the extent to which clinicians were involved in developing the systems the management of suppliers and patient confidentiality Four overall conclusions are drawn 1 the piloting and deployment of the shared electronic patient clinical record is already running two years behind schedule and no firm implementation date exists 2 the suppliers to the Programme are clearly struggling to deliver one of the largest Accenture has now withdrawn and the Department is unlikely to complete the Programme anywhere near its original schedule 3 the Department has much still to do to win hearts and minds in the NHS especially among clinicians and needs to show that it can deliver on its promises supply solutions that are fit for purpose learn from its mistakes and respond constructively to feedback from users in the NHS 4 there is still much uncertainty about the costs of the Programme for the local NHS and the value of the benefits it should achieve
