Women and Contemporary World Literature Deborah Fillerup Weagel, 2009 Many women in cultures throughout the world exhibit resilience and power in the face of obstacles and vicissitudes. From colonial New Spain to postcolonial Africa and India, *Women and Contemporary World Literature* examines ways in which women in literature function within their specific culture and circumstances to confront the challenges they encounter. In spite of fragmentation in their lives, much like quiltmakers, they piece together the scraps of their existence to form an integrated and complete whole. With its focus on power, fragmentation, and metaphor, and a strong interdisciplinary approach, this book offers a unique perspective to scholars, teachers, and students of comparative literature, contemporary world literature, colonial and postcolonial literature, women's studies, interdisciplinary studies, and literature and cultural studies. **Gendering the Narrative** Nibedita

Raj Rao, from Jhabvala to Manju Kapur. The contributions investigate a range of features of gender discourse, including feminism, masculinity, and homosexuality. As such, the volume represents an indispensable companion to any scholar of gender studies interested in the perspectives provided by Indian English fiction. *World Writers in English* Jay Parini, 2004 Provides critical and biographical essays on English writers from parts of the former British Empire.

A Companion to Indian Fiction in English Pier Paolo Piciuccio, 2004 After the pioneer works by scholars such as Naik, Narasimhaiah, and Mukherjee, and the thirty years of silence which followed their ground-breaking achievements, the companion appears on the scene, striving to reinvigorate the tradition of panoramic studies of Indian literature in English. In the intervening period, Indian fiction in English has become of paramount importance in the wide context of postcolonial studies. An emergent crop of novelists belonging to the so-called new generation has colourfully paved the way towards new artistic horizons, reinterpreting Western-derived literary models with inventive approaches complementary to their role. There is the articulate presence of a host of Indian scholars who in recent years have significantly influenced the course of this
