**Deadheads Remember Englishtown '77** Jim Daley,2019-12-19 Deadheads may disagree on which Grateful Dead concert was their best ever but no one would argue that their performance at Englishtown on Sept 3 1977 was something special For Jim Daley who saw the band for the first time on that date it was a life changing experience that he looks back on with fondness more than forty years later Like many others he does n t remember much about that day but he sure does remember the music In this tribute to the band he loves so much the author commemorates the landmark concert by sharing memories from those who were there Together the tapestry of recollections reveals a detailed picture of what that day was like and why it was a defining moment for the band Some people remember the day quite vividly while others are a little foggy on details For most people however the music is at the forefront of their recollections Discover what it was really like on that hot humid day at Raceway Park in Old Bridge New Jersey and how at least for the day the Grateful Dead got everything Just exactly perfect     Birds at Rest Roger Pasquier,2025-02-18 A wide ranging account of how birds spend the quiet half of their lives Birds at Rest is the first book to give a full picture of how birds rest roost and sleep a vital part of their lives It features new science that can measure what is happening in a bird s brain over the course of a night or when it has flown to another hemisphere as well as still valuable observations by legendary naturalists such as John James Audubon Alfred Russel Wallace and Theodore Roosevelt Much of what they saw and what ornithologists are studying today can be observed and enjoyed by any birder From the poles to the tropics how when and where birds sleep reflect the ecology and behavior of each species as well as their evolution from dinosaur ancestors Some sleep briefly their brain half awake others spend long cold nights in torpor and a few can sleep while flying Their roosting habits are also varied Most birds sleep alone some in pairs or families while others in flocks of millions Birds at Rest explains how each strategy works over the course of a season a year or a lifetime by providing protection mating opportunities information about food and other survival benefits With evocative drawings by artist and illustrator Margaret La Farge Birds at Rest discusses how environmental challenges such as artificial lights and noise invasive species and climate change are disrupting avian sleep and proposes solutions to
