Biographical Dictionary of Literary Influences John Powell, 2000-10-30 Over the past two decades the process of cultural development and in particular the role of reading has been of growing interest but recent research has been episodic and idiosyncratic In this biographical dictionary research devoted specifically to the reading habits of 19th century individuals who shaped Western culture is brought together for the first time While giving prominent coverage to literary and political figures the volume s 270 entries also include musicians painters educators and explorers Each entry includes brief biographical information a concise summary of literary influences on the subject and clear direction for further research The book provides a practical tool for scholars wishing to trace the reading experience of important Western cultural figures Subjects were selected from the people most responsible for the cultural development of Europe Britain and the British Empire and the Americas between 1800 and 1914 Although selective the sample of 270 figures is substantial enough to suggest broad cross cultural habits and effects enabling scholars to better understand the relationship between reading and culture In an introductory essay Powell explores the patterns and relationships that can be discerned from the entries The first of three anticipated volumes the book is an important step forward in researching the role of reading in cultural development

Moderate and Radical Liberalism Nathaniel Wolloch, 2022-01-31 This book provides a new reading of one of the most significant chapters in the history of social and political thought the transition from the late Enlightenment to early liberalism In contrast with prevailing interpretations of the emergence of liberalism which emphasize the conservative liberal reaction of the nineteenth century it presents a more optimistic depiction of how formerly radical principles of the Enlightenment were eventually adopted by the mainstream of moderate early liberalism To substantiate this innovative interpretation the book provides a detailed history of late Enlightenment and early liberal social and political thought on both sides of the Atlantic See inside the book

Writing the Victorian Constitution Ian Ward, 2018-08-21 This book charts the writing of the English constitution through the work of four of the most influential jurists in the history of English constitutional thought Edmund Burke Thomas Babington Macaulay Walter Bagehot and Albert Venn Dicey Stretching from the French Revolution to the death of Queen Victoria their writing is both representative of and formative to the Victorian constitution Ian Ward traces how constitutional writing changed over the course of the long nineteenth century from the poetics of Burke and the romance of Macaulay to the pragmatism of Bagehot and the jurisprudence of Dicey A century on our perception of the English constitution is still shaped by this contested history

Liberal Epic Edward Adams, 2011-08-30 In *Liberal Epic* Edward Adams examines the liberal imagination's centuries long dependence on contradictory and mutually constitutive attitudes toward violent domination Adams centers his ambitious analysis on a series of major epic poems histories and historical novels including Dryden's *Aeneid* Pope's *Iliad* Gibbon's *Decline and Fall of the Roman Empire* Byron's *Don Juan* Scott's *Life of Napoleon* Napier's *History of the War in the Peninsula* Macaulay's *History of England* Hardy's *Dynasts* and Churchill's military histories works that rank among the most important publishing events of the past three centuries yet that have seldom received critical attention relative to their importance In recovering these neglected works and gathering them together as part of a self-conscious literary tradition here defined as liberal epic Adams provides an archaeology that sheds light on contemporary issues such as the relation of liberalism to war the tactics for sanitizing heroism and the appeal of violence to supposedly humane readers Victorian Literature and Culture Series

A Literary History of England: The nineteenth century and after, 1789-1939, by S. C. Chew Albert Croll Baugh, 1948

After the Victorians A. N. Wilson, 2015-05-05 The distinguished historian A N Wilson has charted in vivid detail Britain's rise to world dominance a tale of how one small island nation came to be the mightiest richest country on earth reigning over much of the globe Now in his much anticipated sequel to the classic *The Victorians* he describes how in little more than a

generation Britain's power and influence in the world would virtually dissolve. In *After the Victorians* Wilson presents a panoramic view of an era stretching from the death of Queen Victoria in 1901 to the dawn of the cold war in the early 1950s. He offers riveting accounts of the savagery of World War I and the world altering upheaval of the Communist Revolution. He explains Britain's role in shaping the destiny of the Middle East. And he casts a bright new light on the World War II years. Britain played a central role in defeating Germany but at a severe cost. The nation would emerge from the war bankrupt and fatally weakened, sidelined from world politics while America would assume the mantle of dominant world power, facing off against the Soviet Union in the cold war. Wilson's perspective is not confined to the trenches of the battlefield and the halls of parliament; he also examines the parallel story of the beginnings of Modernism; he visits the novelists, philosophers, poets and painters to see what they reveal about the activities of the politicians, scientists and generals. Blending military, political, social and cultural history of the most dramatic kind, A. N. Wilson offers an absorbing portrait of the decline of one of the world's great powers. The result is a fresh account of the birth pangs of the modern world as well as a timely analysis of imperialism and its discontents.

A Literary History of England Vol. 4 A. Baugh, 2004-06-02. First published in 1959. The scope of this four volume work makes it valuable as a work of reference, connecting one period with another and placing each author clearly in the setting of his time. This is the fourth volume and includes the Nineteenth Century and after 1789-1939. [Catalog of Copyright Entries. Third Series](#) Library of Congress. Copyright Office, 1969.
