New Zealand and Japan 1945-1952 Ann Trotter, 2013-12-17 An account of New Zealand's relations with Japan during the years immediately following World War II Drawing upon primary sources the book examines New Zealand's part in the work of the Far Eastern crimes trials in the Commonwealth Occupation Force in the War Crimes trials and in the Peace Treaty debate A key account of New Zealand's post war foreign policy this study also contributes to the history of post war Japan and is intended for students of international history and Japanese studies First published in 1990 this title is part of the Bloomsbury Academic Collections series

The Crafting of the Postwar Peace Treaty with Japan, 1945-1951 Seung Mo Kang, 2024-11-20 This book examines how the Treaty of Peace with Japan a momentous agreement that delineated postwar order in the Pacific was negotiated between Japan and 48 other nations in 1951 Even though the treaty was created to legally end the state of war between Japan and its Pacific War enemies many other considerations some of which had hardly anything to do with the Pacific War were involved The US Soviet rivalry was the most representative but this was not the only factor For instance the decision to invite Cambodia Laos and Vietnam as signatories was determined based on French colonial interests Indochinese yearning for independence and the need for French contribution in the North Atlantic Treaty Organization Similarly German reparations settlements after the First and Second World Wars impacted Japanese reparations settlement Meanwhile the commercial terms of the treaty were informed by the Great Depression and its legacies This book addresses these aspects of the peace treaty that are hitherto not sufficiently elaborated upon in existing studies Highlighting the importance of the treaty for shaping postwar East Asia and international relations in the region to the present day this book will be a valuable resource for students and scholars of post war Japan International relations and the Cold War

New Zealand and the Vietnam War Roberto Rabel, 2013-11-01 Starting with the first Indochina War in the 1950s this historical analysis covers the story of New Zealand's relations with Vietnam up to the end of the Vietnam War in the 1970s Exploring the diplomatic history of the engagement which is not well known or understood and showing that New Zealand officials and politicians in fact entered the war with extreme reluctance this describes how the dispatch of troops to Vietnam divided the country enraged a generation and forced the government to publicly defend its policy Readers quickly discover that the fallout from the Vietnam conflict still affects New Zealand's position today from its well known antinuclear stance to its position over the recent Iraq conflict

The A to Z of World War II Anne Sharp Wells, 2009-09-28 World War II dominates world history today as it dominated world attention over 60 years ago In spite of the alliances that bound many of the same participants the war was essentially two separate but simultaneous

conflicts one involved Japan as the major antagonist and took place mostly in Asia and Pacific and the other initiated by Germany and Italy was contested mainly in Europe North Africa the Mediterranean and the Atlantic The A to Z of World War II The War Against Japan traces the brutal conflict from Japan's seizure of Chinese territory in 1931 through the onset of war with the Western Allies in 1941 to the use of atomic weapons by the United States in 1945 It also addresses the aftermath of the war including the formation of the United Nations and the American occupation of Japan As the first of two volumes covering World War II this volume concentrates on the war in Asia and the Pacific so the user benefits from the comprehensive explanations of the people places and events that shaped much of that region's 20th century history **The**

and the Korean War Robert Barnes, 2014-02-28 Military social and economic historians have long appreciated the significance of the conflict in Korea in shaping the post war world The policy of containment was formed China was established as an important military power and the US increased its military expenditure fourfold as a result of a conflict which killed over 33 000 Americans What has been less appreciated is the role played by the United Nations and the British Commonwealth in influencing US strategy at this time of crisis the Truman administration invested time and effort into gaining UN approval for the conflict in Korea and the course of the war was adapted to keep UN allies often holding crucial strategic positions in other Cold War theatres in tow Robert Barnes develops a fresh perspective on these fluctuating relationships the tensions between Washington and its British Commonwealth allies and their impact on the direction of the conflict in order to challenge the common view that the United States was able to use its dominant position within the UN to pursue its Cold War ambitions with impunity This important new interpretation is supported by evidence from a wealth of sources from official government records to private papers and memoirs written by the most important American and Commonwealth personalities directly involved in shaping the UN's response to the conflict This study presents a thorough deconstruction of the decision making process behind US handling of the Korean War from the outbreak of conflict in 1950 to the Geneva Conference of 1954 This will be essential reading for students of International Relations Cold War Studies and modern History **Overcoming Isolationism** Paul Midford, 2020-07-14 This book asks why in the wake of the Cold War

Japan suddenly reversed years of steadfast opposition to security cooperation with its neighbors Long isolated and opposed to multilateral agreements Japan proposed East Asia's first multilateral security forum in the early 1990s emerging as a regional leader Overcoming Isolationism explores what led to this surprising about face and offers a corrective to the

misperception that Japan's security strategy is reactive to US pressure and unresponsive to its neighbors Paul Midford draws on newly released official documents and extensive interviews to reveal a quarter century of Japanese leadership in promoting regional security cooperation He demonstrates that Japan has a much more nuanced relationship with its neighbors and has played a more significant leadership role in shaping East Asian security than has previously been recognized *A Companion to World War II* Thomas W.
