Everything You Know about Indians is Wrong Paul Chaat Smith, 2009 In this sweeping work of memoir and commentary leading cultural critic Paul Chaat Smith illustrates with dry wit and brutal honesty the contradictions of life in the Indian business. Raised in suburban Maryland and Oklahoma Smith dove head first into the political radicalism of the 1970s working with the American Indian Movement until it dissolved into dysfunction and infighting. Afterward he lived in New York the city of choice for political exiles and eventually arrived in Washington D C at the newly minted National Museum of the American Indian a bad idea whose time has come as a curator. In his journey from fighting activist to federal employee Smith tells us he has discovered at least two things there is no one true representation of the American Indian experience and even the best of intentions sometimes ends in catastrophe. Everything You Know about Indians Is Wrong is a highly entertaining and at times searing critique of the deeply disputed role of American Indians in the United States. In A Place Called Irony Smith whizzes through his early life showing us the ironic pop culture signposts that marked this Native American's coming of age in suburbia. We would order Chinese food and slap a favorite video into the machine the Grammy Awards or a Reagan press conference and argue about Cyndi Lauper or who should coach the Knicks. In Lost in Translation Smith explores why American Indians are so often misunderstood and misrepresented in today's media. We're lousy television. In Every Picture Tells a Story Smith remembers his Comanche grandfather as he muses on the images of American Indians as a half remembered presence both comforting and dangerous lurking just below the surface. Smith walks this tightrope.

T. S. Eliot Between Two Worlds David Ward, 2015-12-22

The basis of this critical examination of Eliot's work first published in 1973 is the investigation of his transmutation of this and other philosophical, mythological, and religious motives into the textures of his verse. This book focuses on Eliot's peculiar eclectic approach to what he described as the Tradition. It also recognises the fact that Eliot, for all his attempts at universality, was a product of time and place and gives an account of the way in which his education and experience shaped his most important interests. This title will be of interest to students of literature.

Between Two Worlds László Török, 2009

The Egyptological literature usually belittles or ignores the political and intellectual initiative and success of the Nubian Twenty-Fifth Dynasty in the reunification of Egypt, while students of Nubian history frequently ignore or misunderstand the impact of Egyptian ideas on the cultural developments in pre and post Twenty-Fifth Dynasty Nubia. This book reassesses the textual and archaeological evidence concerning the interaction between Egypt and the polities emerging in Upper Nubia between the Late Neolithic period and 500 AD. The investigation is carried out, however, from the special viewpoint of the political, social, economic, religious, and cultural history of the frontier region between Egypt and Nubia and not from the traditional viewpoint of the direct interaction between Egypt and the successive Nubian kingdoms of Kerma, Napata, and Meroe. The result is a new picture of the bipolar acculturation processes occurring in the frontier region of Lower Nubia, in particular, and in the Upper Nubian centres in general. The much-debated issue of social and cultural Egyptianization is also reassessed.
