The New Cambridge Bibliography of English Literature: Volume 2, 1660-1800 George Watson, Ian R. Willison, 1971-07-02
More than fifty specialists have contributed to this new edition of volume 2 of The Cambridge Bibliography of English Literature. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.

Miscellanies in Prose and Verse by Pope, Swift and Gay Vol 1
Alexander Pettit, William Rees-Mogg, 2024-10-28

Integrated Evaluation for the Management of Contemporary Cities Giulio Mondini, Enrico Fattinnanzi, Alessandra Oppio, Marta Bottero, Stefano Stanghellini, 2018-06-06
This book highlights a selection of the best papers presented at the 2016 SIEV conference. The Laudato s Encyclical Letter and Valuation Cities between Conflict and Solidarity, Decay and Regeneration, Exclusion and Participation, which was held in Rome, Italy, in April 2016 and brought together experts from a diverse range of fields: economics, appraisal, architecture, energy, urban planning, sociology and the decision sciences and government representatives. The book is divided into four parts: Human Ecology, Values and Paradigms, Integral Ecology and Natural Resource Management, Intergenerational Equity and How to Enhance Dialogue and Transparency in Decision-making Processes. Cities are where 72% of all Europeans live and this percentage is expected to rise to 80% by 2050. Given this trend towards urbanization, cities are continuously growing, which also entails a growing risk of social segregation, lack of security and mounting environmental problems. All too often today's cities have to cope with social and environmental crises, shifting the European urban agenda towards regeneration processes. Urban regeneration is more complex than merely renovating existing buildings as it also involves social and environmental problems, inhabitants' quality of life, protecting tangible and intangible cultural resources, innovation and business.

The Witty and Humorous of the English Poets William Davenport Adams, 1880
Critical Essays on Alexander Pope Wallace Jackson, R. Paul Yoder, 1993
Editors Jackson and Yoder have confined their selection of essays to those from the last 20 years and particularly those since 1980. The essays are general in nature rather than confining themselves to a specific work in an attempt to place Pope in the broader perspective of representing the whole person as opposed to earlier criticism that depicted him as a skilled craftsman and a poet of eminent good sense.

The Battle of the Books Joseph M. Levine,2018-07-05 Joseph M Levine provides a witty and erudite account of one of the most celebrated chapters in English cultural history the acrimonious quarrel between the ancients and the moderns which Jonathan Swift dubbed the Battle of the Books The dispute that amused and excited the English world of letters from 1690 until the 1730s was Levine shows an installment in the long standing debate about the relationship of classical learning to modern life Levine argues that the debate was fundamentally a quarrel about the rival claims of history and literature concerning the proper way to understand the authors of the past He skillfully examines how both sides wrote their own brands of history The moderns led by Richard Bentley proposed that the modern inventions of classical scholarship and archaeology gave them a superior insight into the past the ancients marshaled by Jonathan Swift and Alexander Pope held out for a more direct imitation of antiquity and opposed the new scholarship with all the force of their satire and invective Levine demonstrates that the ancients and the moderns influenced each other in powerful ways and had much more in common than they knew Chronicling a critical episode in the development of modern scholarship The Battle of the Books illuminates the roots of present day controversies about the role of the classics in the curriculum and the place of the humanities in education America ,1923 The Jesuit review of faith and culture Nov 13 2017
