Jung's Theory of Personality Clare Crellin, 2014-05-23 This book provides a re appraisal of Carl Jung s work as a personality theorist It offers a detailed consideration of Jung s work and theory in order to demystify some of the ideas that psychologists have found most difficult such as Jung s religious and alchemical writings The book shows why these two elements of his theory are integral to his psychology of personality and goes on to propose a framework on which to base a collaborative research programme that could provide much needed and at present unavailable validation data for some of Jung s key theoretical concepts Divided into two parts theory and practice the author begins by emphasising the importance of religion and alchemy for understanding Jung s key concepts of individuation and the self as well the link between Jung s

concept of the archetype and its function in the development and transformation of personality The book considers the whole of Jung's work as a comprehensive theory of personality to which all strands including his writings on religion and on alchemy contribute The second part of the book is both empirical and theoretical Crellin reviews the history of the presentation of Jung's work in personality literature and discusses how inaccurate representation the limitations of existing evaluation criteria and consequent negative perceptions of Jung's theory in textbooks of personality psychology have contributed to the creation of a mythical Jung This book will appeal to both psychological practitioners who are unfamiliar or only have a vague understanding of Jung's ideas as well as Jungian psychoanalysts who are knowledgeable about Jung's writings but whose training may not have addressed the problem of theory evaluation in relation to Jung's theory

Jung and the Bible Wayne Rollins, 2013-09-01 Out of the life and thought of a noted psychologist Carl Jung comes a captivating approach to reading and interpreting the Bible The book opens with the question Why is it that the images characters and stories of Scripture have the power to catalyze the imagination of the human psyche not only among religious people but also among artists moviemakers playwrights and songwriters some of whom are disenchanted with church clergy and established religion The answer to the question begins with Jung's statement that the Bible is an utterance of the soul Jung sees the Bible as a treasury of the soul psyche that is the testimony of our spiritual ancestors proclaiming in history and law prophecy and psalm gospel and epistle genealogy and apocalypse their experience of the holy and drawing us and others through us into that experience The Bible is no stranger to Carl Jung No document is cited by Jung more often and no cast of characters from any tradition is summoned to the stage of Jung's discourse with greater regularity than are the Adams and Abrahams the Melchizedeks and Moseses the Peters and Pauls of
