James, 1994 **Encyclopedia of Social and Cultural Anthropology** Alan Barnard, Jonathan Spencer, 1996 Providing a guide to the ideas arguments and history of the discipline this volume discusses human social and cultural life in all its diversity and difference Theory ethnography and history are combined in over 230 entries on topics

The Intercourse of Knowledge Athalya Brenner, 2021-08-30 This groundbreaking book which builds on the author's earlier work in *On Gendering Texts* studies how by what means and to what extent human love desire and sex and possibly even sexuality are gendered in the Hebrew Bible Following a classification and gendering of the linguistic and semantic data the investigation looks into the construction of male and female bodies in language and ideologies the praxis and ideology of sex procreation and contraception deviation from socio sexual boundaries e.g. incest rape adultery homosexuality prostitution eroticism and pornoprophetics Finally the work discusses some of the wider sociological and theological implications of the findings

The Original Sin W. Arens, 1986 Arguing against the conventional view that the incest taboo developed in response to the act of incest *The Original Sin* presents biological and anthropological evidence to demonstrate the innate avoidance of incest as a feature of pre cultural organization Arens shows how the taboo evolved as a unique human social mechanism to control the practice among certain social classes thus drawing the conclusion that incest rather than its prohibition is the cultural invention Arens directly confronts the origin and definition of incest while seeking to uncover the particular and general meaning of this negative form of behavior

The Rural Primitive in American Popular Culture Karen E. Hayden, 2020-11-24 *The Rural Primitive in American Popular Culture All Too Familiar* studies how the mythology of the primitive rural other became linked to evolutionary theories both biological and social that emerged in the mid nineteenth century This mythology fit well on the imaginary continuums of primitive to civilized rural to urban normative backward to forward thinking and regress versus progress In each chapter of *The Rural Primitive* Karen E. Hayden uses popular cultural depictions of the rural primitive to illustrate the ways in which this trope was used to set poor rural whites apart from others Not only were they set apart however they were also set further down on the imaginary continuum of progress and regress of evolution and devolution Hayden argues that small rural tight knit communities where everyone knows everyone and everyone is related came to be an allegory for what will happen if society resists modernization and urbanization The message of the rural close knit community is clear degeneracy primitivism savagery and an overall devolution will result if groups are allowed to become too insular too close too familiar

Violence in America Ted Robert Gurr,1989-06 Violence in America The History of Crime presents a wealth of new research on the long term dynamics of murder and other crimes of violence The contributors clearly identify and diagnose the painful circumstances of recurring epidemics of violent crime that have swept the American society over the past 150 years Among the possible causes discussed are waves of immigration the social dislocations of war and growing concentrations of urban poverty In addition this engaging volume offers an evaluation of the traits of political assassins and an assessment of the pros and cons of gun control and whether or not it will help to reduce crimes of violence Surprisingly the contributors to this compelling volume present the idea that the past and present dynamics of violent crime projected into the future suggest grounds for cautious optimism This outlook is based on recent increases in effective criminal justice policies and the widespread efforts to remedy the social disintegration that breeds violent crime Students and professionals in history criminology victimology political science and other related fields will find this volume to be essential reading For both volumes This is a major timely and immensely welcome addition to the literature on violence in American society With fresh scholarship and new insights it updates a classic study of violence first published in 1969 It would make a valuable addition to courses on American social history as well as classes specifically addressing violence and crime in this society John J Broesamle California State University Northridge [Encyclopedia of Anthropology](#) H. James Birx,2006 Focuses on physical social and applied athropology archaeology linguistics and symbolic communication Topics include hominid evolution primate behaviour genetics ancient civilizations cross cultural studies and social theories *Neither Black Nor White Yet Both* Werner Sollors,1999 Why can a white woman give birth to a black baby while a black woman can never give birth to a white baby in the United States What makes racial passing so different from social mobility Why are interracial and incestuous relations often confused or conflated in literature making miscegenation appear as if it were incest Werner Sollors examines these questions and others in *Neither Black nor White yet Both* a fully researched investigation of literary works that in the past have been read more for a black white contrast of either or than for an interracial realm of neither nor both and in between From the origins of the term race to the cultural sources of the Tragic Mulatto and from the calculus of color

Maxine Hong Kingston's Broken Book of Life Maureen Sabine, 2004-02-29 The numerous studies of Maxine Hong Kingston's touchstone work The Woman Warrior fail to take into account the stories in China Men which were largely written together with those in The Woman Warrior but later published separately Although Hong Kingston's decision to separate the male and female narratives enabled readers to see the strength of the resulting feminist point of view in The Woman Warrior the author has steadily maintained that to understand the book fully it was necessary to read its male companion text Maureen Sabine's ambitious study of The Woman Warrior and China Men aims to bring these divided texts back together with a close reading that looks for the textual traces of the father in The Woman Warrior and shows how the daughter narrator tracks down his history in China Men She considers theories of intertextuality that open up the possibility of a dynamic interplay between the two books and suggests that the Hong family women and men may be struggling for dialogue with each other even when they appear textually silent or apart
