G. D. Malmqvist,2011 This book deals with the life and career of Bernhard Karlgren 1889 1978 whose research in a great variety of fields particularly the historical phonology of the Chinese language laid the foundations for modern western sinology The definition of the term sinology has undergone great changes since Bernhard Karlgren entered the stage a century ago At that time the term covered research related to the language literature history thought and intellectual aspects of early China Since the mid twentieth century the definition has been considerably broadened to include more modern aspects with special emphasis on sociopolitical and economic topics In many Chinese language departments in both China and the West studies of early China have been put at a disadvantage This book may serve as a reminder that the time may have come to redress the imbalance The book begins by sketching the intellectual milieu that characterized Karlgren s school years and ends with a mention of his last publication Moot words in some Chuang Tse chapters published in 1976 The intervening seventy years were filled with intense scholarly activities including his disputatio for the PhD in Uppsala in 1915 his subsequent career as professor of East Asian languages at Gothenburg University 1918 39 and his directorship of the Museum of Far Eastern Antiquities in Stockholm 1939 59 For many years he served as vice chancellor of Gothenburg University and as president of the Royal Swedish Academy of Letters History and Antiquities He also played a leading role in various endeavors to strengthen the standing of Swedish humanities **Central Asian Cultures, Arts, and Architecture** Ardi Kia,2018-10-15 Central Asia Cultures Arts and Architecture presents a journey through time analyzing the history of Central Asian cultures arts and architecture since prehistoric times It includes documentation of historical cultural artistic and architectural accomplishments and combines writings based on archaeological excavations and research of prehistoric

Warlords and Muslims in Chinese Central Asia Andrew D. W. Forbes,1986-10-09 This book provides a detailed study of Sinkiang China s largest province and of great strategic importance on the Russian border during the Warlord and Kuomintang Eras It is an analysis of the internal warlord and Islamic politics of Sinkiang as well as to take account of great power interests in this region during a period in which it was essentially a Han Chinese colony in the heart of Central Asia The study is of relevance not only to the history of twentieth century China but also to the politics of Islamic reassertion in Central Asia to the development of the Soviet Union as an imperial power in the Tsarist Russian mould to an understanding of the cultural and political aspirations of China s national minorities and should serve in a world preoccupied with Western colonialism and imperialism as a reminder that colonial kin and imperialism was not and is not an exclusively European preserve **The Modernization of Inner Asia** Cyril E. Black,Louis Dupree,Elizabeth Endicott-West,Daniel C.

Matuszewski,Eden Naby,Arthur N. Waldron,2016-09-16 Inner Asia in premodern times the little known land of nomads and semi nomads has moved to the world s front page in the 20th century as the complex struggles for the future of Afghanistan Soviet Central Asia Tibet and other territories make clear But because Inner Asia as a whole is divided among several states politically and among area specialists academically broad perspectives on recent events are difficult to find This work treats the region as a single unit providing both an account of the region s past and an analysis of its present and its prospects in a thematic rather than a strictly country by country manner **Marco Polo** Laurence Bergreen,2008-10-21 As the first European to travel extensively throughout Asia Marco Polo was the earliest bridge between East and West His famous

journeys took him across the boundaries of the known world along the dangerous Silk Road and into the court of Kublai Kahn where he won the trust of the most feared and reviled leader of his day Polo introduced the cultural riches of China to Europe spawning centuries of Western fascination with Asia In this lively blend of history biography and travelogue acclaimed author Laurence Bergreen separates myth from history creating the most authoritative account yet of Polo s remarkable adventures Exceptionally narrated and written with a discerning eye for detail Marco Polo is as riveting as the life it describes

Bulletin of the New Hampshire Library Commission ,1927 **Touring China** Yajun Mo,2021-12-15 In *Touring China* Yajun Mo explores how early twentieth century Chinese sightseers described the destinations that they visited and how their travel accounts gave Chinese readers a means to imagine their vast country The roots of China s tourism market stretch back over a hundred years when railroad and steamship networks expanded into the coastal regions Tourism related businesses and publications flourished in urban centers while scientific exploration investigative journalism and wartime travel propelled many Chinese from the eastern seaboard to its peripheries Mo considers not only accounts of overseas travel and voyages across borderlands but also trips within China On the one hand via travel and travel writing the unity of China s coastal regions inland provinces and western frontiers was experienced and reinforced On the other travel literature revealed a persistent tension between the aspiration for national unity and the anxiety that China might fall apart *Touring China* tells a fascinating story about the physical and intellectual routes people took on various journeys against the backdrop of the transition from Chinese empire to nation state Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1962 Includes Part 1 Number 2 Books and Pamphlets Including Serials and Contributions to Periodicals July December **The Statesman's Year-Book** M. Epstein,2016-12-26 The classic reference work that provides annually updated information on the countries of the world *Reinterpreting Exploration* Dane Keith Kennedy,2014 Exploration was a central and perhaps defining aspect of the West s encounters with other peoples and lands Rather than reproduce celebratory narratives of individual heroism and national glory this volume focuses on exploration s instrumental role in shaping a European sense of exceptionalism and its iconic importance in defining the terms of cultural engagement with other peoples In chapters offering broad geographic range the contributors address many of the key themes of recent research on exploration including exploration s contribution to European imperial expansion Western scientific knowledge Enlightenment ideas and practices and metropolitan print culture They reassess indigenous peoples responses upon first contacts with European explorers their involvement as intermediaries in the operations of expeditions and the complications that their prior knowledge posed for European claims of discovery Underscoring that exploration must be seen as a process of mediation between representation and reality this book provides a fresh and accessible introduction to the ongoing reinterpretation of exploration s role in the making of the modern world **Bibliography of Fossil Vertebrates, 1928-1933** Charles Lewis Camp,Vertress Lawrence VanderHoof,1940 *Books for Young People* ,1929 *Orientalia* ,1926
