*The County Families of the United Kingdom Or, Royal Manual of the Titled and Untitled Aristocracy of Great Britain and Ireland ...* Edward Walford,1869      *Saturday Review of Politics, Literature, Science and Art* ,1865      Discovering the Mammoth John J McKay,2017-08-08 The fascinating saga of solving the mystery of this ancient animal who once roamed the north country and has captivated our collective imagination ever since Today we know that a mammoth is an extinct type of elephant that was covered with long fur and lived in the north country during the ice ages But how do you figure out what a mammoth is if you have no concept of extinction ice ages or fossils Long after the last mammoth died and was no longer part of the human diet it still played a role in human life Cultures around the world interpreted the remains of mammoths through the lens of their own worldview and mythology When the ancient Greeks saw deposits of giant fossils they knew they had discovered the battle fields where the gods had vanquished the Titans When the Chinese discovered buried ivory they knew they had found dragons teeth But as the Age of Reason dawned monsters and giants gave way to the scientific method Yet the mystery of these mighty bones remained How did Enlightenment thinkers overcome centuries of myth and misunderstanding to reconstruct an unknown animal The journey to unravel that puzzle begins in the 1690s with the arrival of new type of ivory on the European market bearing the exotic name mammoth It ends during the Napoleonic Wars with the first recovery of a frozen mammoth The path to figuring out the mammoth was traveled by merchants diplomats missionaries cranky doctors collectors of natural wonders Swedish POWs Peter the Great Ben Franklin the inventor of hot chocolate and even one pirate McKay brings together dozens of original documents and illustrations some ignored for centuries to show how this odd assortment of characters solved the mystery of the mammoth and in doing so created the science of paleontology      *The Spectator* ,1846      **The London Magazine, Or, Gentleman's Monthly Intelligencer** ,1749      *The Intellectual Life of the British Working Classes* Jonathan Rose,2001-01-01 This landmark book traces the rise and decline of the British autodidact from the pre industrial era to the twentieth century Using innovative research techniques and a vast range of unexpected sources such as workers memoris social surveys and library registers Rose shows which books people read how and why they educated themselves and what they knew In the process he shines a bold new light on working class politics ideology popular culture and the life of the mind This book has won the Longman History Today Book of the Year Award 2001 the SHARP History Book Prize the Jacques Barzun Prize in Cultural History 2001 and the New Jersey Council for the Humanities Book Award Book jacket      *City of beasts* Thomas Almeroth-Williams,2019-07-04 This book explores the role of animals horses cattle sheep pigs and dogs in shaping Georgian London Moving away from the philosophical fictional and humanitarian sources used by previous animal studies it focuses on evidence of tangible dung bespattered interactions

between real people and animals drawn from legal parish commercial newspaper and private records This approach opens up new perspectives on unfamiliar or misunderstood metropolitan spaces activities social types relationships and cultural developments Ultimately the book challenges traditional assumptions about the industrial agricultural and consumer revolutions as well as key aspects of the city s culture social relations and physical development It will be stimulating reading for students and professional scholars of urban social economic agricultural industrial architectural and environmental history Forthcoming Books Rose Arny,1996-06 *Boudica and Her Stories* Carolyn D.
