## **Popular Culture Schooling And Everyday Life:**

Popular Culture Henry A. Giroux, Roger Simon, 1989-07-28 Illuminating one of the most pervasive issues of our time Popular Culture is the first book to link the importance and implications of popular culture with pedagogical practice It shows how cultural forms such as Hollywood films pop music soap operas and televangelism are organized by gender age class race and ethnicity thus providing the contradictory text that both enables and disables emancipatory interest so fundamental to the formation of self and society What emerges is a redefinition of the very notion of popular culture

**Tooning In** Cameron White, Trenia Walker, 2008 The scope and theme of *Tooning In* aim to insert into the debate surrounding so called popular culture and its role in shaping society specific perspectives regarding popular culture and adolescents lives The authors suggest that popular culture is vital to how adolescents make sense of the world and educators should tap into it as a tool for imparting critical thinking skills and generally empowering students *Tooning In* critically examines and interprets concepts of popular culture with the ultimate aim of inviting readers to re examine the fundamental aspects of popular culture as a societal force *Handbook of Research in the Social Foundations of Education* Steven

American Educational History Journal J. Wesley Null, 2009-11-01 The American Educational History Journal is a peer reviewed national research journal devoted to the examination of educational topics using perspectives from a variety of disciplines The editors of AEHJ encourage communication between scholars from numerous disciplines nationalities institutions and backgrounds Authors come from a variety of disciplines including political science curriculum history philosophy teacher education and educational leadership Acceptance for publication in AEHJ requires that each author present a well articulated argument that deals substantively with questions of educational history Take Back Higher Education H. Giroux, 2004-06-24 At the beginning for the new millennium higher education is under siege No longer viewed as a public good higher education increasingly is besieged by corporate right wing and conservative ideologies that want to decouple higher education from its legacy of educating students to be critical and autonomous citizens imbued with democratic and public values The greatest danger faced by higher education comes from the focus of global neo liberalism and the return of educational apartheid Through the power of racial backlash the war on youth deregulation commercialism and privatization neo liberalism wages a vicious assault on all of those public spheres and goods not controlled by the logic of market relations and profit margins Take Back Higher Education argues that if higher education is going to meet the challenges of a democratic future it will have to confront neo liberalism racism and the shredding of the social contract

**Inquiry and Reflection** Diane DuBose Brunner, 1994-03-31 Inquiry and Reflection shows how stories of schooling can elucidate difficult and unexamined problems facing teachers While professional texts tend to raise issues of power and its distribution and questions of culture and ideology often the manner of presentation is abstract and pre service teachers have difficulty making connections Yet literary film and video materials illuminate problems and suggest ideas to which teachers can actively respond This book offers teacher educators a variety of resources for articulating a critical pedagogy and suggests an alternative to the technical job training approach to teacher education by providing a unique educational curricula that illuminates issues of power ideology and culture Journeys in Social Education: A Primer C. White, 2011-07-23 Social education is quite a journey Given the ongoing debate and struggle with defining social education the following is at present a working definition While we resist defining social education we believe that social education emphasizes three areas of study critical pedagogy cultural media studies and social studies education We also stress that education interpreted broadly has the potential to advance social justice Thus emerged social education a lifelong journey for all of us to question to challenge to do and to create Connecting present and past merging current issues with traditional curriculum integrating alternative texts and perspectives empowering and emancipating kids and educators and transforming schools and society the transgressions of social education scream out Dewey Freire Kincheloe Zinn Greene Giroux Apple hooks McLaren Kozol Loewen Said Chomsky even Bob Dylan and many others have provided the impetus May we make them proud The essays within this text demonstrate various journeys in social education They are meant as stories

not maps or scripts They are intended to serve as a primer of sorts for those interested in a similar journey Hopefully this can be a meaningful experience for many students educators parents and society as a whole of course Well the journey and struggle continues      Education and Cultural Studies Henry A. Giroux, Patrick Shannon, 2013-12-02 Although the disciplines

of critical education and cultural studies have traditionally occupied separate spaces as they have addressed different audiences their concerns as well as the political and pedagogical nature of their work overlap Education and Cultural Studies brings members of these two groups together to demonstrate how a critical understanding of culture and education can transgressively implement broad political change All written from within this framework of cultural studies and critical pedagogy the contributors illuminate the possibilities and opportunities open to practicing educators In eschewing a romantic utopianism and in assessing the current climate of what is attainable and practical this book teaches us how we can begin to translate and perhaps even transform the vexing social problems that confront us daily Contributors include Carol Becker Harvey J Kaye David Theo Goldberg Jeffrey Williams Sharon Todd Douglas Kellner Deborah Britzman Jacqueline Reid Walsh Claudia Mitchell Cameron McCarthy Mike Hill Susan Searls Stanley Aronowitz Douglas Noble Kakie Urch Henry Giroux David Trend and Robert Mikilitsch      **Hollywood Films about Schools: Where Race, Politics, and Education**

**Intersect** R. Chennault, 2006-03-31 What do the Hollywood school films of the 1980 s and 1990 s communicate about education and race This book looks at The Graduate Blackboard Jungle The English Patient Dead Poets Society Pulp Fiction Ghost The Wizard of Oz Top Gun and Forrest Gump to answer the question      **Tangled Up in School** Jan

Nespor, 2013-11-26 Based on two years of ethnographic fieldwork in an urban elementary school this volume is an examination of how school division politics regional economic policies parental concerns urban development efforts popular cultures gender ideologies racial politics and university and corporate agendas come together to produce educational effects Unlike conventional school ethnographies the focus of this work is less on classrooms than on the webs of social relations that embed schools in neighborhoods cities states and regions Utilizing a variety of narratives and analytical styles this volume explores how curriculum innovations are simultaneously made possible by and undermined by school district politics neighborhood histories and the spatial and temporal organizations of teachers and parents lives situates the educational discourse of administrators and teachers in the changing economic and political climates of the city analyzes the motivations behind an effort by school and business proponents to refashion classrooms within the school into business enterprises and of children s efforts to make sense of the scheme examines the role of the school as a neighborhood institution situating it at the intersections of city planners efforts to regulate city space and children s efforts to carve out live spaces through out of school routines contemplates the meaning of school as a site for bodily experience and looks at how patterns of space and control in the school shaped children s bodies and at how they continued to use body based languages to construct maturity gender and race and investigates the school as a space for the deployment of symbolic resources where children learned and

constructed identities through their engagements with television comic books movies and sports Tangled Up In School raises questions about how we draw the boundaries of the school about how schools fit into the lives of children and cities and about what we mean when we talk about school

**Resonances of El Chavo del Ocho in Latin American Childhood, Schooling, and Societies** Daniel Friedrich, Erica Colmenares, 2017-07-13 El Chavo del Ocho is one of the most influential pieces of popular culture to have hit Latin America in the last 50 years having at the peak of its popularity in the mid 1970s reached an approximate audience of 350 million across the Americas It is also a rare example of a cultural product that has travelled through Latin America leaving a lasting impact for several decades Resonances of El Chavo del Ocho in Latin American Childhood Schooling and Societies analyses the phenomenon of El Chavo and its images of schooling and childhood Latin American ness class and experience With contributions from scholars emerging from or based in countries including Brazil Mexico Chile Puerto Rico Argentina Venezuela Colombia and the US the book combines reflections from a variety of international perspectives without attempting to compare or reach consensus on any ultimate meanings of the work The book explores themes such as images of schooling and childhood romantization of poverty the prevalence of non traditional families and the bordering cynicism towards the economic structures and inequalities which some argue make the show transgressive and quite uniquely Latin American Investigating the connection between visual culture studies and transcultural curriculum studies this innovative title provides scholars with original new insights into conceptualizing childhood schooling and society in Latin America

**The University of Google** Tara Brabazon, 2016-02-17 Looking at schools and universities it is difficult to pinpoint when education teaching and learning started to haemorrhage purpose aspiration and function Libraries and librarians have been starved of funding Teachers cram their curriculum with skill development and generic competencies because knowledge creativity and originality are too expensive to provide to unmotivated students and parents obsessed with league tables not learning Meanwhile the internet offers a glut of information on everything under the sun a mere mouse click away Bored surfers fill their cursors and minds with irrelevancies We lose the capacity to sift discard and judge Information is no longer for social good but for sale Tara Brabazon argues that this information fetish has been profoundly damaging to our learning institutions and to the ambitions of our students and educators In The University of Google she projects a defiant and passionate vision of education as a pathway to renewal where research is based on searching and students are on a journey through knowledge rather than consumers in the shopping centre of cheap ideas Angry humorous and practical in equal measure The University of Google is based on real teaching experience and on years of engaged and sometimes exasperated reflection on it It is far from a luddite critique of the information age Tara Brabazon celebrates the possibilities of digital platforms in education but deplores the consequences of placing funding on technology and not teachers In doing so she opens a new debate on how to make our educational system both productive and provocative in the post information age
