strategic interest for the United States and Soviet Union nuclear weapons have been an environmental concern since the bombing of Hiroshima and Nagasaki Opposition to nuclear tests has now been taken a step further with the creation of a South Pacific Nuclear Free Zone and the decision by a New Zealand Government to ban port visits by vessels believed to be carrying nuclear weapons New Zealand's proposal to back its policy with legislation had been seen by the Reagan and Thatcher administrations as a threat to the principle of neither confirm nor deny the presence of nuclear weapons on vessels This 1989 study examines the questions of principle at issue the evolution of the ANZUS crisis its implications for the Western alliance structure as a whole and the degree to which the nuclear free virus in the South Pacific might be catching      **1789** Thomas B. Allen, 2023-10-01

Historian Allen recreates in this meticulous and fast moving posthumous account the events of the pivotal year 1789 in America It s a superb distillation of a complex moment in U S history Publishers Weekly Starred Review 1789 George Washington and the Founders Create Americadraws on hundreds of sources to paint a vivid portrait of the new nation setting out to show the world at large that a new and very American form of government was calling itself into being No future session of Congress will ever have so arduous and weighty a charge on their hands the New York Gazette observed in summer 1789 No examples to imitate and no striking historical facts on which to ground their decisions All is bare creation The Constitution had been written in 1787 and ratified in 1788 But 1789 was the year the government it described albeit only in the broadest of terms had to be brought into being Veteran journalist Thomas B Allen brings decades of experience and a gifted storyteller s eye to the long hidden history of how George Washington and the Founders set the federal government into motion

**Hearings on National Defense Authorization Act for Fiscal Year 1998--H.R. 1119 and Oversight of Previously Authorized Programs, Before the Committee on National Security, House of Representatives, One Hundred Fifth Congress, First Session** United States. Life At The Center Of The Energy Crisis: A Technologist's Search For A Black Swan George H Miley,2013-04-30 Life at the Center of the Energy Crisis A Technologist s Search for a Black Swan describes the story of the author s work and struggles in the field of energy research The author s experience in the field spans from work with Admiral Rickover and the Nuclear Navy to research with NASA designing propulsion for spacecraft to travel to Mars The book provides insights into the differences between nuclear research done during the Cold War by the two superpowers and offers a commentary on the flaws in each system with hope for change in the future The book also provides a look into the development of the nuclear engineering program at the University of Illinois from the author s years as a professor and an administrator

**Strategic Review** ,1983 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States **Hearings on National Defense Authorization Act for fiscal year 1998--H.R. 1119 and oversight of previously authorized programs, before the Committee on National Security, House of Representatives, One Hundred Fifth Congress, first session** United States,1998

Cold War Submarines Norman Polmar,Kenneth J. Moore,2004 Submarines had a vital if often unheralded role in the superpower navies during the Cold War Their crews carried out intelligence collection operations sought out and stood ready to destroy opposing submarines and from the early 1960s threatened missile attacks on their adversary s homeland providing in many respects the most survivable nuclear deterrent of the Cold War For both East and West the modern submarine originated in German U boat designs obtained at the end of World War II Although enjoying a similar technology base by the 1990s the superpowers had created submarine fleets of radically different designs and capabilities Written in collaboration with the former Soviet submarine design bureaus Norman Polmar and K J Moore

authoritatively demonstrate in this landmark study how differing submarine missions antisubmarine priorities levels of technical competence and approaches to submarine design organizations and management caused the divergence

**Pigboat 39** Bobette Gugliotta, 2014-04-23 A historic account of the US Navy's cramped outdated submarine that was forced to remain in service during World War II. Constructed in 1923 the American submarine S-39 was practically an antique when the Japanese struck Pearl Harbor in 1941. With defective torpedoes a semi-trained crew and a primitive ventilation system hence the nickname she nevertheless sank two enemy vessels and eluded pursuit to fight again in the Solomons. This is the little-known story of how an unprepared navy fought with what it had until the tide could be turned. Bobette Gugliotta was one of the S-39 wives. With the technical assistance of her husband Guy, an officer who served on three of the S-class boats during the war, she presents an accurate and absorbing account of submarine operations and warfare. No less valuable is her candid and sympathetic portrayal of the men and women whose lives were caught up in the voyage of the S-39. Praise for *Pigboat 39*: There are very few accounts of the exploits of these submarines. This book is a gem essential for World War II and naval history collections. *Library Journal*. The account of S-39's 2,000-mile flight cackles with action. *Navy Times*. Captures in vivid style the valiant spirit of the men who held the line in the face of disaster. But equally important by depicting the roles played by the wives of the crew members. Gugliotta has helped to fill a gap that has largely been ignored by naval historians. *U.S. Naval Proceedings*. A remarkable evocation. *Louisville Courier Journal*. *The Management of Projects* Peter W. G. Morris, 1994 This book will undoubtedly become one of the classics of the project management literature. There will be a growing need for project managers who can look beyond the internal processes of their projects to the organisational, technological and socio-economic contexts in which projects must be managed. A good starting point would be for all project managers to read this book. *Construction Management and Economics*. *"Execute against Japan"* Joel Ira Holwitt, 2009-04-01 until now how the Navy managed to instantaneously move from the overt legal restrictions of the naval arms treaties that bound submarines to the cruiser rules of the eighteenth century to a declaration of unrestricted submarine warfare against Japan immediately after the attack on Pearl Harbor has never been explained. Lieutenant Holwitt has dissected this process and has created a compelling story of who did what when and to whom. *The Submarine Review*. *Execute against Japan* should be required reading for naval officers especially in submarine wardrooms as well as for anyone interested in history, policy or international law. *Adm. James P. Wisecup*, President, US Naval War College for Naval War College Review. Although the policy of unrestricted air and submarine warfare proved critical to the Pacific war's course, this splendid work is the first comprehensive account of its origins, illustrating that historians have by no means exhausted questions about this conflict. *World War II Magazine*. US Navy submarine officer Joel Ira Holwitt has performed an impressive feat with this book. Holwitt is to be commended for not shying away from moral judgments. This is a superb book that fully explains how the United States came to adopt a strategy regarded by many as illegal and tantamount to terror. *Military Review*.

*Communicating for Managerial Effectiveness* Phillip G. Clampitt, 2016-10-28 Appreciated by thousands of thoughtful students successful managers and aspiring senior leaders around the world *Communicating for Managerial Effectiveness* skillfully integrates theory research and real world case studies into models designed to guide thoughtful responses to complex communication issues The highly anticipated Sixth Edition builds on the strategic principles and related tactics highlighted in previous editions to show readers how to add value to their organizations by communicating more effectively Author Phillip G Clampitt Blair Endowed Chair of Communication at the University of Wisconsin Green Bay addresses common communication problems experienced in organizations including Communicating about major changes spanning organizational boundaries Selecting the proper communication technologies Transforming data into knowledge Addressing ethical dilemmas Providing useful performance feedback Structuring and using robust decision making practices Cultivating the innovative spirit Building a world class communication system

**Energy and Civilization** Vaclav Smil, 2018-11-13 A comprehensive account of how energy has shaped society throughout history from pre agricultural foraging societies through today s fossil fuel driven civilization I wait for new Smil books the way some people wait for the next Star Wars movie In his latest book *Energy and Civilization A History* he goes deep and broad to explain how innovations in humans ability to turn energy into heat light and motion have been a driving force behind our cultural and economic progress over the past 10 000 years Bill Gates Gates Notes Best Books of the Year *Energy* is the only universal currency it is necessary for getting anything done The conversion of energy on Earth ranges from terra forming forces of plate tectonics to cumulative erosive effects of raindrops Life on Earth depends on the photosynthetic conversion of solar energy into plant biomass Humans have come to rely on many more energy flows ranging from fossil fuels to photovoltaic generation of electricity for their civilized existence In this monumental history Vaclav Smil provides a comprehensive account of how energy has shaped society from pre agricultural foraging societies through today s fossil fuel driven civilization Humans are the only species that can systematically harness energies outside their bodies using the power of their intellect and an enormous variety of artifacts from the simplest tools to internal combustion engines and nuclear reactors The epochal transition to fossil fuels affected everything agriculture industry transportation weapons communication economics urbanization quality of life politics and the environment Smil describes humanity s energy eras in panoramic and interdisciplinary fashion offering readers a magisterial overview This book is an extensively updated and expanded version of Smil s *Energy in World History* 1994 Smil has incorporated an enormous amount of new material reflecting the dramatic developments in energy studies over the last two decades and his own research over that time

**Argonaut** John Poluhowich, 1999 From the inspired fiction of Jules Verne to the dark menace of the Cold War submarines have captivated the imaginations of millions for more than a century Many inventors have been credited for the submarine but one significant figure has been seriously overlooked Without the efforts of Simon Lake underwater navigation would be quite different from what it is today *Argonaut* illustrates Lake s creativity and

passion     *Rearming for the Cold War, 1945-1960* Elliott Vanveltner Converse, 2012 Book Description The first publication in a multivolume series on the history of the acquisition of major weapon systems by the Department of Defense author Elliott Converse presents a meticulously researched overview of changes in acquisition policies organizations and processes within the United States military establishment during the decade and a half following World War II Many of the changes that shaped the nature and course of weapons research and development production and contracting through the end of the century were instituted between 1945 and 1960 many of the problems that have repeatedly challenged defense policymakers and acquisition professionals also first surfaced during these years This study is the first to combine the histories of the Office of the Secretary of Defense OSD and the military services into one account The volume is organized chronologically with individual chapters addressing the roles of OSD the Army Navy and Air Force in two distinct periods     History of Acquisition in the Department of Defense, Volume 1 Elliott V. Converse, 2012-06-12 This volume is a history of the acquisition of major weapon systems by the United States armed forces from 1945 to 1960 the decade and a half that spanned the Truman and Eisenhower administrations following World War II These instruments of warfare aircraft armored vehicles artillery guided missiles naval vessels and supporting electronic systems when combined with nuclear warheads gave the postwar American military unprecedented deterrent and striking power 1 They were also enormously expensive The volume is organized chronologically with individual chapters addressing the roles of OSD the Army Navy and Air Force in two distinct periods The first roughly coinciding with President Truman s tenure covers the years from the end of World War II through the end of the Korean War in 1953 The second spans the two terms of the Eisenhower presidency from 1953 through early 1961 The year 1953 marked a natural breakpoint between the two periods The Korean War had ended President Eisenhower and his defense team began implementing the New Look a policy and strategy based on nuclear weapons which they believed would provide security and make it possible to reduce military spending The New Look s stress on nuclear weapons along with the deployment of the first operational guided missiles and the rapid advances subsequently made in nuclear and missile technology profoundly influenced acquisition in the services throughout the 1950s and the remainder of the century As used in this study the term acquisition encompasses the activities by which the United States obtains weapons and other equipment In surveying the history of acquisition between 1945 and 1960 this study discusses or refers in passing to many of the hundreds of weapon system programs initiated by the services in that period but it is not a weapons encyclopedia Instead it investigates a few major programs in depth in the belief that such detailed examination best reveals the evolution of acquisition policies organizations and processes and the various forces influencing weapons programs
