Friends Love Will Keep Us Alive You Are Not Alone **Song Interpretation in 21st-Century Pop Music** Ralf von
Appen,André Doehring,Allan F. Moore,2016-03-03 Existing books on the analysis of popular music focus on theory and
methodology and normally discuss parts of songs briefly as examples The impression often given is that songs are being
chosen simply to illuminate and exemplify a theoretical position In this book the obverse is true songs take centre stage and
are given priority The authors analyse and interpret them intensively from a variety of theoretical positions that illuminate
the song Thus methods and theories have to prove their use value in the face of a heterogeneous contemporary repertoire
The book brings together researchers from very different cultural backgrounds and encourages them to compare their
different hearings and to discuss the ways in which they make sense of specific songs All songs analysed are from the new
millennium most of them not older than three years Because the most widely popular styles are too often ignored by
academics this book aims to shed light on how million sellers work musically Therefore it encompasses a broad palette
highlighting mainstream pop Lady Gaga Ke ha Lucenzo Amy McDonald but also accounting for critically acclaimed indie
styles Fleet Foxes Death Cab for Cutie PJ Harvey R B Destiny s Child Janelle Monae popular hard rock Kings of Leon
Rammstein and current electronic music Andr s Bj rk By concentrating on 13 well known songs this book offers some model
analyses that can very easily be studied at home or used in seminars and classrooms for students of popular music at all
