## **Riddle In The Poem:**

*The Riddle in the Poem* Živilė Gimbutas, 2004 *The Riddle in the Poem* is a study of the ramifications of riddles and riddle elements in the context of selected twentieth century poetry. It includes works by Francis Ponge, Wallace Stevens, Richard Wilbur, Rainer M. Rilke, and Henrikas Radauskas. This book enlarges the scope of riddles as a root of lyric by connecting it with the folkloristic concept of riddling essentially a question and answer series and by tracing the influence of the root in poetic methodology. *The Riddle in the Poem* may be defined as an attempt to advance the notion which has been discussed in previous folkloristic and literary studies which riddle as the root of lyric manifests itself in various ways. **Riddle Poem of**

This study examines several unexplored aspects of the poetry of Robert Frost, one of the most widely read and studied American poets, and shows how they contribute to the reader's experience and modernism in general. **The Old English Riddles and the Riddlic Elements of Old English Poetry** Rafat Boryslawski, Rafał Borysławski, 2004 The art of posing riddles is possibly as old as mankind and spans two apparent extremes which nevertheless converge in the riddlic form that of wisdom and that of play. With this perspective in mind, the author examines the poetic enigmas present in the culture of Anglo-Saxon England, exploring both the Anglo-Latin riddles of Aldhelm and those recorded in the Exeter Book. His study investigates the Old English riddlic texts from a variety of angles, arguing for the possibility of establishing patterns of Anglo-Saxon riddlic composition as such. The author intends to prove that both the Exeter collection and the Aenigmata of Aldhelm are constructed on the grounds of an identifiable structure of interrelations and interdependencies. Additionally, he argues that the riddlic mode of literary representation is also visible in other Anglo-Saxon poetic compositions. The analysis of such

an assumption leads to the conclusion that the predilection for the riddle form in Anglo Latin and Anglo Saxon poetry results from an Old English vision of the Christian world
