Eric B. Wechter

New Zealand The National Parks:

National Parks Beyond the Nation Adrian Howkins, Jared Orsi, Mark Fiege, 2016-03-31 The idea of a national park was an American invention of historic consequences marking the beginning of a worldwide movement the U S National Park Service asserts in its 2006 Management Policies *National Parks beyond the Nation* brings together the work of fifteen scholars and writers to reveal the tremendous diversity of the global national park experience an experience sometimes influencing sometimes influenced by and sometimes with no reference whatever to the United States Writer and historian Wallace Stegner once called national parks America's best idea The contributors to this volume use that exceptionalist claim as a starting point for thinking about an international history of national parks They explore the historical interactions and influences intellectual political and material within and between national park systems in Canada New Zealand South Africa Indonesia Antarctica Brazil and other countries What is the role of science in the history of these preserves Of politics What purposes do they serve Conservation Education Reverence toward nature Tourist pleasure People have thought differently about national parks at different times and in different places and neat physical boundaries have been disrupted by wandering animals human movements the spread of disease and climate change Viewing parks around the world at various scales and across national frontiers these essays offer a panoptic view of the common and contrasting cultural and environmental features of national parks worldwide If national parks are as Stegner said absolutely American they are no less part of the world at large *National Parks beyond the Nation* tells us as much about the multifarious and changing ideas of nature and culture as about the framing of those ideas in geographic temporal and national terms *The Tongariro National Park, New Zealand* James Cowan, 1927 [The nature park guide for Paparoa National Park \(New Zealand\)](#), 2025-09-26 *The nature park guide for Fiordland National Park (New Zealand)*, 2025-09-26 **Tourism and National Parks** Warwick Frost, C. Michael Hall, 2012-08-21 In 1872 Yellowstone was established as a National Park The name caught the public's imagination and by the close of the century other National Parks had been declared not only in the USA but also in Australia Canada and New Zealand Yet as it has spread the concept has evolved and diversified In the absence of any international controlling body individual countries have been free to adapt the concept for their own physical social and economic environments Some have established national parks to protect scenery others to protect ecosystems or wildlife Tourism has also been a fundamental component of the national parks concept from the beginning and predates ecological justifications for national park establishment though it has been closely related to landscape conservation rationales at the outset Approaches to tourism and visitor management have varied Some have stripped their parks of signs of human settlement while increasingly others are blending natural and cultural heritage and reflecting national identities This edited volume explores in detail the origins and multiple meanings of National Parks and their relationship to tourism in a variety of national contexts It consists of a series of introductory overview chapters followed by case study chapters from around the

world including insights from the US Canada Australia UK Spain France Sweden Indonesia China and Southern Africa Taking a global comparative approach this book examines how and why national parks have spread and evolved how they have been fashioned and used and the integral role of tourism within national parks The volume s focus on the long standing connection between tourism and national parks and the changing concept of national parks over time and space give the book a distinct niche in the national parks and tourism literature The volume is expected to contribute not only to tourism and national park studies at the upper level undergraduate and graduate levels but also to courses in international and comparative environmental history conservation studies and outdoor recreation management *National Parks* ,1998-11 The flagship publication of the National Parks Conservation Association National Parks Magazine circ 340 000 fosters an appreciation of the natural and historic treasures found in the national parks educates readers about the need to preserve those resources and illustrates how member contributions drive our organization s park protection efforts National Parks Magazine uses images and language to convey our country s history and natural landscapes from Acadia to Zion from Denali to the Everglades and the 387 other park units in between **The World's Best National Parks in 500 Walks** Mary Caperton Morton,2022-02-22 An inspiring and practical reference guide for hikers of all abilities who want to explore the world s national parks Ever since Yellowstone National Park was established in 1872 as the world s first national park the movement to preserve natural landscapes and habitats has spread to every continent The World s Best National Parks in 500 Walks is the perfect inspiration for every explorer from the armchair traveler to the veteran hiker with full color photos and vivid descriptions of some of the world s most spectacular hiking trails Helpful tips on navigating the routes planning your trips and preparing for encounters with wildlife will have you lacing up your boots and strapping on your backpack whether it s for a short weekday stroll or a multiday expedition on the world s most breathtaking trails *Fodor's New Zealand* Eric B.
