**Debate** Susan Gross Solomon,2019-07-16 The first decade of Soviet cultural life was marked by a pluralism unmatched in the subsequent history of the USSR In many fields of art and science Party and non Party proletarian and bourgeois intellectuals worked side by side vigorously debating questions of substance and method In this first major study of a Soviet field of social science in the post Revolution period Dr Solomon examines the controversy that divided social scientists studying the economy and society of the Soviet peasant during the 1920s The intellectual disagreements in post Revolution Soviet rural studies were exacerbated by social political and professional differences among the contending scholars The infighting between the groups was bitter Yet in contrast to recent studies of other Soviet professions in the 1920s the author finds that in rural studies Marxists and non Marxists had much in common Her findings suggest that the coexistence of the old and the

new in Soviet rural studies might have lasted for some time had not external political forces intervened in late 1928 acting as a pressure on the field and eventually causing its demise      **History of Jefferson County, New York** Samuel W.
