Port Of Basrah Iraq 1937:

   The Statesman's Year-Book M. Epstein,2016-12-23 The classic reference work that provides annually updated information on the countries of the world   **Pub151, 2001 Table of Distances Between Ports** ,2000 The Table of Distances Between Ports Pub 151 contains in a single volume tabulated distance between an alphabetical listing of departure ports junction points and arrival ports worldwide Most of the distances represent the shortest navigable routes but in some cases longer routes which take advantage of currents avoidance of ice or other dangers to navigation or to follow required traffic separation schemes are used   **Distances Between Ports** ,1991   **Britain's War in the Middle East** Martin Kolinsky,2016-07-27 During the early years of the Second World War Britain devoted immense resources to building military bases in Egypt and Palestine The political stability of the two countries was of prime concern to avoid diverting troops away from fighting the external enemy to internal security tasks The paradox of Britain s eventual victory was that it could not perpetuate its political authority Demands for independence intensified in Egypt and among Palestinian Jewry and led to postwar struggles   **Iran, Iraq, and the Legacies of War** L. Potter,G. Sick,2004-11-12 Iraq and Iran are the two most important states in the Gulf region given their population size military strength and the potential threat they pose to other states in the region This book enhances our understanding of the troubled relationship between Iran and Iraq placing it in historical context examining the rapid deterioration leading to the eight year war that started in 1980 and the effects of that trauma and exploring the ongoing issues that currently bedevil bilateral relations The authors cover such central issues as how each side has sought to use opposition groups in the other state to weaken it ethnic divisions the role of outside states especially the United States and a fascinating account of how the war affected a generation of Iraqis and Iranians The role of the U S in the region and how U S policy has affected the two states are also considered This book provides a basis for understanding the background of a tumultuous relationship that is entering a new era   **Evolution of the Shatt Al-'Arab Boundary Dispute** Richard N. Schofield,1986   **An Introduction to the Past and Present of the Kingdom of Iraq** Iraq. Committee of Officials,1946 An attempt has been made in the following pages to present to the English speaking world the picture of a young and progressive nation Foreword   **The Dynamics of Iranian Borders** Mansoureh Ebrahimi,Masoumeh Rad Goudarzi,Kamaruzaman Yusoff,2018-06-15 This book is on Iran s geopolitical importance representing a continuum of international competition for political gains and economic benefit due to the country s unique geographical location that has always been a cause of contention Iran s massive boarders and evolving political weakness along with influences from the kings of Qajar that maintained and strengthened Great Britain s hegemony in the region were major factors affecting ongoing regional conflicts Additional roles played by other world powers such as France Russia and the United States are also noted Conflicts unrest and regional wars were all consequences arising from power struggles that led to treaties and international agreements between Iran Britain and Russia that caused the eventual loss of traditional

Iranian territories Hence extrinsic impositions on Iran are the subject of this study as authors examine the turbulent climate that altered Iranian borders during the Qajar Dynasty   *List of Officers of the Department of State, Including the List of Ministers, Consuls, and Other Diplomatic and Commercial Agents of the United States in Foreign Countries* United States. Department of State,1941 List for March 7 1844 is the list for September 10 1842 amended in manuscript   *An Introduction to the Causes of War* Greg Cashman,Leonard C. Robinson,2007-03-01 This pioneering book explains the causes of war through a sustained combination of theoretical insights and detailed case studies Using the major theories of international conflict as a guide to examine contemporary examples of the outbreak of war Cashman and Robinson find that while all wars have multiple causes these factors typically combine in identifiable dangerous patterns In assessing and comparing these patterns this is the only undergraduate text to systematically join detailed case studies to the theories and empirical research carried out by political scientists on the causes of war Through the examples of World War I World War II in the Pacific the Six Day War the Indo Pakistani War of 1971 the Iran Iraq War and the Iraq War of 2003 the authors uncover the complex multilevel processes by which disputes between countries evolve into bloody conflicts They emphasize the importance of escalation through conflict spirals between rival countries They also point out the links between war and territorial disputes the underappreciated role of the domestic political environment especially internal political instability and the importance of crucial misperceptions by national leaders The authors identify specific patterns in which disputes escalate the classic rivalry spiral the domestic instability spiral and complex spirals They also find that wars between states of unequal power follow a starkly different pattern than wars between relative equals Ideal for a range of courses in international relations this focused text clearly explains theory and applies it to concrete examples in a way that allows students to fully understand the origins of war Added Case Study Ethiopian Eritrean War   **Water In The Middle East** Thomas Naff,2020-06-08 The scarcity and rapid depletion of water in one of the world s driest regions continues to be a major determinant of the domestic and external policies of the major actors in the Middle East Israel Jordan and the West Bank will have exhausted virtually all their renewable sources of fresh water by 1995 if current patterns of consumption are not radically altered This study examines the hydrological historical legal and strategic dimensions of water problems in the Middle East and discusses their implications for the future   **The Legal Regime of International Rivers and Lakes/ Le régime juridique des fleuves et des lacs internationaux** Lucius Caflisch,Ralph Zacklin,2024-11-04   **The Creation of Iraq, 1914-1921** Reeva S. Simon,Eleanor Harvey Tejirian,2004 With the U S led Operation Iraqi Freedom we are reminded that almost one hundred years ago Great Britain undertook a similar process of regime change and territorial reorganization in the same region of the world In the thick of world conflict with its strategic interests in the balance the British had to begin planning for the aftermath of the World War that permitted the redrawing of borders and the creation of new political entities One year after the beginning of World War I preparations for a new strategic order in the Middle East were already

underway For the Allies Britain France and Russia the task was different from that of the United States today Yet unlike the Coalition forces that in 2003 proclaimed the territorial integrity of Iraq the British began from scratch until 1921 the country of Iraq did not exist How did this actually come about And what were the reactions of the peoples living in that contested territory This collection of essays by leading scholars provides a comprehensive yet accessible overview of Iraq s history and its strategic importance from three points of view local residents Iraq s neighbors Iran Turkey and Kurdistan and the Great Powers The book captures the complexity of forces that contributed to the making of Iraq as a modern state integrating short and long term policy individual and group interests and the impact of World War I The Creation of Iraq helps readers to understand the dynamics and interplay of regional history and geo strategic and imperial priorities in an area of the world that will continue to dominate international politics for years to come Publisher   *Lloyd Register of Shipping 1938 Sailing Vessels* Lloyd Register Foundation,1938-01-01 The Lloyd s Register of Shipping records the details of merchant vessels over 100 gross tonnes which are self propelled and sea going regardless of classification Before the time only those vessels classed by Lloyd s Register were listed Vessels are listed alphabetically by their current name   *Register of Ships* Lloyd's Register of Shipping,1982   **Iraq: From Sumer To Saddam** Geoff Simons,1993-11-29   International Reference Service ,1941   *International Reference Service* United States.
