Imperial Educaci3n Thomas Genova, 2021-07-08 In the long nineteenth century Argentine and Cuban reformers invited white women from the United States to train teachers as replacements for their countries supposedly unfit mothers Imperial Educaci3n examines representations of mixed race Afro descended mothers in literary and educational texts from the Americas during an era in which governing elites were invested in reproducing European cultural values in their countries citizens Thomas Genova analyzes the racialized figure of the

republican mother in nineteenth century literary texts in North and South America and the Caribbean highlighting the ways in which these works question the capacity of Afro descended women to raise good republican citizens for the newly formed New World nation states Considering the work of canonical and noncanonical authors alike Genova asks how the allegory of the national family omnipresent in the nationalist discourses of the Americas reconciles itself to the race hierarchies upon which New World slave and postslavery societies are built This innovative study is the first book to consider the hemispheric relations between race republican motherhood and public education by triangulating the nation building processes of Cuba and Argentina through U S empire New World Studies **The African Heritage of Latinx and Caribbean Literature**

Sarah M. Quesada,2022-08-04 The African Heritage of Latinx and Caribbean Literature unearths a buried African archive within widely read Latinx writers of the last fifty years It challenges dominant narratives in World Literature and transatlantic studies that ignore Africa s impact in broader Latin American culture Sarah Quesada argues that these canonical works evoke textual memorials of African memory She shows how the African Atlantic haunts modern Latinx and Caribbean writing and examines the disavowal or distortion of the African subject in the constructions of national racial sexual and spiritual Latinx identity Quesada shows how themes such as the 19th century scramble for Africa the decolonizing wars Black internationalism and the neoliberal turn are embedded in key narratives Drawing from multilingual archives about West and Central Africa she examines how the legacies of colonial French Iberian British and U S Imperialisms have impacted on the relationships between African and Latinx identities This is the first book length project to address the African colonial and imperial inheritance of Latinx literature *Syncretism in Religion* Anita Maria Leopold,Jeppe Sinding

Jensen,2016-05-06 Long a fascinating but problematic category of religious studies syncretism is an elastic term that describes a wide range of practices characterized by the mixing or overlap of traditions Syncretism in Religion offers the student a broad selection of essays both classical contributions to the study of syncretism and new essays commissioned especially for this volume Some important selections appear here in English for the first time Also included is a list of references for further reading **Caribbean Creolization** Kathleen M. De Castro, Ignacio Lòpez-Calvo, 2023 The Latin American novel burst onto the international literary scene with the Boom era led by Julio Cort zar Gabriel Garc a M rquez Carlos Fuentes and Mario Vargas Llosa and has

influenced writers throughout the world ever since García Márquez and Vargas Llosa each received the Nobel Prize in literature and many of the best known contemporary novelists are inspired by the region's fiction. Indeed, magical realism, the style associated with García Márquez, has left a profound imprint on African American, African, Asian, Anglophone Caribbean, and Latinx writers. Furthermore, post-Boom literature continues to garner interest from the novels of Roberto Bolaño to the works of César Aira and Chico Buarque to those of younger novelists such as Juan Gabriel Vásquez, Alejandro Zambra, and Valeria Luiselli. Yet for many readers, the Latin American novel is often read in a piecemeal manner, delinked from the traditions, authors, and social contexts that help explain its evolution. The Oxford Handbook of the Latin American Novel draws literary, historical, and social connections so that readers will come away understanding this literature as a rich and compelling canon. In forty-five chapters by leading and innovative scholars, the Handbook provides a comprehensive introduction helping readers to see the region's intrinsic heterogeneity; for only with a broader view can one fully appreciate García Márquez or Bolaño. This volume charts the literary tradition of the Latin American novel from its beginnings during colonial times, its development during the nineteenth and the first half of the twentieth century, and its flourishing from the 1960s onward. Furthermore, the Handbook explores the region's representations of identity, narrative trends, and authors that make this literature so diverse and fascinating, reflecting on the Latin American novel's position in world literature.
