Translator Owen Jones PUBLISHER TEKTIME Home Again Louis Collins,2020-04-06 One of the toughest dichotomies we will ever face is the battle between who we are and who God has called us to be Many times we get in our own way which causes us to put on personas that God never intended us to wear Because we desire the success we see others have we feel we have to be like them The problem with that is we end up losing who we really are in the process Take this journey with me as I strategically help you get back onto your path to purpose As I help you find you way HOME Vision Impairment

Michael Crossland, 2024-02-01 What is it like to go blind 350 million people around the world live with severe vision impairment ranging from those who can see a couple of letters on a sight chart to those who perceive no light at all In this book we meet some of them including artists poets scientists architects politicians broadcasters and musicians Together we discuss every stage of life with vision impairment from childhood and education to dating employment and ageing as well as the portrayal of blind people in literature and film the use of technology by people with vision impairment and the psychological effects of losing vision Vision Impairment also reviews the major causes of sight loss today and shows the effect of these diseases on visual function It surveys new and emerging treatments for serious eye diseases and explores what it is like to have vision restored after decades of being blind Based on Michael Crossland s extensive work in children s and adults low vision clinics and his 20 years of research into vision impairment the book blends individual stories key research findings and the most recent scientific discoveries to present an informative yet optimistic overview of living with sight loss Praise for Vision Impairment The key strength of this book is how scientific concepts around ophthalmology vision science and sight loss are brought to life by letting patients explain what these concepts mean to them This is not a book that has been written about patients it has been written with them In this sense it is very much original and I enjoyed reading it tremendously
