Lost Peace International Relations In Europe 1918 1939:

The lost peace international relations in Europe, 1918-1939 Anthony Adamthwaite, 1980 **British Foreign Policy, 1919-1939** Paul W. Doerr, 1998-05-15 Provides students with a clear narrative overview of the period which will enable them to form critical opinions Introduces students to the historical controversies of the period and communicates the results of recent specialist studies to a student readership in an easily understood manner An accessible clearly written account accompanied by useful bibliography chronology tables and maps and written by an author teaching in the field *Christian Democracy in Europe Since 1945* Michael Gehler, Wolfram Kaiser, 2004-08-02 For the first time this book reveals the actual roles of the Christian Democratic CD parties in postwar Europe from a pan European perspective It shows how Christian Democratic parties became the dominant political force in postwar Western Europe and how the European People's Party is currently the largest group in the European Parliament CD parties and political leaders like Adenauer Schuman and De Gasperi played a particularly important role in the evolution of the core Europe of the EEC EC after 1945 Key chapters address the same questions about the parties membership and social organization their economic and social policies and their European and international policies during the Cold War The book also includes two survey chapters setting out the international political context for CD parties and comparing their postwar development and two chapters on their transnational party cooperation after 1945 This is the companion volume to *Political Catholicism in Europe 1918 1945*

Germany and Europe 1919-1939 John Hiden, 2014-09-25 This is the only short study in English to survey Germany's foreign policy from a German viewpoint across the entire inter war period The approach which sets Germany in her full European context is not narrowly diplomatic and it gives as much attention to the Weimar years of the 1920s as it gives to the more familiar story of Germany's international relations under the Third Reich John Hiden has now thoroughly revised his text to take account of new scholarship since the book first appeared in 1977 **A History of Eastern Europe 1918 to the Present** Ian D. Armour, 2021-04-08 Why is Eastern Europe still different from Western Europe more than a quarter century after the collapse of Communism A History of Eastern Europe 1918 to the Present shows how the roots of this difference are based in Eastern Europe's tortured 20th century Eastern Europe emerged in 1918 as the lands between new states whose weakness vis vis Germany and Soviet Russia soon became obvious The region was the main killing field of the Second World War which visited unimaginable horrors on its inhabitants before their liberation by the Soviets in 1945 The imposition of Communist dictatorships on the region ironically only deepened Eastern Europe's backwardness Even in the post Communist period its problems continue to make it a fertile breeding ground for nationalism and political extremism A History of Eastern Europe 1918 to the Present explores the comparative backwardness of Eastern Europe and how this has driven strategies of modernisation it looks at the ways in which the region has served as a giant test tube for political experimentation and in particular at the enduring strength of nationalism which since 1989 has re-emerged more virulent than ever This book in the

essential textbook for any student of 20th century Eastern Europe **The Flight of International Capital** Brendan Brown, 2017-11-30 Originally published in 1987 The Flight of International Capital provides a fascinating comprehensive analysis of the history of international money movements Taking 1931 as the turning point between old style and modern methods of conducting monetary affairs the book relates currency shifts and investment trends to political events He deals with five eras in the history of international capital the unsettled post crash period 1931 1936 the flight of capital to the US before World War II the dollar and Swiss Franc s time as the only hard monies till the late fifties the emergence of the mark dollar axis before 1971 and finally the behaviour of floating currencies Jeremiah Smith, jr. and Hungary, 1924-1926

Zoltán Peterecz, 2013-01-01 Zolt n Peterecz presents in this monograph the personality and work of Jeremiah Smith Jr 1870 1935 the League of Nations Commissioner General for the 1924 loan to Hungary He deals also in extenso with the economic and political problems associated with the financial reconstruction of Hungary both on the domestic and international scene Publisher s description Humanity's Soldier David Chuter, 1996 A study detailing the historical cultural and philosophical origins of French security policy since 1919 Chuter Ministry of Defence London explains how and why security policy has developed since that time arguing that the origins of current policy lie even further back in history and through a cultural network of myths and symbolisms continues to influence how the French perceive contemporary events often to the bewilderment of Anglo Saxon countries with a vastly different set of experiences Annotation copyrighted by Book News Inc Portland OR **The Bolsheviks and Britain during the Russian Revolution and Civil War, 1917-24** Evgeny

Sergeev, 2022-06-16 This book analyses the principal aspects of the relations between Soviet Russia USSR and Britain in the crucial phase of their formation namely the period from 1917 to 1924 Using previously unavailable and largely unknown archival records and memoirs published by statesmen diplomats and military commanders directly involved in the events Evgeny Sergeev not only reconstructs the dynamics of the interaction between Moscow and London but also strips its key episodes of common myths and stereotypes The most debatable issues to which this study draws its primary attention include Britain s role in the Entente armed intervention against the Bolshevik regime as well as a series of reciprocate attempts to avoid political controversies and London s contribution to humanitarian aid and the economic recovery of post revolutionary Russia Special consideration is also given to the impact of British diplomacy on the recognition of the USSR by other great powers like France Italy and Japan in the mid 1920s A Concise History of the Modern World William

Woodruff, 1998-06-30 By investigating the major changes in world history during the past five hundred years Woodruff explains to what extent world forces have been responsible for shaping both the past and the present This extraordinary book tells of the rise and fall of empires and civilizations it recounts the growing communality and interdependence of nations it shows how so many problems of the contemporary world are the legacy of an unprecedented era of western domination the end of which was hastened by the two world wars In explaining how the world has come to be what it is the author examines

the implications surrounding the end of the cold war the unravelling of communism in Eastern Europe and the growing challenge of the non western world to western superiority It is Woodruff s belief that we have reached a crucial transitional stage in world history in which the world will no longer be shaped by the single image of western modernism but increasingly by the image of all cultures and civilizations With the shift of geopolitical and geoeconomic power to Asia and with the growing world wide influence of religious fundamentalism and revolutionary nationalism the need for a global perspective has become acute A Concise History of the Modern World encompasses the learning and the insights gleaned by the author from a life time career as a world historian

Churchill and His Airmen Vincent Orange,2013-02-19 The author of Dowding of Fighter Command examines the relationships Churchill had with the airmen of the RAF Winston Churchill probably had more impact on 20th century British military history than any other person especially during World War II Yet of the many volumes since that war that deal with his relationships with generals and admirals most surprisingly there seems not to be a single book devoted to Churchill as a would be pilot and more importantly to the relationships he had with a host of airmen between 1914 and 1945 Exceptional air marshals of his time included Dowding Park Portal Freeman Tedder Coningham and Harris Such men had years of professional expertise behind them and those who had reached the top by 1943 were such strong characters that not even the prime minister could dominate them in policy making Crucially Churchill had supported the independence of the RAF from other services and while he did bully and cajole even abuse his airmen he also listened to them and their plans and inspired them With his expert eye respected historian and professor Vincent Orange has carefully studied and evaluated every detail of Churchill s relationships with his closest officers to produce a masterful analysis of a neglected subject

France and the Apres Guerre, 1918-1924: Illusions and Disillusionment , Twilight of the Titans Paul K. MacDonald, Joseph M. Parent, 2018-04-15 In *Twilight of the Titans* Paul K MacDonald and Joseph M Parent examine great power transitions since 1870 to determine how declining powers choose to behave identifying the strong incentives to moderate their behavior when the hierarchy of great powers is shifting Challenging the conventional wisdom that such transitions push declining great powers to extreme measures this book argues that intimidation provocation and preventive war are not the only alternatives to the loss of relative power and prestige Using numerous case studies MacDonald and Parent show how declining states tend to behave the policy options they have how rising states respond to those in decline and what conditions reward particular strategic choices Great Britain, France, Italy and Germany in a Postwar World, 1945-1950 Josef Becker, Franz Knipping, 2011-11-02 No detailed description available for Great Britain France Italy and Germany in a Postwar World 1945 1950 **Britain and Central Europe, 1918-1933** Gábor Bátonyi, 1999-04-01 This book emphasizes the key role played by Britain in restoring peace and stability in central Europe after the First World War It focuses on the endeavours of British diplomats in the 1920s to promote political integration and economic co operation in the Danubia region The work traces the gradual shift in British attitudes towards the small central European states from one of active engagement to disinterest and even hostility Three case studies of British foreign policy in Vienna Budapest and Prague support the novel thesis that British involvement in central European affairs was terminated as a result of Austrian Hungarian and Czechoslovakian unwillingness to co operate and not simply because of economic and political pressures from Germany **Hitler's Crusade** Lorna Waddington, 2007-10-24 In the early hours of 22 June 1941 units of the Wehrmacht began to pour into the Soviet Union They were embarking on an undertaking long planned by Adolf Hitler Since the 1920s National Socialist doctrine had largely been determined by an intense hatred and hostility towards not only the Jews but also towards Bolshevism This ideology Lorna Waddington argues had been identified by Hitler and his acolytes as the political poison concocted by the Jews in an attempt to impose as he saw it their own tyrannical domination across the globe This impressively researched book provides a sustained and detailed analysis of this crucial dimension to Hitler's Weltanschauung exploring several new avenues including the little known activities of the Antikominintern as well as offering fresh interpretations and new insights on well documented events Engaging a wide range of archival sources and supported by a voluminous secondary literature Waddington charts the origins and development of Hitler's crusade against international Bolshevism from his earliest political activities until deep into the Second World War Focussing on the function of anti

Bolshevism in Nazi ideology foreign policy and external propaganda Waddington traces the links inferred by Hitler between the purported forces of World Jewry and revolutionary socialism She explains why by the mid 1920s anti Bolshevism had become a central tenet of Nazi ideology and examines the nature and function of anti Bolshevism as manifested in German external propaganda We discover how despite the shifting sands of international diplomacy Hitler s foreign policy throughout the 1930s and early 1940s remained firmly fixed on the eventual destruction and spoliation of the USSR the avowed ideological enemy and the epicentre of supposed Jewish Bolshevism Hitler s Crusade provides the definitive analysis of Hitler s attitude towards Bolshevism the destruction of which he was still describing in early 1945 as the raison d tre of the Nazi movement

Choices Under Fire Michael Bess, 2009-03-12 World War II was the quintessential good war It was not however a conflict free of moral ambiguity painful dilemmas and unavoidable compromises Was the bombing of civilian populations in Germany and Japan justified Were the Nuremberg and Tokyo war crimes trials legally scrupulous What is the legacy bequeathed to the world by Hiroshima With wisdom and clarity Michael Bess brings a fresh eye to these difficult questions and others arguing eloquently against the binaries of honor and dishonor pride and shame and points instead toward a nuanced reckoning with one of the most pivotal conflicts in human history
