World History Encyclopedia [21 volumes] Alfred J. Andrea Ph.D.,2011-03-23 An unprecedented undertaking by academics reflecting an extraordinary vision of world history this landmark multivolume encyclopedia focuses on specific themes of human development across cultures era by era providing the most in depth expansive presentation available of the development of humanity from a global perspective Well known and widely respected historians worked together to create and guide the project in order to offer the most up to date visions available A monumental undertaking A stunning academic achievement ABC CLIO s World History Encyclopedia is the first comprehensive work to take a large scale thematic look at the human species worldwide Comprised of 21 volumes covering 9 eras an introductory volume and an index it charts the extraordinary journey of humankind revealing crucial connections among civilizations in different regions through the ages Within each era the encyclopedia highlights pivotal interactions and exchanges among cultures within eight broad thematic categories population and environment society and culture migration and travel politics and statecraft economics and trade conflict and cooperation thought and religion science and technology Aligned to national history standards and packed with images primary resources current citations and extensive teaching and learning support the World History Encyclopedia gives students educators researchers and interested general readers a means of navigating the broad sweep of history unlike any ever published *Aging in World History* David G. Troyansky,2015-10-05 In Aging in World History David G Troyansky presents the first global history of aging At a time when demographic aging has become a source of worldwide concern and more people are reaching an advanced age than ever before the history of old age helps us understand how we arrived at the treatment of aging in the modern world This concise volume expands that history beyond the West to show how attitudes toward aging the experiences of the aged and relevant demographic patterns have varied and coalesced over time and across the world From the ancient world to the present this book introduces students and general readers to the history of aging on two levels the experience of individual men and women and the transformation of populations With its attention to cultural traditions medicalization decades of historical scholarship and current gerontology Aging in World History is the perfect starting point for an exploration of this increasingly universal aspect of human experience A World of Populations Heinrich Hartmann,Corinna R. Unger,2014-09-01 Demographic study and the idea of a population was developed and modified over the course of the twentieth century mirroring the political social and cultural situations and aspirations of different societies This growing field adapted itself to specific policy concerns and was therefore never apolitical despite the protestations of practitioners that demography was natural Demographics were transformed into public policies that shaped family planning population growth medical practice and environmental conservation While covering a variety of regions and time periods the essays in this book share an interest in the transnational dynamics of emerging demographic discourses and practices Together they present a global picture of the history of demographic knowledge Teaching World History in the

Twenty-first Century: A Resource Book Heidi Roupp,2015-02-12 This practical handbook is designed to help anyone who is preparing to teach a world history course or wants to teach it better It includes contributions by experienced teachers who are reshaping world history education and features new approaches to the subject as well as classroom tested practices that have markedly improved world history teaching *Connecting the Dots in World History, A Teacher's Literacy Based Curriculum* Chris Edwards,2015-12-04 In his previously written articles and books Chris Edwards has argued that Teaching should be considered a field that is separate from both the field of Education and from the content area fields Teaching is a field which synthesizes content and method for classroom application All of the other major intellectual fields have a canon of works which practitioners can learn from and add to but Teaching does not The Connecting the Dots in World History A Teacher s Literacy Based Curriculum series changes this by showing how effective a teacher generated curriculum can be These books can inspire other teachers to create their own curriculums and inspire a change in the way that the public views teachers and teaching *Resources in Education* ,1998 **Science and Technology in World History** James E. McClellan III,Harold Dorn,2006-06-20 The new edition reorganizes its treatment of Greek science and significantly expands its coverage of industrial civilization and contemporary science and technology with new and revised chapters devoted to applied science the sociology and economics of science globalization and the technological systems that underpin everyday life Research in Education ,1974 *Catalog of Copyright Entries.
