Portable Dickens:

The Portable Dickens Charles Dickens, 1983 Women and Personal Property in the Victorian Novel Deborah Wynne, 2016-02-17 How key changes to the married women's property laws contributed to new ways of viewing women in society are revealed in Deborah Wynne's study of literary representations of women and portable property during the period 1850 to 1900. While critical explorations of Victorian women's connections to the material world have tended to focus on their relationships to commodity culture, Wynne argues that modern paradigms of consumerism cannot be applied across the board to the Victorian period. Until the passing of the 1882 Married Women's Property Act, many women lacked full property rights; evidence suggests that for women, objects often functioned not as disposable consumer products but as cherished personal property. Focusing particularly on representations of women and material culture in Charles Dickens, George Eliot, and Henry James, Wynne shows how novelists engaged with the vexed question of women's relationships to property. Suggesting that many of the apparently insignificant items that clutter the Victorian realist novel take on new meaning when viewed through the lens of women's access to material culture and the vagaries of property law, her study opens up new possibilities for interpreting female characters in Victorian fiction and reveals the complex work of thing culture in literary texts.

Real Money and Romanticism Matthew Rowlinson, 2010-05-27 Modern systems of paper money and intellectual property became established in the Romantic period. Matthew Rowlinson shows how a new conception of material artefacts as the bearers of abstract value shaped Romantic conceptions of character, material culture, and labour.

Charles Dickens's Great Expectations Mary Hammond, 2016-03-03 Great Expectations has had a long, active, and sometimes surprising life since its first serialized appearance in *All the Year Round* between 1 December 1860 and 3 August 1861. In this new publishing and reception history, Mary Hammond demonstrates that while Dickens's thirteenth novel can tell us a great deal

about the dynamic mid Victorian moment into which it was born its afterlife beyond the nineteenth century Anglophone world reveals the full extent of its versatility Re assessing generations of Dickens scholarship and using newly discovered archival material Hammond covers the formative history of *Great Expectations* early years analyses the extent and significance of its global reach and explores the ways in which it has functioned as literature and stage TV film and radio drama from its first appearance to the latest film version of 2012 Appendices include contemporary reviews and comprehensive bibliographies of adaptations and translations The book is a rich resource for scholars and students of Dickens of comparative literature and of publishing readership and media history

Charles Dickens's *Great Expectations* Harold Bloom, 2005 Presents an overview of the novel featuring a biographical sketch of the English author a list of characters a summary of the plot and critical and analytical views of the work

Literature in a Time of Migration Josephine McDonagh, 2021-05-13 Literature in a Time of Migration offers a profound rethinking of British fiction in light of the new practices of human mobility that reshaped the nineteenth century world Building on the growing critical engagement with globalization in literary studies it confronts the paradox that at a time when transnational human movement occurred globally on an unprecedented scale British fiction appeared to turn inward to tell stories of local places that valorized stability and rootedness In contrast this book reveals how literary works from the end of the Napoleonic Wars to the advent of the New Imperialism were active components of a culture of colonization and emigration Fictional texts as print commodities were enmeshed in technologies of transport and communication and innovations in literary form were spurred by the conditions and consequences of human movement Examining works by Scott Charlotte Bront Dickens and George Eliot as well as popular contemporaries Mary Russell Mitford John Galt and Thomas Martin Wheeler this volume demonstrates how literary texts overlap with an agenda set in public discussions of colonial emigration that they also helped to shape Debates about assisted emigration forced and free migration colonization settlement and the removal of native peoples figure in fictions in complex ways Read alongside writings by emigration theorists practitioners and enthusiasts for colonization fictional texts reveal a powerful and sustained engagement with British migratory practices and their worldwide consequences Literature in a Time of Migration is a timely reminder of the place and importance of migration within British cultural heritage

Dickens's *Secular Gospel* Chris Louttit, 2009-05-07 The first full length study on the subject of Dickens and work this book reshapes our understanding of Dickens by challenging a critical oversimplification that Dickens s attitude towards work reflects conventional expressions of Victorian earnestness of the sort attributed also to Thomas Carlyle John Ruskin and even more simplistically Samuel Smiles Instead by analyzing a wide range of Dickens s fiction and journalism in the light of new biographical and historical research Louttit shows that Dickens is not interested in work as an abstract positive value or even in cataloguing it in concrete detail What he explores instead is the human dimension of work how in other words work affects the lives of those engaged in it His writing about work is as a result best viewed not merely as a quasi religious Gospel of Work nor as an objective sociological

report but rather as what Louttit terms a secular gospel Dickens's Artistic Daughter Katey Lucinda Hawksley,2018-04-30

A biography of a Victorian era woman who grew up as the daughter of novelist Charles Dickens and found a creative career of her own Katey Dickens was born into a house of turbulent celebrity and grew up surrounded by fascinating famous and infamous people From a very young age she knew her vocation was to be an artist Lucinda Hawksley charts the life of a celebrated portrait painter who redefines our preconceptions about Victorian women Living to be almost ninety Katey survived an unconventional marriage love affairs heartbreak depression and the challenges of being a female artist in a male dominated era Compelling and illuminating this biography of Katey Dickens tells the story of a spirited woman who found fame at the center of the first celebrity phenomenon it also uncovers the reality of what it was like to be a child of Charles and Catherine Dickens DICKENS'S DICTIONARY OF THE THAMES ,1856 Commodity Culture in Dickens's Household Words Catherine Waters,2016-12-05 In 1850 Charles Dickens founded Household Words a weekly miscellany intended to instruct and entertain an ever widening middle class readership Published in the decade following the Great Exhibition of 1851 the journal appeared at a key moment in the emergence of commodity culture in Victorian England Alongside the more well known fiction that appeared in its pages Dickens filled Household Words with articles about various commodities articles that raise wider questions about how far society should go in permitting people to buy and sell goods and services in other words how far the laissez faire market should extend At the same time Household Words was itself a commodity With marketability clearly in view Dickens required articles for his journal to be imaginative employing a style that critics ever since have too readily dismissed as mere mannerism Locating the journal and its distinctive handling of non fictional prose in relation to other contemporary periodicals and forms of print culture this book demonstrates the role that Household Words in particular and the Victorian press more generally played in responding to the developing world of commodities and their consumption at midcentury English Writers B. A. Sheen,2004 English Writers A Bibliography with Vignettes **Richard Flanagan** Robert Dixon,Ben Holgate,Joseph Cummins,Laura A. Novel Craft Talia Schaffer, 2011-01-15 *Novel Craft* explores an intriguing and under studied aspect of cultural life in Victorian England domestic handicrafts the decorative pursuit that predated the Arts and Crafts movement Talia Schaffer argues that the handicraft movement served as a way to critique the modern mass produced commodity and the rapidly emerging industrial capitalism of the nineteenth century Her argument is illustrated with the four pivotal novels that form her study's core Gaskell's *Cranford* Yonge's *The Daisy Chain* Dickens's *Our Mutual Friend* and Oliphant's *Phoebe Junior* Each features various handicrafts that subtly aim to subvert the socioeconomic changes being wrought by industrialization Schaffer goes beyond straightforward textual analysis by shaping each chapter around the individual craft at the center of each novel paper for *Cranford* flowers and related arts in *The Daisy Chain* rubbish and salvage in *Our Mutual Friend* and the contrasting ethos of arts and crafts connoisseurship in *Phoebe Junior* The domestic handicraft also allows for self referential analysis of the text itself in scenes of craft production and destruction the authors articulate the work they hope their own fictions perform The handicraft also becomes a locus for critiquing contemporary aesthetic trends with the novels putting forward an alternative vision of making value and understanding art A work that combines cultural history and literary studies *Novel Craft* highlights how attention to the handicraft movement's radically alternative views of materiality consumption production representation and subjectivity provides a fresh perspective on the major changes that shaped the Victorian novel as a whole

Ignoble Displacement Stephanie Polsky, 2015-09-25 We live in a time of great social political and economic crisis that many date to the collapse of the global banking system in 2008 Many are finding it difficult to contextualise the hardships that have taken place in the years following on from those events It is difficult to find the answers in our present media landscape or in a political and intellectual climate that continues to laud capitalism as the winning economic system coming out of both World War II and the end of the Cold War which has become over the last century synonymous with democracy itself The irony is that in our times the majority of the world's people feel disenfranchised by both capitalism and democracy How did we come to this historical juncture What can we learn not just from history but from

our cultural artefacts that might tell us how we first came to conduct ourselves within a system of global finance capitalism This volume proposes that we reinterpret the writings of Charles Dickens to find the antecedents of our present situation with regards to capital empire and subjectivity Writing the Stage Coach Nation Ruth Livesey, 2016-09-08 Why is it that so many of the best loved novels of the Victorian era take place not in the steam powered railway present in which they were published but in the very recent past Most works by Dickens Bront Eliot and Hardy set action neither in the present nor in a definitively historical epoch but rather in a just past of collective memory a vanishing but still tangible world moving by stage and mail coach It is easy to overlook the fact that Jane Eyre Bleak House and Middlemarch for example are in this sense historical novels recreating places and times that are just slipping from the horizon of here and now Ruth Livesey brings to the surface the historical consciousness of such novels of the just past and explores how they convey an idea of a national belonging that can be experienced through a sense of local place The journey by public coach had long been an analogy for the form of the novel as it took shape in the eighteenth century smooth engineered roads and the rapid circulation of print was one means by which Britain was reimagined as a modern peaceable and communicative nation in the aftermath of the Napoleonic wars But by the later 1840s the end of the stage coach was assured and that made it a highly charged figure of a lost national modernity In its halts relays stops at inns and crossing points the stage and mail coach system offered a different experience of mobility and being in place passages of flight and anchoring points from the vectors of the railway that radiated out from industrial and urban centres This book opens by examining the writing of the stage coach nation in Walter Scott's fiction and in the work of the radical journalists William Hazlitt and William Cobbett Livesey suggests that in turning to the just past of the stage coach imaginary later novels by Dickens Bront and Eliot reach out to the possibility of a nation knitted together by the affect of strongly felt local belonging This vision is of a communicative nation at its liveliest when the smooth passage of characters and words are interrupted and overset delivering readers and protagonists to local places thick with the presence of history writ small
