Pope Gregory VII:

Pope Gregory VII, 1073-1085 H. E. J. Cowdrey, 1998-08-20 The reign of Pope Gregory VII 1073-85 who gave his name to an era of Church reform is critically important in the history of the medieval church and papacy Thus it is surprising that this is the first comprehensive biography to appear in any language for over fifty years H E J Cowdrey presents Gregory's life and work in their entirety tracing his career from early days as a clerk of the Roman Church through his political negotiations ecclesiastical governance and final exile at Salerno Full account is taken of his turbulent relations with King Henry IV of Germany from his first deposition and excommunication in 1076 to the absolution at Canossa and the imposition of a second sentence in 1080 Pope Gregory was also a contemporary of William the Conqueror and as the author shows fully supported his conquest of England Gregory VII is presented as an individual whose deep inner belief in iustitia righteousness did not waver in the face of new circumstances although his broad outlook underwent changes Deeply committed to the traditions of the past and especially to those of Pope Gregory the Great his reign prepared the way for an age of strong papal monarchy in the western Church *The Life and Times of Hildebrand* Arnold Harris Mathew, 1910 **Registrum** Catholic Church. Pope (1073-1085 : Gregory VII), 1990 Robert Somerville Columbia University **The Life and Times of Hildebrand** Arnold Harris Mathew, 2015-07-18 Excerpt from *The Life and Times of Hildebrand* Pope Gregory VII With Henry III the Empire attained its maximum of power its maximum of influence upon the Roman See In Rome no German sovereign had ever been so absolute He became hereditary Patrician and wore constantly the circlet of gold and the green mantle which were the badges of that office seeming as one might think to find in it some further authority than that which the Imperial name conferred To Henry was granted the nomination of the Pope and by his instrumentality German after German succeeded to the Papacy at the bidding of a ruler so powerful so severe and so pious A mere chance checked the course of Imperial patronage The great Emperor died suddenly in 1056 leaving as his successor his son a mere child the unfortunate Henry IV Under the line of German popes the Papacy learned to borrow the strength of the Imperial system under which it had grown to power So strengthened the Papacy aimed at independence A critical step was taken by entrusting the Papal election to the cardinal bishops priests and deacons which aimed a blow at Imperial interference Politically an alliance with the Norman settlers in Southern Italy enabled the popes to count upon a counter balance to the Imperial power The Papacy slowly prepared to assert its independence About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **The Papal Reform of the Eleventh Century** , 2013-01-01 The eleventh

century papal reform transformed western European Church and society and permanently altered the relations of Church and State in the west The reform was inaugurated by Pope Leo IX 1048 54 and given a controversial change of direction by Pope Gregory VII 1073 85 This book contains the earliest biographies of both popes presented here for the first time in English translation with detailed commentaries The biographers of Leo IX were inspired by his universally acknowledged sanctity whereas the biographers of Gregory VII wrote to defend his reputation against the hostility generated by his reforming methods and his conflict with King Henry IV Also included is a translation of Book to a Friend written by Bishop Bonizo of Sutri soon after the death of Gregory VII as well as an extract from the violently anti Gregorian polemic of Bishop Benzo of Alba 1085 and the short biography of Leo IX composed in the papal curia in the 1090s by Bishop Bruno of Segni These fascinating narrative sources bear witness to the startling impact of the papal reform and of the Investiture Contest the conflict of empire and papacy that was one of its consequences An essential collection of translated texts for students of medieval history
