Population Growth And Economic Development In Africa:

Population Growth and Economic Development in Africa S.H. Ominde, C.N. Ejiogu, 1974 **Population Growth and Economic Development in Africa** S. H. Ominde, 1974 *Population Growth and Economic Development* National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Committee on Population, Working Group on Population Growth and Economic Development, 1986-02-01 This book addresses nine relevant questions Will population growth reduce the growth rate of per capita income because it reduces the per capita availability of exhaustible resources How about for renewable resources Will population growth aggravate degradation of the natural environment Does more rapid growth reduce worker output and consumption Do rapid growth and greater density lead to productivity gains through scale economies and thereby raise per capita income Will rapid population growth reduce per capita levels of education and health Will it increase inequality of income distribution Is it an important source of labor problems and city population absorption And finally do the economic effects of population growth justify government programs to reduce fertility that go beyond the provision of family planning services *Population Growth & Economic Development in Africa* , *Population Growth and Economic Development in Sub-Saharan Africa* Fatou Ndiaye, 1995 *Population Growth and Social and Economic Development in Africa* United Nations. Economic Commission for Africa, 1971 *Economic Development for Africa South of the Sahara* E. Robinson, 1964-06-01 **African Economic Development** Steven Langdon, Archibald R.M. Ritter, Yiagadeesen Samy, 2018-03-05 Sub Saharan Africa is at a turning point The barriers to economic growth seen in the 1980 2000 era are disappearing and new optimism is spreading However difficult goals of eliminating poverty achieving equity and overcoming environmental threats continue This much needed and insightful textbook has been written to help us understand this combination of emerging improvements and significant challenges Opening with an analysis of the main theories relating to development in Sub Saharan Africa the book explores all the key issues including Human development Rapid urbanization Structural and gender dimensions Sustainable development and environmental issues and Africa s role in the world economy The authors use economic tools and concepts throughout in a way that makes them accessible to students without an economics background Readers are also aided by a wide range of case studies on the ground examples and statistical information which provide a detailed analysis of each topic This text is also accompanied by an e resource featuring additional sources for students and instructors African Economic Development is a clear and comprehensive textbook suitable for courses on African economic development development economics African studies and development studies **Urbanization and Socio-Economic Development in Africa** Steve Kayizzi-Mugerwa, Abebe Shimeles, Nadège Désirée Yaméogo, 2014-05-16 The main goal of this book is to put urbanization and its challenges squarely on Africa s development agenda Planned urbanization can improve living conditions for the majority help in the expansion of the middle class and create conditions for economic transformation However many African cities

have developed haphazardly resulting in the decline of public services in slum proliferation and increases in poverty African cities thrive on activities characterized by easy entry and low productivity generally referred to as the informal sector Indeed today some urban dwellers are poorer than their cousins in the countryside In spite of reform attempts many governments have not been able to create an enabling environment with adequate infrastructure and institutions to sustain markets for easy exchange and production This study argues that with careful policies and planning the situation can be changed If the recent natural resource led economic boom that we have seen in many African countries is used for structural reforms and urban renewal African cities could become centers of economic opportunity The challenge for African policymakers is to ensure that urban development is orderly and that the process is inclusive and emphasizes the protection of the environment hence green growth

The Demography of Africa Bloomsbury Publishing,1996-11-25 Written lucidly and simply to serve as an introduction to the study of the African continent from a human population perspective this book demonstrates important factors in the ebb and flow of group size and structure using the example of the fastest growing region in the world From a total original population of less than a quarter million in prehistoric times to the present count of 642 million people in 1990 Africa is now demonstrating an annual growth rate of 3.0% the highest on the planet While the rest of the world's population is expected to increase by 60% Africa's is expected to increase by 100% doubling by the year 2025 to a projected total of 1.6 billion people The major factor creating the high growth rate is the drop in death rates while the fertility rates remain high Stress on the population has been related to urbanization which has increased since African countries attained independence in the 1960s Employment opportunities in cities are inadequate and slum conditions have appeared around most major cities Since agriculture remains the major industry and occupation rural development policies are seen to hold the most promise for stemming urban migration and reducing famine and poverty

The Economic Development Process in the Middle East and North Africa Alessandro Romagnoli,Luisa Mengoni,2013-11-12 Offering a comprehensive analysis of the development of economies in the Middle East and North Africa over the past half century this book charts the progress of these countries through an examination of an Islamic model of economic development reform processes and economic integration Far from being a simple process economic development in the Middle East and North Africa is dependent on the interaction of a set of changing systems including international relations the political regime economy and society By analysing these interdependent factors The Economic Development Process in MENA seeks to provide answers to the most pressing issues facing the economies in this area Providing an interpretation of regional development in light of dialectics between state and society this book will be of value to students and scholars with an interest in the Middle East Economics and International Relations

Global Regionalization H. S. Geyer,2006-01-01 Global Regionalization examines the astonishing political and economic changes that have completely reshaped the political geography of certain regions during the past fifteen years It deals with the concept of global bloc formation examining the impacts that changing political

economic conditions and relationships in and between nations have on demographic and economic flows **Economic and Demographic Relationships in Development** Ester Boserup,1990 The 25 essays in this collection analyze developmental problems from an unusually broad perspective The first seven essays emphasize the relationships between agriculture and population while the next four are concerned with food supplies Other essays address the role of women in economic development the determinants of fertility in low income countries economic development in Africa and public policy issues ISBN 0 8018 3929 7 45 00 **The Environment and Development in Africa** Moses K. Tesi,2000-01-01 The premise of The Environment and Development in Africa is that current environmental problems in sub Saharan Africa are an outcome of the continent s development activities Whether these activities have generated economic growth and raised living standards or have led to growth without overall increases in living standards or have even contributed to a decline in people s well being developments in that region have produced effects that have degraded Africa s environment in many ways This book presents a comprehensive and systematic analysis of the context of the environmental issues facing sub Saharan African states Contributors discuss the problems associated with generating the capacity to manage Africa s environmental concerns assess the impact of economic development efforts on the region s environment and examine various societal and policy responses to environmental problems and to development problems linked to ecological decay This is an important book for scholars and policy advisors concerned with African studies and global environmental issues *Africa's Geography* Benjamin Ofori-Amoah,2019-04-30 Africa s Geography presents a comprehensive exploration of the world s second largest and most culturally diverse continent Author Benjamin Ofori Amoah challenges common misconceptions and misrepresentations of Africa from a geographical perspective harnessing the power of modern geographic mapping technology to explore this unique continent This text provides thorough coverage of the historical cultural economic and political forces that continue to shape Africa applying geographic context to relevant past and contemporary issues Coverage of economic development climate and biogeography transportation and communication manufacturing and commerce and mining and agriculture provides foundational knowledge of this vast and complex continent Ideally suited for multiple areas of classroom study this text offers an effective and flexible pedagogical framework Coverage of the entirety of Africa enables students to develop a cohesive portrait of the continent as a whole and identify the dynamism of its nations cultures and economies Engaging and accessible narrative strengthens comprehension while examples of historical and contemporary events increase student interest Innovative and unique Africa s Geography is an essential resource for cross disciplinary investigation of this fascinating part of the world **Africa's Population: In Search of a Demographic Dividend** Hans Groth,John F. May,2017-05-23 This book examines the promises as well as the challenges the demographic dividend brings to sub Saharan Africa as fertility rates in the region fall and the labor force grows It offers a detailed analysis of what conditions must be met in order for the region to take full economic advantage of ongoing population dynamics As the book makes clear

the region will need to accelerate reforms to cope with its demographic transition in particular the decline of fertility The continent will need to foster human capital formation through renewed efforts in the areas of education health and employment This will entail a true vision and determination on the part of African leaders and their development partners The book will help readers to gain solid knowledge of the demographic trends and provide insights into socioeconomic policies that eventually might lead sub Saharan Africa into a successful future

The Demographic Transition and Development in Africa Charles Teller, Assefa Hailemariam, 2011-03-04 The heated Malthusian Bosrupian debates still rage over consequences of high population growth rapid urbanization dense rural populations and young age structures in the face of drought poverty food insecurity environmental degradation climate change instability and the global economic crisis However while facile generalizations about the lack of demographic change and lack of progress in meeting the MDGs in sub Saharan Africa are commonplace they are often misleading and belie the socio cultural change that is occurring among a vanguard of more educated youth Even within Ethiopia the second largest country at the Crossroads of Africa and the Middle East different narratives emerge from analysis of longitudinal micro level analysis as to how demographic change and responses are occurring some more rapidly than others The book compares Ethiopia with other Africa countries and demonstrates the uniqueness of an African type demographic transition a combination of poverty related negative factors unemployment disease food insecurity along with positive education health and higher age of marriage trends that are pushing this ruggedly rural and land locked population to accelerate the demographic transition and stay on track to meet most of the MDGs This book takes great care with the challenges of inadequate data and weak analytical capacity to research this incipient transition trying to unravel some of the complexities in this vulnerable Horn of Africa country A slowly declining population growth rates with rapidly declining child mortality very high chronic under nutrition already low urban fertility but still very high rural fertility and high population resource pressure along with rapidly growing small urban places

Nairobi, 1969. Population growth and economic development in Africa. (Edited by S. H. Ominde ... and C. N. Ejiogu.). Charles N.
