Portrait Et Seduction:

The Portrait and the Book Megan Walsh, 2017-05-15 In the nineteenth century new image making methods like steel engraving and lithography caused a surge in the publication of illustrated books in the United States Yet even before the widespread use of these technologies Americans had already established the illustrated book format as central to the nation's literary culture In *The Portrait and the Book* Megan Walsh argues that colonial era author portraits such as Benjamin Franklin's and Phillis Wheatley's frontispieces political portraits that circulated during the debates over the Constitution such as those of the Founders by Charles Willson Peale and portraits of beloved fictional characters in the 1790s such as those of Samuel Richardson's heroine Pamela shaped readers' conceptions of American literature Illustrations played a key role in American literary culture despite the fact there was little demand for books by American writers Indeed most of the illustrated books bought sold and shared by Americans were either imported British works or reprinted versions of those imported editions As a result in addition to embellishing books illustrations provided readers with crucial information about the country's status as a former colony Through an examination of readers' portrait collecting habits writers' employment of ekphrasis printers' efforts to secure American made illustrations for periodicals and engravers' reproductions of British book illustrations Walsh uncovers in late eighteenth century America a dynamic but forgotten visual culture that was inextricably tied to the printing industry and to the early US literary imagination

The Portrait in Fiction of the Romantic Period Joe Bray, 2016-05-26

Beginning with the premise that the portrait was undergoing a shift in both form and function during the Romantic age Joe Bray examines how these changes are reflected in the fiction of writers such as Maria Edgeworth Jane Austen Sir Walter

Scott Elizabeth Hamilton and Amelia Opie Bray considers portraiture in a broad sense as encompassing caricature and the miniature as well as the classic portraits of Sir Joshua Reynolds and others He argues that the portrait in fiction often functions not as a transparent index to character or as a means of producing a straightforward likeness but rather as a cue for misreading and a sign of the slipperiness and subjectivity of interpretation The book is concerned with more than simply the appearance of portraits in Romantic fiction however More broadly The Portrait in Fiction of the Romantic Period investigates how the language of portraiture pervades the novel in this period and how the two art forms exert mutual stylistic influence on each other *Anti-Portraits: Poetics of the Face in Modern English, Polish and Russian Literature (1835-1965)* Kamila Pawlikowska, 2015-10-05 Anti Portraits Poetics of the Face in Modern English Polish and Russian Literature 1835 1965 is a study of a physiognomic descriptions of the face It demonstrates that writers such as George Eliot Leo Tolstoy Edgar Allan Poe Nicolay Gogol Virginia Woolf and Witold Gombrowicz vigorously resisted the belief that facial features reflect character While other studies tend to focus on descriptions which affirm physiognomy this book examines portraits which question popular face reading systems and contravene their common premise the surface depth principle Such portraits reveal that physiognomic formula is a cultural construct invented to abridge organise and regulate legibility of the human face Most importantly strange and unreadable fictional faces frequently expose the connection between physiognomic judgement and stereotyping prejudice and racism Portrait and Place Giulia Paoletti, 2024-03-05 Strategically located on the Atlantic Ocean at the westernmost point of the continent Senegal is well known as an epicenter of Africa s modernities modernisms and liberation movements It was also one of the countries where the daguerreotype first arrived in sub Saharan Africa before circulating inland and across the region At that time Senegal did not exist as a nation state local kingdoms were still in power and the French presence was limited to trading posts along the coast The pioneers of photography in the 1840s were not exclusively Europeans but also African African American and Asian entrepreneurs In the decades that followed amateurs and professionals working in rural areas continued to explore and expand photography s possibilities Senegal s photographic histories thrived as part of a global visual economy during and despite the colonial experience Its works emerged as an integral part of the history of this medium which unlike any other was a global enterprise from the very beginning Portrait and place offers the first history of photography in this important country from its first iterations photographers and patrons of the 1840s to photographers such as Oumar Ka b 1930 and Mama Casset 1908 1992 who were were active in the 1960s during the transition from the colonial to the postcolonial era Giulia Paoletti presents close studies of photographs firmly anchoring these objects their authors and their consumers in a global context that extends across West Africa the Black Atlantic and the greater Islamic community in other words beyond the borders of colonial empire Based on over ten years of field and archival research in Senegal this book features almost exclusively new previously unpublished visual material and explores both professional and amateur artists working in a wide variety of

genres from landscape to portraiture and in media such as daguerreotypes and glass paintings As the first book to focus exclusively on Senegal s photographic histories Portrait and place expands the notions of what the medium has been and can be from a Eurocentric model to one that is decidedly insistently larger and more inclusive *Portraits by Ingres* Jean-Auguste-Dominique Ingres,National Gallery (Great Britain),1999 Om portr tter af den franske maler Jean Auguste Dominique Ingres 1780 1867 Catalogue of Books Added to the Library of Congress, from Dec. 1, ... to Dec. 1, ... The Surprising Effects of Sympathy David Marshall,1988 Through readings of works by Marivaux Diderot Rousseau and Mary Shelley David Marshall provides a new interpretation of the eighteenth century preoccupation with theatricality and sympathy Sympathy is seen not as an instance of sensibility or natural benevolence but rather as an aesthetic and epistemological problem that must be understood in relation to the problem of theatricality Placing novels in the context of eighteenth century writing about theater fiction and painting Marshall argues that an unusual variety of authors and texts were concerned with the possibility of entering into someone else s thoughts and feelings He shows how key eighteenth century works reflect on the problem of how to move touch and secure the sympathy of readers and beholders in the realm of both art and life Marshall discusses the demands placed upon novels to achieve certain effects the ambivalence of writers and readers about those effects and the ways in which these texts can be read as philosophical meditations on the differences and analogies between the experiences of reading a novel watching a play beholding a painting and witnessing the spectacle of someone suffering *The Surprising Effects of Sympathy* traces the interaction of sympathy and theater and the artistic and philosophical problems that these terms represent in dialogues about aesthetics moral philosophy epistemology psychology autobiography the novel and society *Ruth Harriet Louise and Hollywood Glamour Photography* Robert Dance,Bruce

Robertson,2002-05-06 In her career Louise photographed all the stars contract players and many of the hopefuls who passed through the studios front gates This book which coincides with a traveling retrospective of Louise s work is the first collection of her exquisite photos 97 photos **The Painted Face** Tamar Garb,2007-01-01 The meaning of a painted portrait and even its subject may be far more complex than expected Tamar Garb reveals in this book She charts for the first time the history of French female portraiture from its heyday in the early nineteenth century to its demise in the early twentieth century showing how these paintings illuminate evolving social attitudes and aesthetic concerns in France over the course of the century The author builds the discussion around six canonic works by Ingres Manet Cassatt C zanne Picasso and Matisse beginning with Ingres s idealized portrait of Mme de Sennones and ending with Matisse s elegiac last portrait of

his wife During the hundred years that separate these works the female portrait went from being the ideal genre for the expression of painting's capacity to describe and embellish nature to the prime locus of its refusal to do so Picasso's Cubism and specifically *Ma Jolie* provides the fulcrum of this shift **Venice & the Grand Tour** Bruce Redford,1996-01-01 According to Bruce Redford the Tour offered a heady combination of aesthetic social political and sexual experience and it provided its alumni with a life long source of cultural and political authority Yet from the beginning the Tour was also viewed with deep suspicion it was feared that the very experiences that completed the British gentleman might well undo him
