Philosophy and the 'Dazzling Ideal' of Science Graham McFee, 2019-08-27 Recent decades have seen attacks on philosophy as an irrelevant field of inquiry when compared with science In this book Graham McFee defends the claims of philosophy against attempts to minimize either philosophy's possibility or its importance by deploying a contrast with what Wittgenstein characterized as the dazzling ideal of science This dazzling ideal incorporates both the imagined completeness of scientific explanation whereby completing its project would leave nothing unexplained and the exceptionless character of the associated conception of causality On such a scientific world view what need is there for philosophy In his defense of philosophy and its truth claims McFee shows that rejecting such scientism is not automatically anti-scientific and that it permits granting to natural science properly understood its own truth-generating power Further McFee argues for contextualism in the project of philosophy and sets aside the pervasive and pernicious requirement for exceptionless generalizations while relating his account to interconnections between the concepts of person substance agency and causation      *The Wench is Dead* Colin Dexter, 2008-09-04 Winner of the CWA Gold Dagger award The Wench is Dead is the

Modern Fiction, Disability, and the Hearing Sciences Edward Allen, 2024-08-15 The relationship between critical disability studies and the hearing sciences is a dynamic one and it's changing still both as clinicians come to terms with the evolving health of deaf and hearing communities and as the social and medical understandings of disability continue to gain traction among different groups What might a cultural approach to these overlapping areas of study involve And what could narrative prose in particular have to tell us that other sources haven't sensed At a time when visual media otherwise seem to have captured the imagination Modern Fiction Disability and the Hearing Sciences makes the case for a wide range of literature In doing so through serials short stories circadian fiction narrative history morality tales whodunits Bildungsromane life writing the Great American Novel the book reveals the diverse ways in which writers have plotted and voiced experiences of hearing from the nineteenth century to the present day

College Cloisters - Married Bachelors Bridget Duckenfield, 2014-07-03 Using archival material and many unpublished sources this work traces the origins of Oxford and Cambridge University colleges as places of learning founded from the thirteenth century for unmarried men who were required to take vows of poverty chastity and obedience the majority of whom trained for the priesthood The process reveals how the isolated monk-like existence was gradually transformed from the idea of married Fellows at University Colleges being considered absurd into considering it absurd not to allow Fellows to marry and keep their fellowships and therefore their income This book shows how the Church was accepted as an essential element in society with university trained Churchmen becoming influential in Crown government and State As part of the cataclysmic change from Catholic to Protestant religion Edward VI and his Council permitted priests to marry partly to declare their allegiance to the new Protestant religion and their rejection of the old However within the university colleges the rule that Fellows would lose their fellowships immediately on marriage was insisted upon Why a group of individuals were instructed to remain set in a medieval monastic way of life within a nineteenth century institution is traced in conjunction with how anomalies arose were absorbed accepted or challenged by a few courageous individuals prior to bringing about the ultimate change to the statutes in 1882

The Way Through the Woods Colin Dexter, 2011-08-24 Cunning Your imagination will be frenetically flapping its wings until the very last chapter THE WASHINGTON POST BOOK WORLD Morse is enjoying a rare if unsatisfying holiday in

Dorset when the first letter appears in THE TIMES A year before a stunning Swedish student disappeared from Oxfordshire leaving behind a rucksack with her identification As the lady was dishy young and traveling alone the Thames Valley Police suspected foul play But without a body and with precious few clues the investigation ground to a halt Now it seems that someone who can hold back no longer is composing clue laden poetry that begins an enthusiastic correspondence among England s news reading public Not one to be left behind Morse writes a letter of his own and follows a twisting path through the Wytham Woods that leads to a most shocking murder
