Poor Relief In Elizabethan Ipswich:

Poor Relief in Elizabethan Ipswich John Webb (M.A.),1966 *Poor Relief in England, 1350-1600* Marjorie Keniston McIntosh,2011-12-15 Between the mid fourteenth century and the Poor Laws of 1598 and 1601 English poor relief moved toward a more coherent and comprehensive network of support Marjorie McIntosh s study the first to trace developments across that time span focuses on three types of assistance licensed begging and the solicitation of charitable alms hospitals and almshouses for the bedridden and elderly and the aid given by parishes It explores changing conceptions of poverty and charity and altered roles for the church state and private organizations in the provision of relief The study highlights the creativity of local people in responding to poverty cooperation between national levels of government the problems of fraud and negligence and mounting concern with proper supervision and accounting This ground breaking work challenges existing accounts of the Poor Laws showing that they addressed problems with forms of aid already in use rather than creating a new system of relief

Poor Relief in Elizabethan Ipswich John Webb (M.A.),1966 Records of Tooley benefaction and municipal poorhouse together with assessments and payment of relief c 1550 1600 The records in this book provide one of the most illuminating social studies of an Elizabethan town ever undertaken Ipswich suffered severely from the economic dislocations of the mid sixteenth century and here we see the townsmen s response One of the principal benefactors of the town was the merchant Henry Tooley who when he died in 1551 left most of his fortune to the poor of the borough The first part of this volume records the work of the Tooley Foundation the experience gained in establishing the Foundation led on to a complementary system of public charity with a municipal poorhouse and Christ s Hospital records of which provide the second part of the book The third part is a register of the Ipswich poor over the years 1569 83 The fourth part lists the poor rate assessments of 1574 provides a directory of all the well to do inhabitants catalogues relief in time of plague and ends with an elaborate census of the poor in 1597 The whole work is a vivid picture of a period and problem often discussed but rarely illustrated in so striking a way

Poor Relief and Community in Hadleigh, Suffolk 1547-1600 Marjorie Keniston McIntosh,2013-04-01 At the cutting edge of new social and demographic history this book provides a detailed picture of the most comprehensive system of poor relief operated by any Elizabethan town Well before the Poor Laws of 1598 and 1601 Hadleigh Suffolk a thriving woolen cloth center with a population of roughly 3 000 offered a complex array of assistance to many of its residents who could not provide for themselves orphaned children married couples with more offspring than they could support or supervise widows people with physical or mental disabilities some of the unemployed and the elderly Hadleigh s leaders also attempted to curb idleness and vagrancy and to prevent poor people who might later need relief from settling in the town Based upon uniquely full records this study traces 600 people who received help and explores the social religious and economic considerations that made more prosperous people willing to run and pay for this system Relevant to contemporary debates over assistance to the poor the book provides a compelling picture of a network of

care and control that resulted in the integration of public and private forms of aid Health, Medicine and Mortality in the Sixteenth Century Charles Webster,1979-11-30 **Old Age and the English Poor Law, 1500-1700** Lynn A. Botelho,2004 Based on documents from two Suffolk villages this study examines the operation of the poor law and the individual effort the elderly poor needed to make to survive This study is a test case of the old poor law In its exploration of the virtually unknown world of the aged poor in sixteenth and seventeenth century England it asks how the elderly poor managed to survive in a pre industrial economy and answers through focusing on the many factors that make up the experience of old age status health wealth and local culture in two Suffolk villages Botelho demonstrates that the poor law did not nor did it intend to provide complete support and she documents the individual efforts of the poor as they made their own old age arrangements drawing as heavily upon their own initiatives as upon charity and legislated relief LYNN BOTELHO is Associate Professor of History Indiana University of Pennsylvania Poor Relief in Elizabethan Ipswich. ([A] Collection of Documents) John Webb (Historian.),1966 **Urban Government and the Early Stuart State** Catherine F. Patterson,2022 Examines relations between centre and localities in seventeenth century England by looking at early Stuart government through the lens of provincial towns This book investigates relations between centre and localities in seventeenth century England by looking at early Stuart government through the lens of provincial towns Focusing particularly on incorporated boroughs it emphasises the distinctive circumstances that shaped governance in provincial towns and the ways towns contributed to the state Royal charters of incorporation legally defined patterns of self government and local liberties in corporate boroughs but they also created a powerful bond to the crown The book argues that a dynamic tension between local autonomy and connection to the centre drove relations between towns and the crown in this period as borough governments actively sought strong ties with central authority while also attempting to preserve their chartered liberties It also argues that the 1620s and 1630s ushered in new patterns in the crown s relations with incorporated boroughs as Charles I s regime hardened policies towards urban localities Based on extensive original research in both central government records and the archives of a wide range of provincial towns the book covers critical aspects of interaction between towns and the crown including incorporation and charters governance and political order social regulation trade financial and military exactions and religion *Almshouses in Early Modern England* Angela Nicholls,2017 This book is an examination of early modern English almshouses in the mixed economy of welfare Drawing on archival evidence from three contrasting counties Durham Warwickshire and Kent between 1550 and 1725 the book assesses the contribution almshouses made within the developing welfare systems of the time and the reasons for the enduring popularity of this particular form of charity Post Reformation almshouses are usually considered to have been places of privilege for the respectable deserving poor operating outside the structure of parish poor relief to which ordinary poor people were subjected and making little contribution to the genuinely poor and needy This book challenges these assumptions through an exploration of the nature and extent of almshouse provision it examines why

almshouses were founded in the late sixteenth and seventeenth centuries who the occupants were what benefits they received and how residents were expected to live their lives The book reveals a surprising variation in the socio economic status of almspeople and their experience of almshouse life *The English Poor Law, 1531-1782* Paul Slack,1995-09-28 A concise synthesis of past work on a unique and important system of social welfare *Poverty and Vagrancy in Tudor England* John F. Pound,2014-07-15 First published in 1986 The first edition of this work was in 1971 In the intervening years a number of books and articles have appeared which deal directly or indirectly with the subject of poverty in the early modern period and the bibliography in consequence has been almost doubled Some additional material numbered from 78 onwards and changes in emphasis have been incorporated into the text and the Norwich material in particular has been revised and extended in the light of the author s own more recent research *Bibliography of the History of Medicine* ,

Vagrancy, Homelessness, and English Renaissance Literature Linda Woodbridge,2001 Woodbridge shows that the prevailing image of the vagrant poor in Renaissance England sturdy comical resourceful rogues who were adept at living on the fringes of society was essentially a literary fabrication pressed into the service of specific social and political agendas

Food, Energy and the Creation of Industriousness Craig Muldrew,2011-02-03 Until the widespread harnessing of machine energy food was the energy which fuelled the economy In this groundbreaking 2011 study of agricultural labourers diet and material standard of living Craig Muldrew uses empirical research to present a much fuller account of the interrelationship between consumption living standards and work in the early modern English economy than has previously existed The book integrates labourers into a study of the wider economy and engages with the history of food as an energy source and its importance to working life the social complexity of family earnings and the concept of the industrious revolution It argues that industriousness was as much the result of ideology and labour markets as labourers household consumption Linking this with ideas about the social order of early modern England the author demonstrates that bread beer and meat were the petrol of this world and a springboard for economic change *John Constable's correspondence* John

Constable,1964 **Social Thought in England, 1480-1730** A.L. Beier,2016-02-05 Authorities ranging from philosophers to politicians nowadays question the existence of concepts of society whether in the present or the past This book argues that social concepts most definitely existed in late medieval and early modern England laying the foundations for modern models of society The book analyzes social paradigms and how they changed in the period A pervasive medieval model was the body social which imagined a society of three estates the clergy the nobility and the commonalty conjoined by interdependent functions arranged in static hierarchies based upon birth and rejecting wealth and championing poverty Another model the book describes as social humanist that fundamentally questioned the body social advancing merit over birth mobility over stasis and wealth over poverty The theory of the body social was vigorously articulated between the 1480s and the 1550s Parts of the old metaphor actually survived beyond 1550 but alternative models of social humanist thought challenged the

body concept in the period advancing a novel paradigm of merit mobility and wealth The book s methodology focuses on the intellectual context of a variety of contemporary texts Medieval Clothing and Textiles 19 Melanie Schuessler

Bond,Cordelia Warr,2025-06-03 The best new research on medieval clothing and textiles drawing from a range of disciplines The essays collected here continue to showcase the Journal s wide ranging and eclectic tradition The topics addressed are the sensory perceptions of textiles in Early Medieval Britain evidence of the global textile trade as reflected in church facades in Lucca Italy the ways in which spinning and weaving in late medieval Cologne influenced the presentation of the cult of the Eleven Thousand Virgins within the city sumptuary legislation in thirteenth century Montauban in the Occitan region of Southern France visual representations of male underwear in northern European art and the late sixteenth and early seventeenth century trade in knitted jersey stockings in Norwich and Yarmouth The Domestic Revolution Ruth

Goodman,2020-04-16 Social historian and TV presenter Ruth Goodman tells the story of how the development of the coal fired domestic range fundamentally changed not just our domestic comforts but our world Reformation, Politics and Polemics John Craig,2017-09-19 Drawing primarily from Suffolk sources this book explores the development and place of

Protestantism in early modern society defined as much in terms of its practice in local communities as in its more public pronouncements from those in authority Using detailed analysis of four communities Mildenhall Bury St Edmunds Thetford and Hadleigh John Craig explores the responses and initiatives of these towns to the question of the Reformation in the 16th century A fascinating picture emerges of the preoccupations and priorities of particular groups The political goals and consciousness of townsmen and tradesmen are examined and the problems of analyzing the evidence for ascribing religious motivations to urban factions are highlighted The case of Hadleigh addresses some aspects of the connection often made between the growth of Protestantism and the incidence of social division and conflict These local studies provide the basis for a broader perspective on urban reformation in East Anglia The Age of Elizabeth D.M. Palliser,2014-02-04 This famous

book was the first up to date survey of its field for a generation even today when work on early modern social history proliferates it remains the only general economic history of the age This second edition substantially revised and expanded is clear in outline rich in detail stressing continuity as well as change balancing the glamour of privilege with the misery and privation of the poor and dealing with the dark side of Tudor life vagabondage starvation superstition and cruelty as well as its heroic achievements
