Popular Children's Literature in Britain

Julia Briggs,Dennis Butts,2016-12-05 The astonishing success of J K Rowling and other contemporary children s authors has demonstrated how passionately children can commit to the books they love But this kind of devotion is not new This timely volume takes up the challenge of assessing the complex interplay of forces that have created the popularity of children s books both today and in the past The essays collected here ask about the meanings and values that have been ascribed to the term popular They consider whether popularity can be imposed or if it must always emerge from children s preferences And they investigate how the Harry Potter phenomenon fits into a repeated cycle of success and decline within the publishing industry Whether examining eighteenth century chapbooks fairy tales science schoolbooks Victorian adventures waif novels or school stories these essays show how historical and publishing contexts are vital in determining which books will succeed and which will fail which bestsellers will endure and which will fade quickly into obscurity As they considering the fiction of Angela Brazil Enid Blyton Roald Dahl and J K Rowling the contributors carefully analyse how authorial talent and cultural contexts combine in often unpredictable ways to generate and sometimes even sustain literary success

The End of Dissatisfaction? Todd McGowan,2012-02-01 Winner of the 2004 Gary Olson Award for best book in cultural theory presented by JAC Exploring the emergence of a societal imperative to enjoy ourselves Todd McGowan builds on the work of such theorists as Jacques Lacan Slavoj Žižek Joan Copjec and Theresa Brennan to argue that we are in the midst of a large scale transformation a shift from a society oriented around prohibition i e the notion that one cannot just do as one pleases to one oriented around enjoyment McGowan identifies many of the social ills of American culture today as symptoms of this transformation the sense of disconnection the increase in aggression and violence widespread cynicism political apathy incivility and loss of meaning Discussing these various symptoms he examines various texts from film literature popular culture and everyday life including Toni Morrison s Paradise Tony Kushner s Angels in America and such films as Dead Poets Society and Trigger Effect Paradoxically The End of Dissatisfaction shows how the American cultural obsession with enjoying ourselves actually makes it more difficult to do so

Gold-foil, Hammered from Popular Proverbs

Timothy Titcomb,1860 *Popular Science Monthly and World's Advance* ,1920 The Quality of Literature Willie van Peer,2008

Evaluation is central to literary studies and has led to an impressive list of publications on the status and history of the canon. Yet it is remarkable how little attention has been given to the role of textual properties in evaluative processes. Most of the chapters in *The Quality of Literature* redress this issue by dealing with texts or genres ranging from classical antiquity via Renaissance to twentieth century. They provide a rich textual and historical panorama of how critical debate over literary quality has influenced our modes of thinking and feeling about literature and how they continue to shape the current literary landscape. Four theoretical chapters reflect on the general state of literary evaluation while the introduction weaves the different threads together aiming at further conceptual clarification. This book thus contributes to a deeper understanding of the problems that are at the heart of past and present debates over literary quality.

Modernism, Media, and Propaganda
Mark Wollaeger, 2008-09-15 Though often defined as having opposite aims, means and effects, modernism and modern propaganda developed at the same time and influenced each other in surprising ways. The professional propagandist emerged as one kind of information specialist, the modernist writer as another. Britain was particularly important to this double history. By secretly hiring well-known writers and intellectuals to write for the government and by exploiting their control of new global information systems, the British in World War I invented a new template for the manipulation of information that remains with us to this day. Making a persuasive case for the importance of understanding modernism in the context of the history of modern propaganda, *Modernism, Media, and Propaganda* also helps explain the origins of today's highly propagandized world. *Modernism, Media, and Propaganda* integrates new archival research with fresh interpretations of British fiction and film to provide a comprehensive cultural history of the relationship between modernism and propaganda in Britain during the first half of the twentieth century. From works by Joseph Conrad to propaganda films by Alfred Hitchcock and Orson Welles, Mark Wollaeger traces the transition from literary to cinematic propaganda while offering compelling close readings of major fiction by Virginia Woolf, Ford Madox Ford, and James Joyce.

Fiction, Crime, and Empire
Jon Thompson, 1993 Reading fiction from high and low culture together, *Fiction, Crime, and Empire* skillfully sheds light on how crime fiction responded to the British and American experiences of empire and how forms such as the detective novel, spy thrillers, and conspiracy fiction articulate powerful cultural responses to imperialism. Poe's Dupin stories, for example, are seen as embodying a highly critical vision of the social forces that were then transforming the United States into a modern, democratic, industrialized nation. A century later, Le Carré employs the conventions of espionage fiction to critique the exhausted and morally compromised values of British imperialism. By exploring these works through the organizing figure of crime during and after the age of high imperialism, Thompson challenges and modifies commonplace definitions of modernism, postmodernism, and popular or mass culture.
